Footsteps for Freedom

How we have been Tricked to Agree to Slavery

What is all this about?

“If you tell a lie big enough and keep repeating it, People will eventually come to believe it.”

Joseph Goebbels, Hitler’s Nazi Minister of Propaganda

There are many ways we are unknowingly are treated as slaves in todays society. The Deep State agenda - which is behind governments, states and systems - want to remove all freedom as they thrive on our energy and powers.

- * Freedom of speech
- * Freedom to choose own medical interventions
- * Freedom to choose the quality of food you eat and water to drink
- * Freedom to travel without restrictions
- * Freedom to own your own property
- * Freedom to make decisions on your children’s education, health and rearing etc.

“If freedom of speech is taken away, then dumb and silent we may be led, like sheep to the slaughter.”

- George Washington

It is a world of dictatorship where the few decide and control the masses.

We now live in a world of...

- * Heavy censorship and loss of freedom of speech
- * Travel restrictions and border closures
- * Crazy lockdowns and family separations
- * Forced tests and masks

- * Huge division, betrayal and denunciation
- * High risk of mandatory vaccination and vaccine passports
- * Small and medium business closures and bankruptcies

This feels like the opposite of freedom and more like slavery.

How can this be possible in democratic countries?

Are we as free as we think we are?

What is hidden, often in plain sight?

What is it we don't see and know?

How can we shift what we are not even conscious of?

How many will have to die before we claim our freedom and powers?

"When our own government no longer sees us as human beings with dignity and worth but as things to be manipulated, maneuvered, mined for data, manhandled by police, conned into believing it has our best interests at heart, mistreated, and then jails us if we dare step out of line, punishes us unjustly without remorse, and refuses to own up to its failings, we are no longer operating under a constitutional republic.

Instead, what we are experiencing is a pathocracy: tyranny at the hands of a psychopathic government, which "operates against the interests of its own people except for favoring certain groups."

[David Icke](#)

For some this is clear as water. But for many this whole agenda of the deep state is invisible, or at least unbelievable. There is still a majority of people who cannot grasp the implications of the so called 'protection-measures' in this p(l)andemic. This is why we call it living in a 'Matrix'.

In this book we explore some of the traps and ways we are hijacked, deceived, spell cast and programmed to stay in the Matrix.

First step to break free from the Matrix and Deep State agenda, is to realize where we are not free and why.

Where we unknowingly agree and give our silent consent to the contracts they offer.

As we have free will, they need our consent to let them do what they do.

The Deep State (defined later) need us to keep their agenda. They have a toolbox filled with different ways to deceive, numb, distract, control, hijack and spell cast us into this consent.

What we need to remember is that in a way, the Deep State are more slaves to their own agenda and systems than we are.

They need us to stay alive!

We, the other 99% of the population, are born as Sovereign living wo/men who not only have free will, but infinite power and energy.

The question is if we are ready to step up, take a stand and own these powers! Hence, our volition (intent) with this book is to remove the veil so you can, with your free will, stop playing their games and take back our power.

We do not attempt to reveal the whole agenda in depth, but to point to some directions so you can see the bigger picture. We want to connect the dots of everything going on right now, as these are not coincidences or separate events – but part of a huge plan going back thousands of years.

“The greatest fight in the history of the world and the world of ideas is the fight to establish a universal morality.”

- Stefan Molyneux

We consciously use references such as Wikipedia - not because it is the best one – but because it is one that many know and are familiar with. This to state the fact that this information is not even hidden or a secret.

We also bring in many quotes, again to show this is not us making stuff up, but available information for everyone to find. It is less conspiracy theory than you might believe... ;)

To start to take footsteps for your freedom is to take a stand and say NO.

No thank you, I do not consent.

To do that, we need to learn their game, see the Deep State agenda and where we agree to stay enslaved, without even knowing.

“Given the importance of or the protection of Human Rights and as an ethical doctrine, it is applicable to Universal Laws in the petition of demanding factual truths of accurate events to be revealed to the human population in the event of full disclosure.

At this time on the planet earth in the larger global events designed for world slavery and extradimensional entities genocidal agendas, informed consent in this larger context is non-existent.

Therefore, all people interested to serve the disclosure movement can benefit through the comprehension of the higher principles of informed consent and the lack thereof, to open dialogue on the ethical implications this has made against the human race, as the demand for full disclosure grows stronger and becomes more unified.

At this point, the lack of informed consent as the result of non-disclosure of true and accurate events on this planet, establishes gross negligent abuse, which can directly lead to multiple species genetic annihilation as well as other devastating consequences.”

Conspiracy theorists

Are we at Wholyland conspiracy theorists?

Yes, we are and proud to be so, as the meaning of Conspiracy is 'breath together with spirit'/breathe together in spirit/ breathe together/with spirit. Spirare also means spirit. You can pick and choose which meaning resonate best with you.

Many people believe what is being said outside of the mainstream media is all conspiracy. They have also started to teach in Danish schools - and possibly others around the world - about so called conspiracy's.

In other words, conspiracy includes anything that is natural and goes against the propaganda narrative of mainstream media.

They are even producing cartoons, teaching materials and books to encourage children to wear masks, get vaccinated and keep the distance from others. (More on why this is an issue later).

They have even gone so far that on a popular morning show in Sweden they had a psychologist saying that conspiracy theorists are brain damaged and dangerous! Couldn't be further from the truth, would it?

"The word 'conspiracy' derives from the Latin *con-* ('with, together') and *spirare* ('to breathe')."

The term "conspiracy theory" is itself the subject of a conspiracy theory, which claims the term was popularized by agents of the United States CIA in order to discredit conspiratorial believers, particularly critics of the Warren commission, by making them a target of ridicule."

Wikipedia

Mainstream media keep us from the truth consciously and unconsciously. The news we hear may have some truth, but aspects are blown out of proportion to meet the agenda of those who control the media.

Three guesses who this is?

Fake news or incorrect facts have always been part of the news as sensationalism sells. But today censorship and lies have reached a whole new level. Smaller media companies have now become part of one of the 6 giants. That is also why we get the exact same wordings on most media channels. They receive a script and read it up. As simple as that.

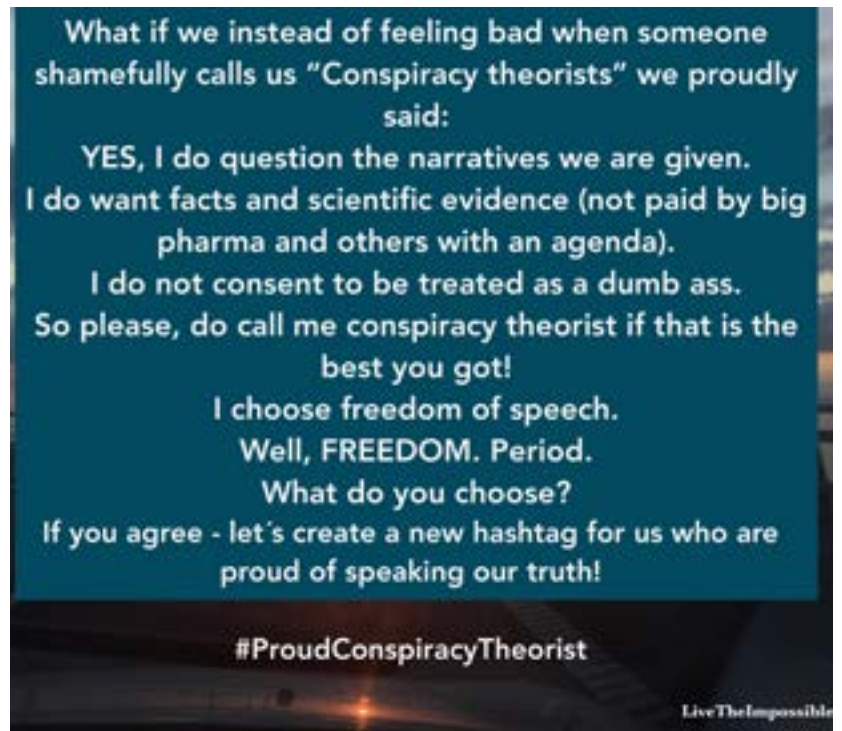

The alternative news also has its own agendas, so it's important to always feel into what feels true for you and to do more research.

The answer to questions is less important than the question itself.

It's all about to be open to hear different opinions and be prepared to change your mind. What many despitely call conspiracy theorists, are often just looking for the truth.

We do not have an agenda, we want the truth!

It's vital to ask questions. We need to look at things from many different perspectives to see the big picture. When we see/hear things in the media etc. that create a contraction, confusion and the small voice in your heads says: "this doesn't make sense, it doesn't add up", this is when it's even more vital to stay open. It is our own responsibility to look into the facts rather than push it away as a conspiracy.

We have been on this journey for some time and done lots of research. We share with you what rings true for us right now. At the moment new revelations are appearing daily so it's an ongoing task. With new knowledge we also alter our truths.

Many things that were once called conspiracy theories have later proved to be true and accepted as facts. It was a conspiracy to believe the corona virus come from Wuhan in China last year. Now they have acknowledged it as a fact.

We are many who are called conspiracy theorists, foil hats, paranoia idiots, extremists, stupid idiots, intimidation propaganda lovers, anti-vaxxers, Trumpers. When in reality most of us don't care about politics, but all we want is the truth and freedom.

We ask questions, question the status quo, media propaganda and the government. We believe we have been deceived, tricked, even brainwashed and enslaved, to give our unconscious consent.

We never tell others what they shall believe. We ask questions, research from official sites and scientific papers. Lots of information is hidden in plain sight. You just need to xplore.

Official sites can give us much information, if we prioritized our time to look for it. Instead, most people use their time to watch the news and netflix.

e.g

- * [World Economic Forum](#) and read/listen to the [Agenda 2030 – the great reset](#). It's many levels deep but all accessible.
- * Search the [patent office](#) and you will find there are many patents filed about Covid and vaccination for it, pre mid 2019 and some scary AI technology to use in our bodies.
- * Follow the [CDC - The Centers for Disease Control and Prevention, in the USA](#), [VAERS – Vaccine Advert Events Report System](#), [EMA – European Medical Agency in Europe on deaths and vaccine injuries](#), Vaccination information in [Europe](#), [Canada](#), [UK](#) or [Sweden](#) etc.

What people are afraid of is, if they awaken thoughts that rumble in the depths of their soul, they might wake their own dragon who wants to be free and live in truth.

They will have to face their own shadows and demons and shatter all the illusions of what they thought they knew. Their whole world illusion of the matrix crumbles.

**f everything we have been taught is a lie who are we?
Who can we trust?
What are we to believe?**

It's a similar phenomenon for people who are abused who stay with their abuser. They hold on to the illusions and stay because they love the partner, that the partner promised to stop or believe it's their own fault...

Basically, it is about being afraid of the *unknown*. We know what we have, but not what we get.

Let the crumbling of the Matrix begin and let us roar....

The Matrix

“If you have seen the movie The Matrix, please understand that it is more real than we might believe. In the movie the main character, Neo, is offered two pills: the red pill for awakening to the true reality and the blue pill to stay asleep within the illusion.

Many people are not aware – not conscious or awake – to a greater multidimensional reality than the 3D version. They are still in the Matrix (material reality) and asleep. Or have one leg in each reality. We have written this book for those of you who are awake, ready to see the big picture, but might struggle to embody what you know, or still feel separated and want more in life.

We want to be the awakening red pill to open your eyes and your heart to a larger truth, so you can reconnect to your own inner wisdom and power, thus giving you a new level of freedom.”

[Holy F*ck and Sacred Water](#)

“We’re not here because we’re free. We’re here because we’re not free. There’s no escaping reason. No denying purpose. Because as we both know without purpose, we would not exist.”

–Agent Smith to Neo

The Matrix – which we also can call the Control matrix by the Deep State - is symbolized by the 3rd dimension. When we take the red pill, we open up to the 4th dimension of the hidden agendas, alien races, demons and angels and other things hidden behind the veils of illusion.

We see the AI technology, the unnatural and artificial programs of the 'Smiths' that control our planet.

"Agent Smith (later simply "Smith") was an Agent of the Matrix and the main antagonist of the series. After being initially destroyed by Neo, he became an Exile program and manifested as a computer virus; characterised by his uncanny ability to copy himself over the minds of bluepills, redpills and programs alike."

[Matrix fandom](#)

Some people take the white pill of the spiritual path. We learn from masters, gurus and spiritual teachers about golden age, oneness and bliss. At times these spiritual teachings are also altered, hijacked and have spells cast on them. Over the last few years, it has been revealed that many gurus are part of the Deep State agenda.

They use dark magic, occultism and satanic rituals to enslave, control and feed their own egos (e.g. John of God). At the same time, many spiritual seekers end up living with spiritual bypass - fear of truth and darkness. They become passive while waiting for a farting unicorn prince to save them.

In other words, there are many pills to take to wake up to all the layers: millennia's and dimensions of deceptions, lies, hijacks, spells and illusions that the Deep State have cast upon us to keep us enslaved in their Control Matrix.

When we start to pop pills to wake up, we do need to be mindful of the cocktail effect. Did you know that medical errors are the third most common cause of death?

The cocktail effect – the synergy effect from mixing different meds - is a big chunk of these deaths. What we say is to be mindful with the “awakening pills” as well.

“The real act of discovery consists not in finding new lands but in seeing with new eyes.”

- Marcel Prost

Do not take them all at once. When we start to dive into the rabbit holes of the Deep State agendas and how we are enslaved, please discern how much you can take. There is always a risk of trauma, psychosis and to go nuts if you go into this too deep and too fast.

Go steady, go wise - listen to your inner wisdom and take one footstep at a time.

The freedom journey is a marathon, not a sprint....

Films, football, beer,
and above all,
gambling filled up
the horizon of their
minds. To keep them
in control was not
difficult.
-George Orwell

What is the Deep State?

“The Deep State is a hybrid of national security and law enforcement agencies: the Department of Defense, the Department of State, the Department of Homeland Security, the Central Intelligence Agency and the Justice Department. I also include the Department of the Treasury because of its jurisdiction over financial flows, its enforcement of international sanctions and its organic symbiosis with Wall Street.”

Mike Lofgren, author of [Deep State:](#)

[The Fall of the Constitution and the Rise of Shadow Government](#)

This definition might not be totally encompassing. It goes deeper than that. When we speak about the Deep State, we bunch many into one. Deep State can be known by many different names including: Cabal, Illuminati, Shadow Government and the New World Order – Now known as the Great Reset.

It is a pyramid structure and the ones we know the most about are not the very top of the pyramid, but 13 families of the elite, Royalty, Vatican and influential individuals. They include names the likes of the Rockefeller's, Rothschild's and Medici's.

They are the power behind governments, states and systems. The ruling government parties such as the Democrats and Republicans in the USA and the Labour and Conservatives in the UK are just puppets. It makes very little difference to who is in power!

This has been going on since the time of the Babylonians, at least and their power has been amplified since WWII.

Mike Lofgren was the first to use the term Deep State, in an essay

and exclusive interview on Moyers and Company, to refer to a web of entrenched interests in the US government and beyond (most notably Wall Street and Silicon Valley, which controls access to our every click and swipe) that dictate America's defence decisions, trade policies and priorities with little regard for the actual interests or desires of the American people.

With that said, this is a global group – infiltrated everywhere.

“The Power Elite of [Deep State](#) are a small group of people who conjure Black Magic through dark rituals that are used for maintaining contact with the NAA, in order to control the entire planet through the manipulation of the Collective Consciousness through fear based programming that is transmitted via Mind Control.”

“NNA: The Negative Alien agenda NAA is to force the planet to serve another multiple species Controller agenda, through imposing false replicated time fields using bio-warfare technology such as Holographic Inserts, AI and Mind Control, namely created under genetically “reptilian based” Archons extraterrestrials, at the expense and life force of the human race and the kingdoms under human domain.”

[Ascension glossary](#)

What is their agenda?

They want a one world order, or as they put it these days, the great reset. In other words, a world where the few control and have power of the many. Were the people own nothing, is fully dependent and controlled by the elite.

This one world order is being driven by the 13 families and an elite few agents and organisations who are at the centre of this agenda. Such as the World Health Organisation, World Economic Forum and United Nations, as are big Non Government Organisations (NGO's) like Red Cross, Oxfam, Planned Parenthood etc.. and large corporations such as Google, Amazon and Microsoft.

On the surface as you look at - for instance the World Economic Forum the Great Reset Agenda and the United Nations 17 goals for sustainability - they all sound good.

However, when you start to dig deeper, the way they propose for this agenda to occur is less inviting. This agenda has been going on for many many years.

It includes mass vaccination, surveillance, AI takeover of many roles, even that of professionals like psychologists and implement stakeholder capitalism.

“All that was required of them was a primitive patriotism which could be appealed to whenever it was necessary to make them accept longer working hours or shorter rations.

And even when they became discontented, as they sometimes did, their discontent led nowhere, because, being without general ideas, they could only focus it on petty specific grievances.

The larger evils invariably escaped their notice.”

—George Orwell, 1984

“Clearly, we are now ruled by an oligarchic elite of governmental and corporate interests.

We have moved into “corporatism” ([favored by Benito Mussolini](#)), which is a halfway point on the road to full-blown fascism.

Corporatism is where the few moneyed interests— not elected by the citizenry—rule over the many.”

[David Icke](#)

“Welcome to the year 2030. Welcome to my city - or should I say, "our city".

I don't own anything. I don't own a car. I don't own a house. I don't own any appliances or any clothes...

When AI and robots took over so much of our work, we suddenly had time to eat well, sleep well and spend time with other people...

For a while, everything was turned into entertainment and people did not want to bother themselves with difficult issues. It was only at the last minute that we found out how to use all these new technologies for better purposes than just killing time.

My biggest concern is all the people who do not live in our city. Those we lost on the way. Those who decided that it became too much, all this technology. Those who felt obsolete and useless when robots and AI took over big parts of our jobs. Those who got upset with the political system and turned against it.

They live different kind of lives outside of the city. Some have formed little self-supplying communities. Others just stayed in the empty and abandoned houses in small 19th century villages.

Once in a while, I get annoyed about the fact that I have no real privacy. No where I can go and not be registered. I know that, somewhere, everything I do, think and dream of is recorded. I just hope that nobody will use it against me.”

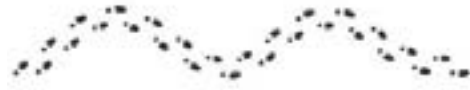

[World Economic Forum](#)

The World Economic Forum make it sound good with a great reset. They will give us food and housing (for the small price of our freedom).

“You can avoid reality, but you cannot avoid the consequences of avoiding reality.”

- Ayn Rand

Want to travel?

For your own and others safety you need a vaccine passport.

Want to live in the countryside?

Then you don't get any money to live, as we should all stick together and be cool in the cities.

Countries that follow such a socialistic agenda sooner or later end up as communist, fascist or ruled by a dictator. This seems to be where we are heading if we do not stand our ground and claim our freedom.

With one world order implemented we become even more enslaved to the system than we are now.

The Bilderberg Group

This group of elite members have shown their true colors on many occasions. Yet, most people are not even aware of them and their agendas.

What is the Bilderberg group and who are the members?

“The Bilderberg meeting (also known as the Bilderberg Group) is an annual conference established in 1954 to foster dialogue between Europe and North America. The group’s agenda, originally to prevent another world war, is now defined as bolstering a consensus around free market Western capitalism and its interests around the globe.

Participants include political leaders, experts from industry, finance, academia, and the media, numbering between 120 and 150. Attendees are entitled to use information gained at meetings, but not attribute it to a named speaker. This is to encourage candid debate, while maintaining privacy – a provision that has fed conspiracy theories from both left and right.

Meetings were chaired by Prince Bernhard of the Netherlands until 1976. The current Chairman is Henri de Castries.

Historically, attendee lists have been weighted toward bankers, politicians, directors of large businesses and board members from large publicly traded corporations, including IBM, Xerox, Royal Dutch Shell, Nokia and Daimler. Heads of state, including former [King](#) Juan Carlos I of Spain and former Queen Beatrix of the Netherlands, have attended meetings. A source connected to the group told The Daily Telegraph in 2013 that other individuals, whose names are not publicly issued, sometimes turn up "just for

the day" at the group's meetings. Various popular conspiracy theories describe the Bilderbergers as the most powerful group of men in the history of the planet.

In August 2010, former Cuban president Fidel Castro wrote an article for the Cuban Communist Party newspaper Granma in which he cited Daniel Estulin's 2006 book *The Secrets of the Bilderberg Club*, which, as quoted by Castro, describes "sinister cliques and the Bilderberg lobbyists" manipulating the public "to install a world government that knows no borders and is not accountable to anyone but its own self."

Proponents of Bilderberg conspiracy theories in the United States include individuals and groups such as the John Birch Society, political activist Phyllis Schlafly, writer Jim Tucker, political activist [Lyndon LaRouche](#), conspiracy theorist Alex Jones, and politician Jesse Ventura, who made the Bilderberg group a topic of a 2009 episode of his [TruTV](#) series *Conspiracy Theory with Jesse Ventura*. Non-American proponents include Lithuanian writer Daniel Estulin and British politician Nigel Farage.

Concerns about lobbying have arisen. Ian Richardson sees Bilderberg as the transnational power elite, "an integral, and to some extent critical, part of the existing system of global governance", that is "not acting in the interests of the whole". An article in *The Guardian* in June 2017 criticized the world view expressed in an agenda published by the Bilderberg group."

- [Wikipedia](#)

Further to the article mentioned above from June 2017 in The Guardian:

“Bilderberg insider Eric Schmidt, who runs Google, once began a speech at Davos with the words: “I assume that everybody here agrees that globalisation is wonderful.” Sitting in the audience at Bilderberg are the heads of four of the world’s 10 largest financial services companies: AXA, Allianz, ING and Banco Santander. You’ve got to assume that “Can globalisation be slowed down?” is going to be met by roars of laughter and a hail of bread rolls....

...But my favourite joke by far from this year’s agenda is this item: “The war on information”. Bilderberg is concerned about fake news? The world’s most secretive conference, which is spending hundreds of thousands of dollars keeping the press away from its sacred discussions, which has spent decades lying and obfuscating about itself, wants to ensure the spread of truth?”...

....If Bilderberg wants an answer to “Why is populism growing?” – another question on the agenda – they might take a look in the mirror. It’s almost as if people aren’t all that comfortable with unaccountable technocratic elites and billionaire globalists lobbying their ministers and party leaders behind closed doors.”

– [the Guardian](#)

Nothing to see here folks?
Any of these names sounds familiar?
Why is it that the same names come up over and over?

Check out this list of the members of [Bilderberg group](#).

There were protesters outside a meeting in the US back in 2012.

“Among the most vocal participants at Friday’s rally was radio show host Alex Jones, who frequently led the demonstrators by megaphone. He argued the meeting constituted a violation of the law.

“This is illegal. Government officials meeting and discussing policy with private interests in secret, or representatives of other governments, is a violation of the Logan Act,” he said, referring to a federal law first passed in 1799 that forbids unauthorized citizens from negotiating with foreign governments.

He added that Bilderberg meetings allow high-ranking officials to make deals away from the public eye.”

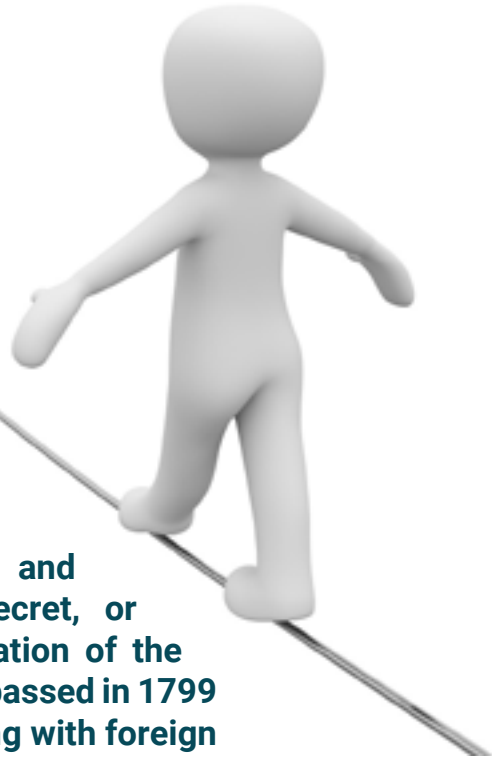

[The Guardian](#)

“Slavery is likely to be abolished by the war, power, and chattel slavery destroyed.

This, I and my European friends are in favour of, for slavery is but the owning of labour and carries with it the care for the labourer, while the European plan, led on by England, is for capital to control labour by controlling the wages.

THIS CAN BE DONE BY CONTROLLING THE MONEY”.

– Triumphant Plutocracy; the story of American public life from 1870 to 1920, by Lynn Wheeler

What are the tricks/tools/weapons to keep us enslaved?

How can all this be possible?
Why are we not aware of all this?

We have to remember that this agenda is ancient. Thousands of years to put this plan into manifestation by the Deep State. The closer they got to the global shift, the tighter they pulled the chains around us.

These days the plan is hidden in plain sight. We just need to know where to look. The main problem is that we are few who even look, compared to those who still sleep within the Matrix.

“In an age that’s given us near unlimited access to convenience and comfort, we’ve been denied what we are truly seeking; the ability to cultivate internal power and liberate our minds.”

– [Super human experience](#)

Some of the main weapons they use to keep us as slaves in the Matrix are:

Money - We are dependent on money for our survival. Fraud, follow the money, loans, health/help packages

Distractions - Netflix, movies, sport, social media, entertainment

Mind control - Media/education brainwashing, authority, fear, need an expert or to be an expert. No trust in self, external power. Flock mentality

Altering of history, meanings e.g herd immunity, we come from the apes, Darwinism -survival of the fittest, war is natural

Distortion - Sex/pornography, gambling, alcohol, big pharma has all the answers, transgender

Pollution of nature - Climate change, sterilisation/infertility, depopulation agendas

Spells – as everything carries energy codes, they put spells on our words, symbols and minds.

“How on earth could a relatively small group of people could gain enough power and keep things secret enough to fool 99.9% of humanity into surrendering their liberties? Could you have imagined nine months ago that virtually all of humanity – with little questioning or resistance - could be quarantined in their homes, their businesses destroyed, required to wear masks, and pressured to fear and avoid one another?”

- [Foster Gamble](#)

The Deep State is going down.

They know it, but will fight to the bitter end. They will do anything in their power to go against all the odds and take over the power. And from what we see around us it looks like they are in full control.

If the Deep State want to have a chance to take over all the power on the planet, they will have to make us/keep us passive. If we see these signs that is covered in the bible; The 7 trumpets, the natural disasters on the planet, the locusts eating the crops etc. These are signs of second Christ is coming to our rescue. What we do not understand is that 'We' are Christ Consciousness and are the second coming. We still look for Christ outside of us.

Everyone wants to lead a healthy, happy and fulfilling life – but we do not know how.

We are not taught how in modern society and education. Rather we are taught facts that meet the agenda. Therefore we go to the ancient mystics and spiritual teachers to tap into the wisdom of consciousness and energy.

We seek likeminded people to mirror us.

We connect to nature to be taught.

We allow the dark night of the soul to teach us.

And we walk through sacred stillness to remember.

We can learn how to master energy, and claim our true potentials.

And after the learning the next steps are to own the knowledge about our true nature and to act.

With that comes freedom and sovereignty.

What is a Slave?

Interestingly there is no consensus on a definition of slave or slavery.

This is because men and women can only be treated as slaves. This is the condition of slavery. Men and women consciously, or unconsciously, willingly or unwillingly give their consent to be treated as slaves.

“The slave was a species of property; thus, he belonged to someone else. In some society’s slaves were considered movable property, in others immovable property, like real estate. They were objects of the law, not its subjects. Thus, like an ox or an ax, the slave was not ordinarily held responsible for what he did. He was not personally liable for torts or contracts. The slave usually had few rights and always fewer than his owner, but there were not many societies in which he had absolutely none. As there are limits in most societies on the extent to which animals may be abused, so there were limits in most societies on how much a slave could be abused.”

“Slavery was a form of dependent labour performed by a nonfamily member. The slave was deprived of personal liberty and the right to move about geographically as he desired. There were likely to be limits on his capacity to make choices with regard to his occupation and sexual partners as well. Slavery was usually, but not always, involuntary.”

[Britannica](#)

“Frederick Douglass, born 1818, makes it a point to nail the boastful lie put out by slaveholders – one that persists to this day – that “their slaves enjoy more of the physical comforts of life than the peasantry of any country in the world.”

- [Nina Martyris](#)

Why are we still treated as slaves?

"The human race is a herd. Here we are, unique, eternal aspects of consciousness with an infinity of potential, and we have allowed ourselves to become an unthinking, unquestioning blob of conformity and uniformity. A herd. Once we concede to the herd mentality, we can be controlled and directed by a tiny few. And we are."

- [David Icke](#)

From the moment we are born we are tricked and played into believing we are something we are not. A different name for a slave could be the Strawman.

The Strawman is a title given to a living man or woman in order to treat him or her as a slave.

A strawman is a fictitious legal entity, created with the hope that as the child grows up, he will be fooled into believing that he is actually the Strawman.

The strawman will then pay all sorts of imaginary costs and liabilities which get attached to the Strawman by con artists (aka states, governments and systems).

The Strawman is created from the birth certificate.

"It's been easier to convince people to hand over half their income, their children to war, and their freedoms in perpetuity - than to engage them in seriously considering how roads might function in the absence of taxation."

- Stefan Molyneux

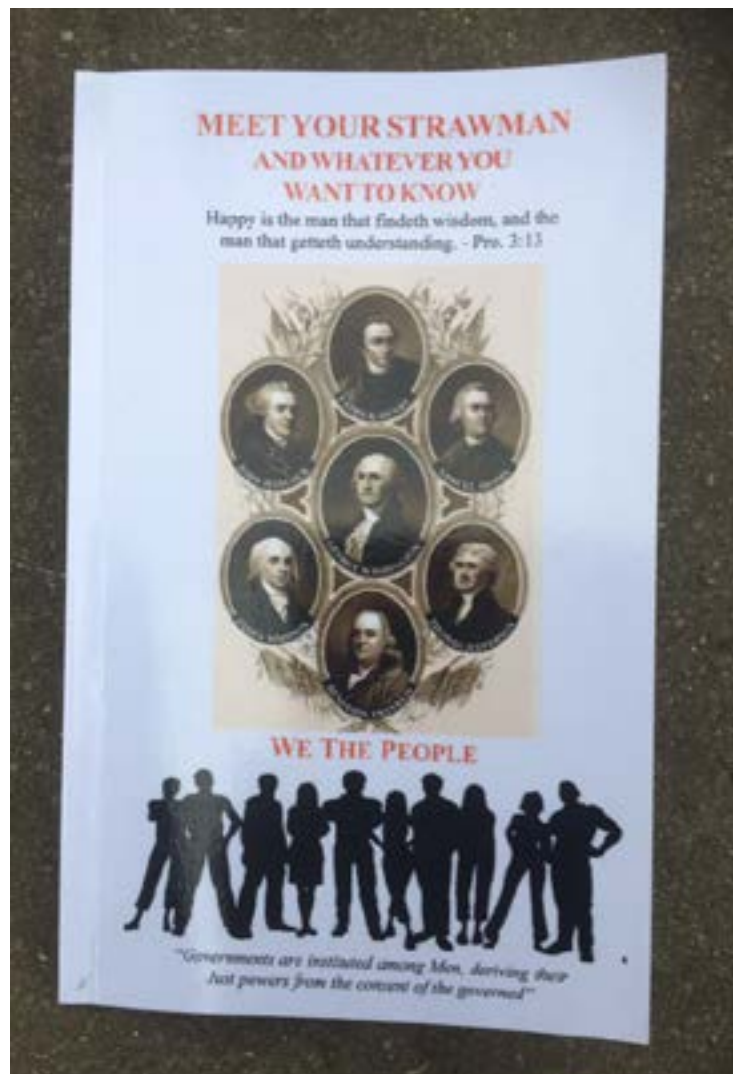

“The registering of a baby’s birth actually passes “ownership” of the baby to the Local Authority and that, and that alone, allows the Local Authority staff to take the child away from the parents if they ever want to do that.

This applies until the child reaches the ‘age of maturity’ set by the current legal statutes.

Doing that is not “lawful” but after the birth has been registered, it is “legal” and there is a world of difference between those two terms, a difference which it is very important that you come to understand clearly.”

- Meet your Strawman

Why does the Deep State create 'Strawmen'?

In order to charge the Strawman imaginary costs and penalties and fool the human living being to pay those amounts.

We are surety for States debts from the bankruptcy from 1933, that removed money being tied to gold. That is why our birth certificates are created as value papers/stocks. In other words, our bodies of flesh and blood are surety for the banks. If we do not consent and buy into their fraud, they cannot longer sell and buy us as stocks on the stock market. Literally...

It always comes back to money, doesn't it?

To stand free, we have to know that governments, the non federal Federal Reserve Bank, every Court and police force are private companies. But as the government is not allowed to do anything to earn money, and yet is a for-profit company – they have found a very smart way to make money. They take money from the people...

Did you know that the following is optional?

- * Paying tax
- * Getting a licence
- * Registering a vehicle
- * Paying a fine
- * Attending a court

“In The Public”	“In The Private”
PUBLIC = GOVERNMENT	PRIVATE = MAN/WOMAN
CREATED BY THE STATE	CREATED BY NATURE/GOD
PUBLIC SERVANT	PRIVATE SOVEREIGN
ACTING IN “PUBLIC CAPACITY”	LIVING IN “PRIVATE CAPACITY”
“MEMBER OF THE PUBLIC”	“WE THE PEOPLE”
LEGAL FICTIONS	LAWFUL FACTS

“Just in case you are not aware of it, the purpose of any commercial ‘for-profit’ company or corporation is to make money for it’s owners (and shareholders if there are any).

The people whom you think of as ‘The Government’ don’t do anything which earns money – instead, they take money from you and their main job is to make sure that you don’t realise that they are in the same position as IBM which takes away a cool £256 million of your money every year.

So, why all the pretence of there being a genuine government which you elect and who serve you?

They don’t want you to understand that they are just running a company which produces nothing of any worth – something like a betting shop, where almost every customer loses money – and wake up to the fact that, unlike what you have been told all your life, this is all optional and you don’t need to play their rip-off game any longer unless you want to.

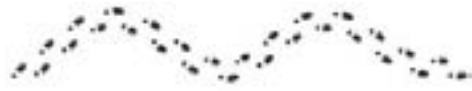

They want you to be so burdened down with paying them money and working so hard and so long that you don’t have the time, money or energy to stop and think about what is happening to you and your family.”

When we start to see the fraud – we can also step out of the systems and be free and Sovereign.

Freedom is “the condition or right of being able or allowed to do, say, think, etc. whatever you want to, without being controlled or limited”

- Cambridge Dictionary

Freedom

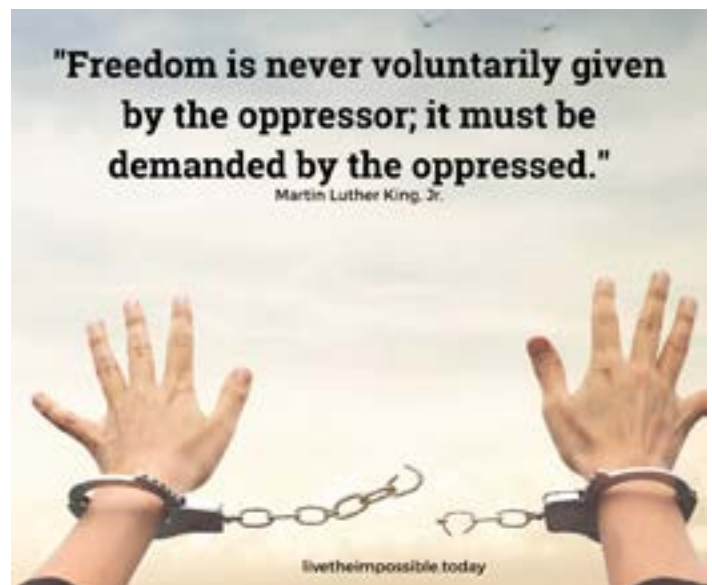

“The state of being free; liberty; self-determination; absence of restraint; the opposite of slavery. The power of acting, in the character of a moral personality, according to the dictates of the will, without other check, hindrance, or prohibition than such as may be imposed by just and necessary laws and the duties of social life. The prevalence, in the government and constitution of a country, of such a system of laws and institutions as secure civil liberty to the individual citizen.”

- Blacks Dictionary

When we are free we are able to travel anywhere whenever we like, we choose what to put into our bodies and what health support is right for our unique temple.

Work is play and is our passion. We do things because we love to, not because we have to! Money flows with ease and there is no debt. Relations are heart centred and compassionate.

FREEDOM COMES WITH WISDOM

What is Sovereignty?

“Sovereignty is the supreme authority within a territory.

In any state, sovereignty is assigned to the person, body, or institution that has the ultimate authority over other people in order to establish a law or change an existing law.

In political theory, sovereignty is a substantive term designating supreme legitimate authority over some polity.

In international law, sovereignty is the exercise of power by a state.

De jure sovereignty refers to the legal right to do so; de facto sovereignty refers to the factual ability to doing so.

This can become an issue of special concern upon the failure of the usual expectation that de jure and de facto sovereignty exist at the place and time of concern, and reside within the same organization.”

– [Wikipedia](#)

What is personal Sovereignty?

“Personal sovereignty, then, would imply the intrinsic authority and power of an individual to determine his or her own direction and destiny. If that sounds suspiciously like free will, it's because personal sovereignty and free will are the same thing.”

– <https://www.huna.org/>

“Sovereign people living on the land can assemble to constitute a sovereign government “of the people, by the people, for the people” in the Common Law Jurisdiction - the “Law of the Land”. When sovereign people constitute a sovereign government using their “rights already existing” they are delegating some of their inherent powers to their de jure government and its agencies, via their oath-bound Public Servants. Such a sovereign government is established by a lawful constitution as a “body politic”, whereas a fictional corporation is established by legal incorporation as a “body corporate”. A sovereign government of the people has no jurisdiction over any living man or woman without their fully informed and freely given consent, subject to the “due process of law”.

Common law

Common law – or natural law - is the one of the only laws Sovereign beings are obliged to follow.

“As all humans are born equal, we have complete freedom of choice and action. If you live in the same place as a lot of other people, then there are a few restrictions which have grown up, by common consent, over time. These restrictions are for your protection and the protection of the other people living near you. These restrictions are called ‘the Law’- or more accurately: ‘Common Law’.”

- Meet your Strawman

They are:

- * You must not injure or kill anyone.
- * You must not steal, or damage things owned by somebody else.
- * You must be honest in your dealings and not swindle any one.

Plain and simple common law is to do no harm.

Common law have resulted from hundreds of years of disputes which have been dealt with through using common sense and the opinions of ordinary people.

Many people think that there are hundreds of other laws which they have to keep (and new ones every other day), but that is not so.

All these restrictions and lockdown “laws” are not even laws at all. They are mandates and statutes.

‘Statutes’ are optional for you, the Sovereign.

But, they are not optional for your fictitious strawman.

That is why the people who benefit from those things want to persuade you to represent your strawman and so become subject to all of their invented restrictions, fines and charges.

Universal Declaration of human rights

When we claim our freedom and sovereignty, we start the journey to become our own nations. No one or nothing stands above us.

Declared sovereigns are on the road to become a Nation in their own right. Although, it must be claimed and published.

The Universal Declaration of human rights is our sovereign constitution, not any state (as they are in a different jurisdiction of the Legal system).

As sovereign, we work with other laws – such as common/natural law where we do no harm as written above.

"The Universal Declaration of Human Rights (UDHR) is an international document adopted by the United Nations General Assembly that enshrines the rights and freedoms of all human beings.

It was accepted by the General Assembly as Resolution 217 at its third session on 10 December 1948 at the Palais de Chaillot in Paris, France.

Considered a foundational text in the history of human and civil rights, the Declaration consists of 30 articles detailing an individual's "basic rights and fundamental freedoms" and affirming their universal character as inherent, inalienable, and applicable to all human beings.

Adopted as a "common standard of achievement for all peoples and all nations", the UDHR commits nations to recognize all humans as being "born free and equal in dignity and rights" regardless of "nationality, place of residence, gender, national or ethnic origin, colour, religion, language, or any other status."

– [Wikipedia](#)

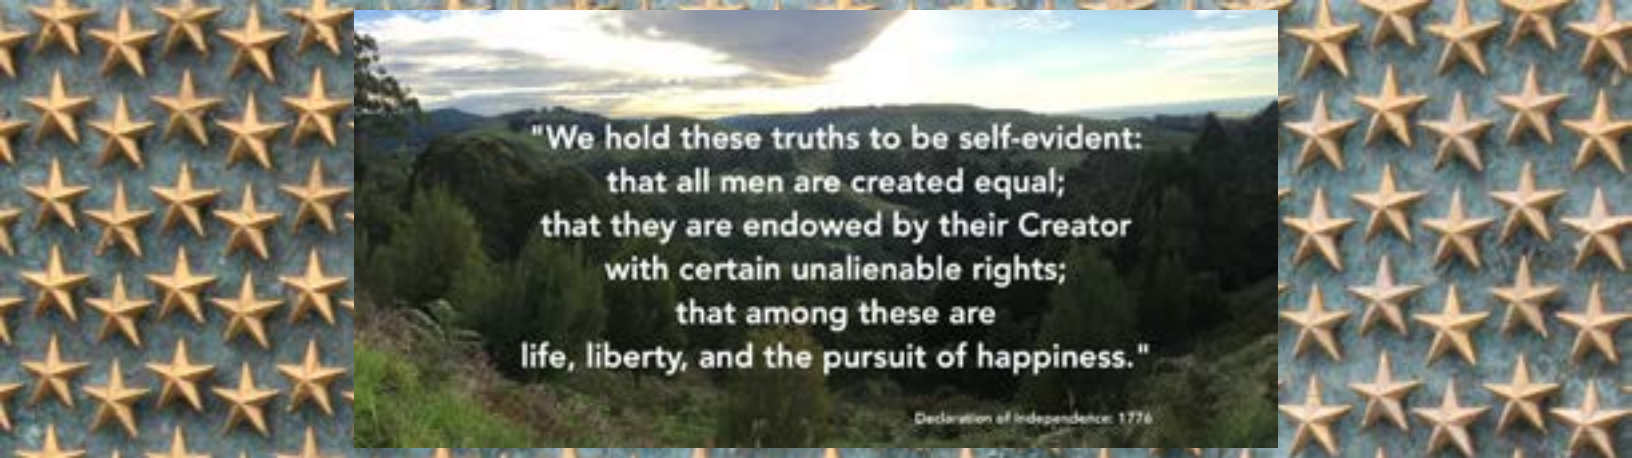

During World War II, the Allies—known formally as the United Nations—adopted as their basic war aims the Four Freedoms: freedom of speech, freedom of religion, freedom from fear, and freedom from want.

But the UN et al are themselves going against this declaration!

“Although not legally binding, the contents of the UDHR have been elaborated and incorporated into subsequent international treaties, regional human rights instruments, and national constitutions and legal codes.

All 193 member states of the United Nations have ratified at least one of the nine binding treaties influenced by the Declaration, with the vast majority ratifying four or more.

Some legal scholars have argued that because countries have consistently invoked the Declaration for more than 50 years, it has become binding as part of customary international law, although courts in some nations have been more restrictive on its legal effect.

Nevertheless, the UDHR has influenced legal, political, and social developments on both the global and national levels, with its significance partly evidenced by its 524 translations, the most of any document in history.”

– [Wikipedia](#)

Observe that it is not Legally binding (Legal is for the Strawman), but it is binding for international Law (for Sovereign).

Again, the fraud and deception go deep.

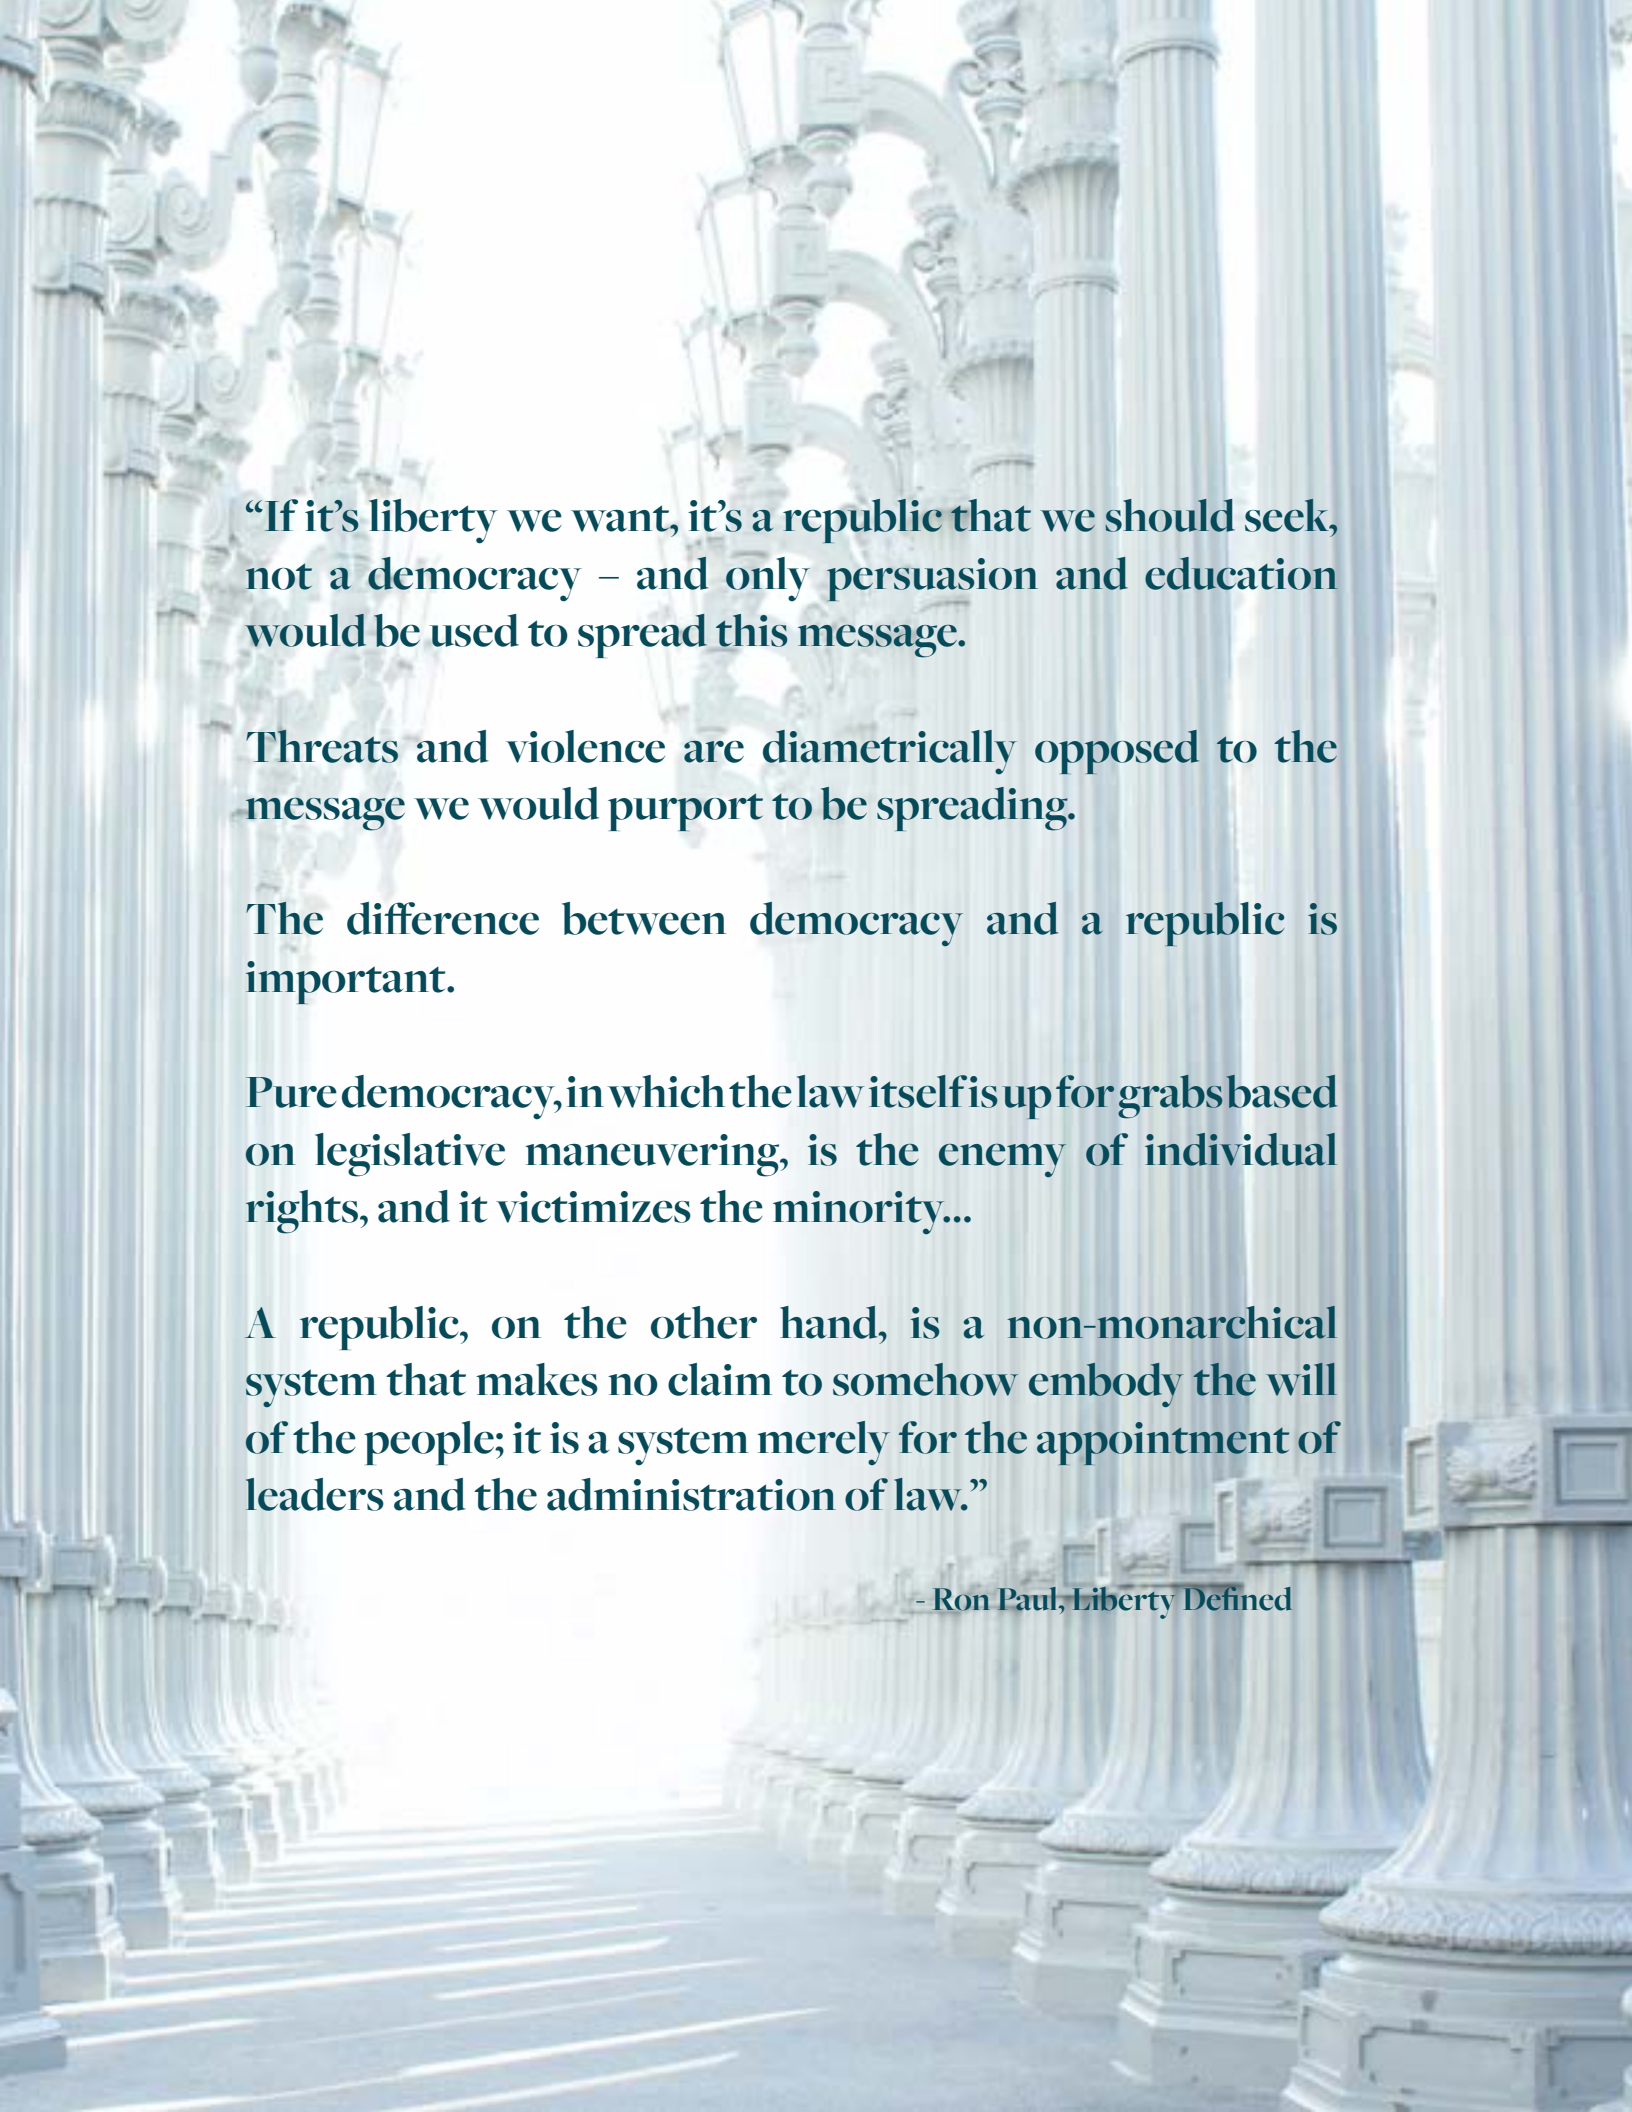

Here we need to ask ourselves, what is in it for them to go against declaration of human rights?

“I was recently visiting with a friend – a very smart lady who is uninformed about most of this, and she was saying that she couldn’t imagine how the citizens of Germany could have missed what was really going on with Hitler’s agenda for so long. I said, “They were probably feeling the same sense of denial that you are right now.” We are like the proverbial frog in the pot that is slowly being brought to a boil.”

– [Foster Gamble](#)

Let us focus on some more specific perspectives of how they keep playing us to stay in the Control Matrix in the next part....

“If it’s liberty we want, it’s a republic that we should seek, not a democracy – and only persuasion and education would be used to spread this message.

Threats and violence are diametrically opposed to the message we would purport to be spreading.

The difference between democracy and a republic is important.

Pure democracy, in which the law itself is up for grabs based on legislative maneuvering, is the enemy of individual rights, and it victimizes the minority...

A republic, on the other hand, is a non-monarchical system that makes no claim to somehow embody the will of the people; it is a system merely for the appointment of leaders and the administration of law.”

- Ron Paul, *Liberty Defined*

Part 2

In this section we take a deeper look into how we have been tricked to agree to slavery from 13 life perspectives.

13 Life Perspectives

We are born as potential geniuses but groomed to fit into the 'Matrix' world by the education, culture and business systems, until we wake and take responsibility to live life on our own terms.

We then cut the cords to that limited reality and consciously free ourselves from the old paradigm and co-create a new one. We probably think that something is wrong with us until we allow ourselves to see the bigger picture.

Life Perspectives is a 'framework' designed to awaken the development of humanity as we stand up for ourselves and within ourselves, each other, and the planet. It is a wholistic way to balance and grow in all areas of life, as we create awareness and the use of natural (and artificial) systems.

Life Perspectives is the ability to experience, see and learn about life and the guidance systems around and within us – in a conscious and wholistic way.

There are not necessarily right and wrong answers, but a curiosity, playfulness and awareness about different perceptions of all areas of life, how it is connected, how we see things from different perspectives and what would be for the highest good. As we approach, learn and grow through Life Perspectives, we open up to find our own unique potentials and truths, have

compassion for others and can experience the interconnection of everything. Then it is easier to live an empowered, meaningful and freer life based on our unique Genius blueprint.

Life Perspectives can be seen as a flower. The thirteen perspectives are the petals, each petal helps us to see the world and ourselves from different perspectives.

When we are aware of all 360 degrees of life, we have an integralness or wholeness in our reality. An integral awareness is not about either/or perspective, but rather a both/and perspective. In other words, embracing all perspectives. There are a lot of paradoxes in life, and we cannot know it all with our minds, but through every aspect of ourselves and external realities.

To allow the impossible to become reality requires an exploration of the unknown and for us to question our beliefs and programs. Life Perspectives is our invitation to all of us to get out of our comfort zones and explore new ways to experience ourselves, the world and beyond.

What are the 13 perspectives?

Body

A high body perspective refers to how conscious we are about our body, bodily systems, our cell structure and blueprint. To be whole all our perspectives need to be physically embodied into our cellular memory.

Mind

We can become “whole brained” when we start to think holistically instead of replaying recurrent and habitual patterns that activate the same pathways. We are mindful rather than mind controlled!

Emotion

Emotions act as personal guides when we become aware of them and actually listen to what they have to say. They do not speak ‘universal truth’ about how things are, but are a guide to our subconscious beliefs as they are often based on past experiences. Emotions are not positive or negative, for wholeness we require access to the full range of emotions and to embrace and transform our shadows.

Heart

The heart’s perspective is about our individual unique souls – our own values, visions, purpose and meaning in life, our connections and relations with others, our creativity and desire etc. The heart is the connection between our spirituality/divinity and our humanity.

Divine

Divine perspective has the main focus on the higher consciousness we all have, that we are all one, to accept what is and to live in the present.

Nature

Nature's perspective is about environmental aspects (i.e., sustainability, conscious development, organic and fair products), using nature to feel good and being grounded.

What we can experience by reactivating our nature perspective is a greater sense of connection with our surroundings – both near and far.

Vibration

The vibrational perspective is when we are aware of the electromagnetic fields around us, how they affect us and how to raise our own frequencies. Our Genius can be reactivated with a high frequency of vibrations. Then we become the Energy Masters of our lives.

Grid

Grid perspective is the awareness and knowledge of the laylines, stargates, sacred sites, the multidimensional grids and dimensions such as 3D, 5D, 7D and beyond.

Space

Space Perspective might sound a bit spaced out, but everything is created within a space. We have physical space around us, emotional space within us, space in mind, body, heart and soul. There is space out there in the universe. Space is what we mainly are!

Time

Time perspective is our relations to time, shifting timelines, ancestry, our history/herstory, the past and our future. New scientific research has shown that the trauma of our ancestors, at least seven generations back, lies in our DNA and affects us today.

Word

Word perspective is when we become aware of hijacked words, the power of words, explore Quantum Grammar, play with documents to become sovereign and free, break contracts we do not want and create new ones.

Finance & Business

The Financial Perspective can support us with its abundant flow of reciprocity. A high vibrational financial perspective is when what we do for a living is aligned with our higher purpose, when we have flow and ease around money and experience true prosperity of life.

Artificial Intelligence and Technology

Artificial and technical perspective gives us the technical tools, such as bicycles, cars and computers. All technology is created with a purpose.

It can create and even take away our freedom if misused.

Deep State often use the divide and conquer strategy.

They do everything in power to keep us from ourselves and each other. Together we are strong, hence they want to separate us. They want to keep us in ignorance, feel fear and be alone – as then we become easier targets.

To be able to shift from slave to freedom we need to be aware of the hidden agendas, our own shadows, traps, tricks and the ways we are hijacked, spell cast and programmed.

In the next few pages we will examine using the 13 perspectives.

The Deep State tricks toolbox have 7 main energy strategies. The solution for the Sovereign is then the opposite.

Deep State	Sovereign
Shadow	Gift
Disconnection	Connection
Separation	Oneness, Wholeness
Fear	Excitement, Joy, Love
Pollution	Clean, Clarity
Distraction	Focus, Presence
Unnatural, Mechanical	Natural, Organic

You were born into a world that was engineered to traumatize you, and you told yourself that you were fucked up. And now you are realising it's all a lie,

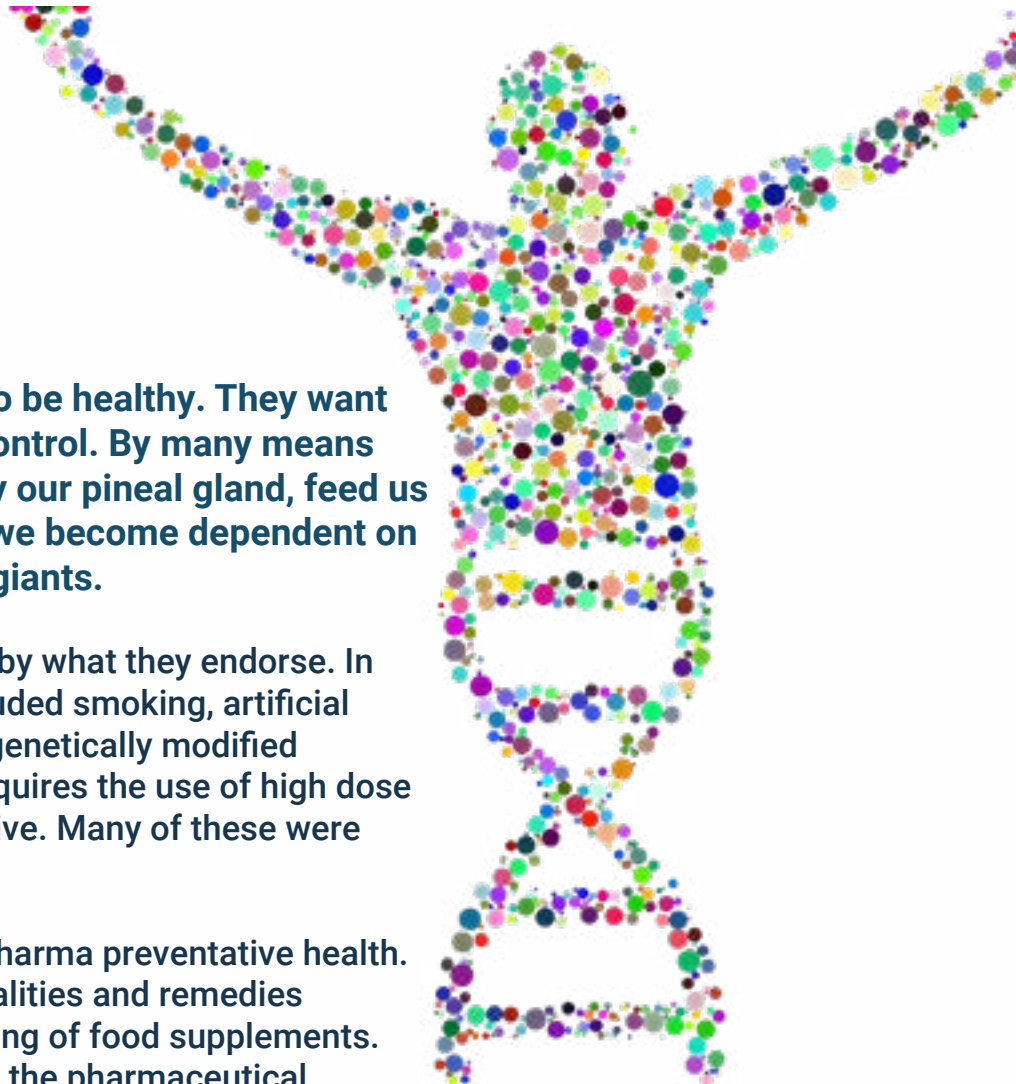

Body Perspective

The Deep State don't want us to be healthy. They want depopulation and population control. By many means they change our DNA, decalcify our pineal gland, feed us toxins and create diseases so we become dependent on big pharma and agrochemical giants.

The Deep State create disease by what they endorse. In the last 50 years this has included smoking, artificial sugar, trans fats, food additives, genetically modified crops and factory farming that requires the use of high dose antibiotics to keep the animals alive. Many of these were originally created as bioweapons.

They only give lip service to big pharma preventative health. They stop alternative health modalities and remedies through censorship and the banning of food supplements. They force us to be dependent on the pharmaceutical model of health.

This censorship and restrictions on natural and non patented medicines has been taken to a whole new level in the last year. Thousands of health practitioners who are doing their best to support their patients have been banned from social media platforms. Some have even lost their license to practice, even though they have years of service behind them.

Corona Virus

Corona virus's of which Covid 19 is just the latest of many so called viruses have probably been around as long as man.

They are a vital part of our ecosystem and immune system. We know when things get out of balance problems occur. The vast rise in toxins over the last couple of centuries are responsible for much of the damage to human and animal health.

We believe, that this can make us susceptible to pathogens such as Corona viruses. At the same time we have lost the broader perspective on what creates health and well-being and therefore keeps us in balance with the environment.

We declared war on microbes and viruses, ignoring that they are integral part of the living.

Toxins

Our lives are full of toxins from the food we eat, to the air we breath, cleaning products, household goods, Wifi and now 5G to name just a few.

There is no where on earth that is totally free from toxins. It is this rise in toxins that is leading to the rise of many diseases especially cancer, autoimmune disease, Alzheimer's and dementia.

With the new Covid 19 vaccines we are releasing another unknown toll on human health. Life expectancy is falling, the age of diagnosis with a chronic disease is reducing and in the USA, infant mortality is rising.

Studies have shown most of us have 400-800 chemicals stored in our fat cells, which can reside there for years. This can lead to chronic disease and hormone imbalance.

The body initially tries to flush out the toxins, but if toxins build up quicker than they can be eliminated, the body dilutes them and stores them in fat cells. As many toxins are fat soluble, more fat cells are produced as a way of protecting your vital organs from these chemicals.

Body fat around the midsection is often a sign of that the liver is not functioning as efficiently as it should. It's not middle age spread as they have us believe!

metabolism.

Toxins can affect

metabolism.

They:

- * Damage the mitochondria and reduce the cells' ability to burn sugar, which leads to disease and cancer.
- * Reduce thyroid hormone levels, which is partly responsible for the basal metabolic rate (at rest) in fat and carbohydrate metabolism.
- * Reduce the hormone leptin, which signals you are full.
- * Act as an anti-nutrients. Stop nutrients being absorbed, or excrete nutrients before they've been absorbed.
- * A healthy liver is vital to help reduce the build up of toxins in your body. Being overweight can damage your liver in the same way as consuming too much alcohol.

"Obesity has reached epidemic proportions globally, with at least 2.8 million people dying each year as a result of being overweight or obese."

- [WHO](#)

Being overweight is one of the key morbidities to dying with Covid along with low vitamin D levels.

"A new study that looked at 216 people with Covid-19 found that 80 percent didn't have adequate levels of vitamin D in their blood."

"Vaccines contain many ingredients, some of which are known to be neurotoxic, carcinogenic and cause autoimmunity. Vaccines injuries can and do happen. Did you know?

The nectar from a flower when used by a bee produces honey which is super healthy. When the same nectar is used by a spider it becomes a poison.

Governments continue to allow large food producers such as McDonalds to produce food that are toxic and unfit for human consumption.

One has to ask why do they not stop these practices?

“The food industry uses ammonium hydroxide as an anti-microbial agent, allowing McDonalds to use entry meat unfit for human consumption in its burgers”

Do you know that Bill Gates has funded all stages of the Covid 19 and vaccine agenda?

He has been part of or funded the planning, weaponisation, manufacturing, vaccination, testing, tracing, tracking, chipping, the WHO and the media. He is now getting involved in farming and food production too.

“Gates was a partner, along with the CDC, WHO, big pharma, big banks and Johns Hopkins in creating Event 201 (21) – in October of 2019. This video-recorded scenario rehearsal once again shows the detailed planning for global lockdowns, economic collapse, food shortages, civil unrest and authoritarian overreach - with the pandemic as an excuse.”

[Foster Gamble](#)

Why is one man so deeply involved in all aspects of this pandemic or should we say plandemic?

Why was there a rehearsal so soon before Covid19 appeared?

Is this really a coincidence?

There has been a lot of debate about how the virus came into existence or was released. There are still no definitive answers, so we won't address it further here. But it is known there is a direct link with the Wuhan laboratory and scientists in the USA including Dr Fauci.

Vaccination

Vaccines have become a big money making business for the pharmaceutical industry. Who for the last few years are exempt from any liability for injuries caused by vaccinations.

The numbers of vaccines administered each year, especially those given to children keeps on rising. They are no longer allowed to have the normal childhood diseases and naturally boost their immune systems.

Here are just some ingredients used in vaccines that are poisonous, toxic or unethical:

- * Aluminum hydroxide, aluminum phosphate, and aluminum salts – These are a neurotoxin. They can pass the blood brain barrier and cause long term brain inflammation/swelling, neurological disorders, autoimmune disease, Alzheimer's, dementia, and autism.
- * Mercury (Thimerosal) – Is a neurotoxin causing cellular damage, reduces oxidation-reduction activity, cellular degeneration, and cell death. It has been linked to neurological disorders, Alzheimer's, dementia, and autism.
- * Formaldehyde (Formalin) – Is a highly toxic systematic poison and carcinogen.
- * Polyethylene glycol (PEG) – is a solvent, plasticizer, surfactant widely used in pharmaceutical ointments, suppositories, tablets and now vaccines. Many people are forming antibodies to it and this can lead to severe reactions and anaphylactic shock if re-exposed
- * Betapropiolactone – is a toxic corrosive chemical and carcinogen. Even a very short exposure to small quantities can

- cause injury or even death.
- * Hexadecyltrimethylammonium bromide
- May cause damage to the cardiovascular system, liver, central nervous system and birth defects.
- * Polysorbate 80 & 20 – Can pass the blood brain barrier and carries with it aluminium, thimerosal, and viruses.
- * Acetone - Can cause kidney, liver, and nerve damage.
- * Glutaraldehyde – A toxic chemical used as a disinfectant for heat sensitive medical equipment.
- * Neomycin – an antibiotic to prevent contamination by bacteria during the vaccine manufacturing process
- * E.Coli – A bacteria that can cause can cause severe stomach cramps, bloody diarrhea and vomiting.
- * African Green Monkey Kidney Cells - Can carry the SV-40 cancer-causing virus.
- * Human Diploid Fibroblast Cells – from aborted fetal cells. This foreign DNA has the ability to interact with our own.
- * Fetal Bovine Serum – Is harvested from bovine (cow) fetuses taken from pregnant cows before slaughter.
- * DNA from Pigs who carry a Circovirus type-1
- * Human embryonic lung and kidney cell cultures from aborted fetuses.
- * GMO (read more about that later)

- [Lægemiddelsstyrelsens INDLÆGSSEDDEL](#)
from Astra Zeneca.

The proposed mandatory vaccination program is part of the control agenda. Many vaccines on the market cause miscarriage, infertility, long term health conditions and death. They are an undercover way to depopulate.

People buy into vaccines as they believe they are protecting their own health and those around them. The true benefit of any vaccine is up for debate...

- * DTP vaccines have killed more children in the 3rd world than they've saved.
- * Measles and polio vaccines have led to more virulent forms of the disease.
- * The Dengue Fever vaccine given to a large number of children in the Philippines, primed them for the disease and many died or were seriously debilitated. The vaccine was withdrawn from use.

The argument for vaccination is...

"Vaccines are like a seat belt against infectious diseases, and that vaccination mandates are justified for the same reasons seat belt mandates are." But if you fail to vaccinate yourself or your children there is a much larger risk of harming other people who are not vaccinated (for example those who are immunosuppressed, young children or those whose immunity has waned over time), besides imposing an easily preventable risk on you and your children."

– [Oxford Martin](#)

It's the belief that vaccination will not only protect them but also others that drives people to keep on being vaccinated. This belief must be questioned and a dialog opened as scientific research is showing this not to be true.

A fresh look on this old paradigm of vaccination is definitely needed, as vaccination is a big part of the fear agenda. This can be a challenge to many, as the concepts do not only exist outside

us, but we have also deeply embraced these concepts. For some they are part of their identity! Questioning these can be felt as an attack!

We have to be aware that modern medicine follows concepts that have evolved over centuries. Many of these concepts are now regarded as absolute facts - as reality.

These concepts are often believed 100%. As they are scientific concepts, they are at the same time considered to be true knowledge as opposed to beliefs or even faith. They have become part of many people's general understanding or view of life.

For example, few would say: „I believe that germs cause diseases“.
Most would say: „it is a fact that germs cause diseases“.

Therefore it is also a fact that antibiotics and vaccinations help to alleviate, or prevent diseases.

Now, however, there are more and more scientifically well-founded doubts about the validity of these concepts. Even if these doubts have so far only been expressed by a few scientists, it is worth following their argumentation.

Not everyone can or wants to follow the complexity of the scientists. Nevertheless, it is possible for medical laymen to gain a basic comprehension.

On the basis of this effort and our common sense, we all can walk the path of the research of truth and build a differing opinion.

In [wholyland](#) we want to support you in this.

Covid 19 Vaccinations

The pharmaceutical industry claims, that the Covid 19 vaccines is only designed to reduce symptoms. Due to past programming about vaccination many people believe vaccination will prevent the catch and transmission of Covid19 and thus prevent a disease.

Does the Covid 19 vaccination stop people from catching and transmitting the virus?
Does any vaccination do what it claims?
Do flu shots work?

We simply don't know.

The trial for the vaccines were only designed to test for symptomatic Covid-19 and confirmed infection with the virus. Read more at [new scientist](https://www.newscientist.com).

Hence why people continue to be told they need to distance and wear masks.

Given that for the majority of people the risk of dying from Covid 19 is less than 1%, less than seasonal influenza, is this necessary?

Why do we need a vaccine?

The Concerns of Covid 19 Vaccinations

The Pfizer and Moderna Covid 19 vaccines are on a new level entirely, to anything approved before.

Its important to note that they have not yet been fully approved as all the necessary steps including animal testing for prove of priming levels have not yet been carried out. They all come to the market under emergency authorisation.

Pfizer argue that the vaccine is 95% effective at reducing symptoms, which is based on relative risk reduction. Yet the actual risk reduction is 0.8%.

“They are literally changing the genetic code of the human genome if this mRNA vaccine is introduced. What makes us human will no longer be there, it will no longer be the same signature. Because once this mRNA vaccine is in there it is constantly rewriting and repairing DNA. There has never been a vaccination like this introduced into a human before”

Pfizer and Moderna Vaccines

The new Covid Vaccines manufactured by Pfizer and Moderna are not a vaccine, but GMO genetic engineering -mRNA Transfection. It's never been used before in humans and we have no idea what it will do.

The future of mankind is at stake!

Once the Genie is out of the bottle you cannot say we've made a mistake and take it back! There is no antidote.

This is new territory and the population of the world are being used as guinea pigs.

"It's like Jurassic park that is about to escape the island, it's terrifying. It's in your cells and it's going to do what it's going to do and there is nothing you can do. In a year, or 5 years down the line it produces a protein that causes an autoimmune response given the right trigger and that effects 5-10-20% of the population we have a catastrophe on her hands."

- [Dr Andrew Wakefield](#)

For the Covid 19 vaccines...

"They have definitely skipped a step. They have done no animal testing at all and this is even more extraordinary given the experience with Sars that they should be allowed to produce potential corona virus candidates and give them to humans without ever gone through the appropriate safety testing in animal models. And that is most alarming."

[Dr Andrew Wakefield](#)

“Research into Corona virus and for SAR’s 2 was carried out on ferrets, who have a similar immune system to humans. it initially looked like they were immune as they developed an immune response. They did well until they were exposed to a corona virus when they all fell sick and the majority died. The vaccine was withdrawn. “Immunization with SAR coronavirus vaccines leads to pulmonary immunopathology on challenge with the SAR’s virus”

– [Pub Med](#)

“In Covid-19 RNA Based Vaccines and the Risk of Prion Disease published in Microbiology & Infectious Diseases, veteran immunologist J. Bart Classen expresses similar concerns and writes that “RNA-based [Covid vaccines](#) have the potential to cause more disease than the epidemic of Covid-19.”

[Sci vision pub](#)

This possibility of priming were the immune system overreacts is just one of many concerns with these Covid 19 vaccines.

The trials that were carried out were only on young healthy individuals, and there were many side effects and deaths reported. But they are now rolling the vaccines out to the elderly and most vulnerable first.

Health care workers and the military are also in the first wave. Many of them have already been heavily vaccinated, so they are immune compromised and carry a high toxic load. They have been primed by this cocktail.

Is this a way of removing those dependent on society?

Why do they want to harm and kill our medical practitioners and military?

A djuvants

One of the many problems in all vaccines are the adjuvants that allow the transportation of the main viral component to the cells. These adjuvants include mercury and aluminium.

The risks of these two chemicals on brain health is widely researched and known. Yet the hepatitis vaccine given to babies hours old contains mercury levels well above the recommended minimum dose. Some vaccines also contain fetal tissue from humans and animals.

The COVID-19 vaccines also contain polyethylene glycol PEG. As much as 72% of the population has anti-PEG antibodies. High levels cause severe allergic reactions, including anaphylaxis in some people.

Nanoparticles have also been part of the adjuvans in former vaccines.

People backed away from these vaccines as there is absolutely no experience what nanoparticles will do in living organisms. Nanoparticles in the Covid 19 vaccines are no longer called adjuvants. They are now called transporters. They are not fully declared as they are part of the pharmaceutical companies secret.

S ide effects

It's not unusual to get minor side effects like a sore or stiff arm and may be mild symptoms of the disease vaccinated against for a couple of days.

Any other symptom of disease, or loss of health related to the vaccination is a sign of alarm, a red flag and should be reported to your doctor and country reporting system!

Abnormal reactions of any kind come not just from the active ingredient, but also the adjuvants.

Vaccines today instead of being tested against a neutral placebo, the so called placebo group just gets the adjuvants and not the mRNA. This is why people within the placebo group get sick and even die.

For Moderna vaccine
“evidence presented listed 13 deaths in the trials, with 6 deaths being people who had taken the vaccine, and 7 those who had received the placebo.”

[Life site news](#)

Moderna does not connect any of the 13 deaths to either the vaccine or the placebo, saying instead that these deaths represent events and rates that occur in the general population of individuals in these age groups. Yet the trial participants were all young healthy individuals!

The list of possible side effects for the mRNA vaccines runs to pages long. Here are some of them:

Manipulation of data

Throughout the whole Covid19 saga data is constantly being manipulated. From changing how cases are counted to how deaths are reported.

Different countries also use different recording methods so it's difficult to tell apples from oranges.

People have always died. The various symptoms we call Influenza have been responsible for many deaths but the numbers of dead remain high despite the influenza vaccination. Strangely this year influenza seems to have disappeared.

Why?

Because influenza has not been differentiated from Covid 19. In the US pneumonia, influenza, Coronavirus (PIC) are now combined. People dying from flu-like symptoms, pneumonia, influenza, assumed Coronavirus symptoms, bacterial infections etc were all counted as Corona related deaths.

It's not just the USA, many countries have changed how they register cause of death. In the presence of a positive Covid test or if a doctor suspected the patient had Covid, no matter what the cause of death, Covid goes on the certificate. Hence the death rate for everything else except suicides has fallen.

Hospitals in the USA get paid large sums of money per confirmed case, patients put on ventilators and for reporting a death from Covid19. It pays to manipulate the figures. This is also going on globally.

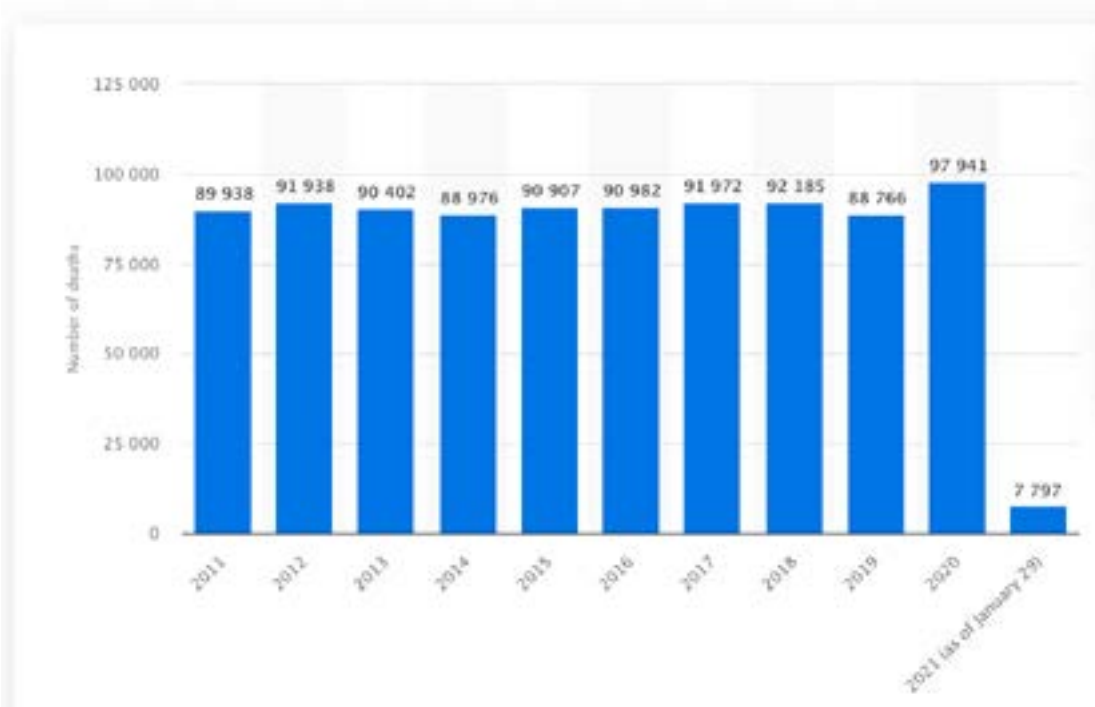

Death Rates

Sweden did not shut down their economy or put healthy people into isolation. Life went on during 2020 pretty much as normal.

There death rates for 2020 are not greatly higher than in previous years.

Reactions and Deaths from Covid 19 Vaccines

Reports of adverse reactions and deaths especially in Nursing Homes around the world are beginning to surface. Yes, old people die in nursing homes all the time, but even in large homes they can go weeks, if not months without a single death. When there is a cluster it is always suspicious and is not a coincidence.

Here are just a few of the reports...

“Outbreaks and death clusters following vaccination have been reported across the globe, including:

- * 29 elderly people died in [Norway](#) shortly after receiving Pfizer’s vaccination.
- * 13 deaths among 40 residents following vaccination at one nursing home in [Germany](#) were dismissed as “tragic coincidence.”
- * 10 deaths in a [German palliative care patients](#) within hours to four days of COVID-19 vaccination were deemed a “[coincidence.](#)”
- * 22 of 72 residents of a nursing home in [Basingstoke, England](#) have died following vaccination.
- * 24 seniors at a nursing home in [Syracuse, NY](#) were reported to have died from COVID-19 as of Jan. 9 despite having been vaccinated beginning Dec. 22.
- * 10 cases of COVID-19 were [reported](#) on Jan. 28 among seniors who had received both doses of Pfizer’s vaccine at one care home in Stockholm Sweden. The residents were vaccinated on Dec. 27 and again on Jan.19.

“The COVID-19 death toll in the small British enclave of Gibraltar numbered 16 before it launched its Pfizer vaccination campaign on Jan. 10 and then shot up to 53 deaths 10 days later and to 70 seven days after that.

According to a [Reuters report](#), the Gibraltar Health Authority declared there was “no evidence at all of any causal link” between 6 of the deaths that were investigated and Pfizer’s vaccine, despite the individuals having tested negative for COVID before vaccination, but positive “in the days immediately after.”

[Childrens health defense](#)

“How many died with or from corona virus vaccine is not known. But it seems highly suspicious that the Statens Serum Institut (SSI) has now removed 853 dead citizens from the vaccination figures, so that the inventory method of vaccinations only includes citizens who have started and completed corona vaccination, and who are still alive or have an active address in Denmark at the time of inventory. The changed inventory method means that SSI notes a decrease from Tuesday to Wednesday in the number of people who have started vaccination with the vaccine from Pfizer / BioNTech. On Tuesday, the number was 194,141, while on Wednesday it had dropped to 193,288 people.”

Here is just one of many heart breaking stories...

“Ms. Stickles received the second dose of the Pfizer mRNA shot on or around February 2, according to a family Facebook post. She immediately broke out in rashes. Ms. Stickles had severe headaches five days later, Sunday, February 7. Soon thereafter, she started crying and said “something isn’t right. Just hold me” She lost the ability to speak, her eyes crossed and glazed over, before she lost consciousness... She died on February 10th... Ms. Stickles, 28, leaves behind a young son.”

PCR Tests

The PCR test used to determine whether some one has Covid 19 or not was never intended to be a diagnostic tool. It was designed to gain scientific insights and data. Diagnosis in modern allopathic medicine has been the prerogative of a Doctor.

Now people are being diagnosed by a test that is far from accurate and actually is unable to diagnose, or be specific. Given the myriad of symptoms attributed to Covid 19 people should at least have a doctor's expert opinion on whether they are sick or not. Especially as their livelihood is at stake.

The tests was designed to detect genetic sequences, that all. If you amplify the test – to a high number of cycles everyone could test positive. There is no set standard on the number of cycles performed and the same laboratory keeps changing its protocol.

A positive test does not mean you have Covid at all. You could have something related to many other causes, inflammations, or other bacteria or virus's, or residues of a past disease or infection. The rate of false positives is also very high.

- * People tested multiple times on the same day can fluctuate between positive and negative.
- * One lady did a video on social media of taking a swab from each nostril. One came back positive and the other negative!
- * People have also tested fruits, juices, coke and puddles of water. They have all tested positive!

PCR tests are becoming increasingly mandated for travel, to work and to go to school.

“Testing does not mean you have a problem.”

- Dr Rashid Buttar

In the small country of Denmark they spend millions every day on tests. The daily amount would pay for a years salary of 600 nurses.

In February 2021 the Danish Government is discussing whether to test to even be allowed to go shopping and test everyone twice a week. If the government get their way, and have all citizens to test twice a week that will cost (aka deep state make this money) over €60 billion per year!

We are talking trillions of dollars a month around the globe on something not proven to be accurate.

Follow the money...

Some good news is that after a lawsuit against PCR tests for children to attend school in New York State:

“The New York State Education Department [issued a letter](#) Feb. 16, 2021, informing all public schools in the state that parental consent to Covid-19 tests for their children is not required for in-person instruction, or for participation in any school activities, including extracurricular activities.”

Does Covid 19 exist?

The biggest manipulation of them all is whether Covid 19 Virus really exists at all.

Groups around the world have written to laboratories and government agencies to ask whether the virus has been isolated. In other words, has a full genetic description of it and it alone been found. Nobody has confirmed this is the case. Covid 19 has just been identified within a soup of culture medium and other cells.

New research into germ theory questions the germ and virus hypothesis we have believed for over a 150 years. There have been several studies over the years into the spread of a virus such as influenza in humans and animals. No one has successfully transmitted the disease.

Following the mainstream science, a virus is a pathogen on its own.

The theory of infection through a pathogen called a virus (a word that means poison) has been accepted as a scientific truth. It is believed to be a fact, the reality of the living.

This medical dogma is historically based on Pasteur's germ theory, that restricts the biosocial determinants for the onset of a dis-ease to a single vector, the microbe. This theory was established in the second half of the 19th century and it was approved to be valid for bacterias.

This theory was later transferred to an entity called virus, that has no cell membrane and no metabolism of its own. At the same time there was much scientific discussion about the origin of epidemics.

[Max van Pettenkofer](#) (181-1901) was one of the many advocates, that claimed a more multifactorial etiology of dis-ease. He pointed to the environmental determinants of dis-ease, as clean soil in the cities, an adequate water supply and sufficient sewage networks. Pettenkofer believed that a battle against the epidemic of that time, Cholera, could be won.

Viruses are essential for our survival, just like the bacteria in our guts.

“As Dr. Robert Young and Dr. Tom Cowan explain, there appears to be an important CORONA EFFECT – not a Corona virus. Koch and Rivers Postulates set the standard for proving the existence of viruses (this is what is taught in medical school), such as Isolation, reproduction and infection No virus, including Corona, has ever met the criteria.

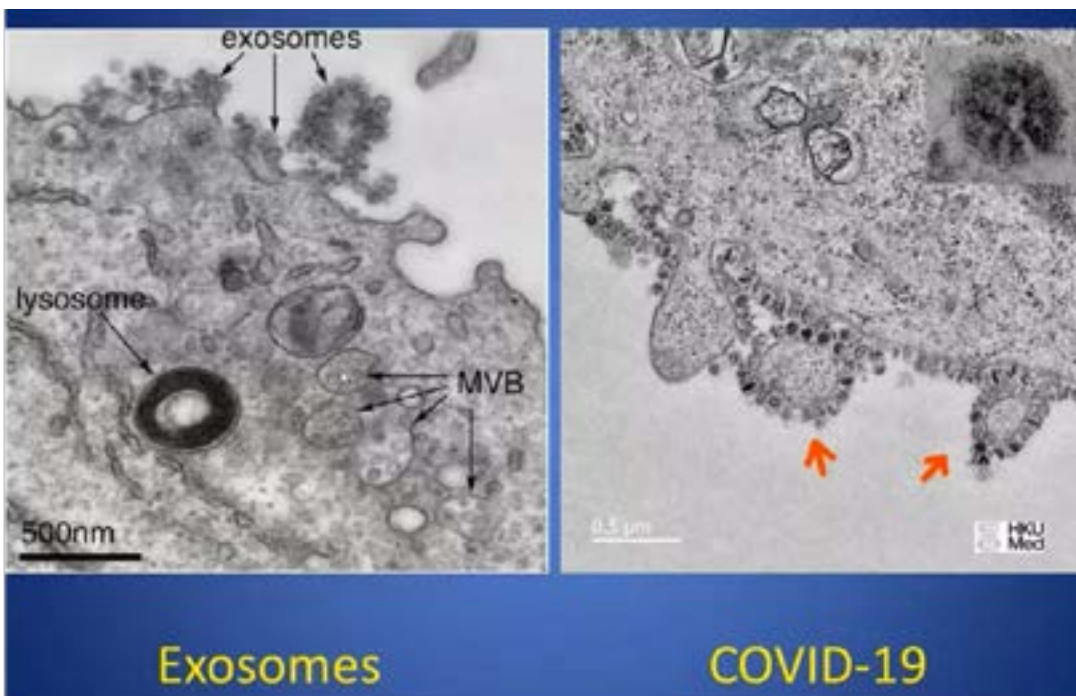

The Corona Effect is a function of our immune systems excreting toxins from our cells in the form of exosomes (the crowned spheres). If we are overloaded with these it damages our circulation, our breathing, our health. Sloughing them off in vast numbers onto others who are also already overwhelmed gives the illusion that there is an infectious “bug” that wants to harm us. This dynamic can be weaponized.”

[Thrive on](#)

There has been a lot of misdiagnosis this past year. People are labelled as Covid if they have a positive test and doctors are not

“A virus is nothing more than a message that has been sent from our systems in response to an adaptogenic need to survive.”

- Dr Rashid Buttar.

questioning whether all the signs and symptoms match. James Lyons a Research Scientist at the University of Pittsburgh suggests even at the time of the Spanish Flu in 1918 they were reporting people were dying of flu when in fact they had bacterial pneumonia. People are entitled to an accurate diagnosis, with the pathogen identified and cultured.

Symptoms attributed as being specific to Covid 19 are also not true. For example: loss of smell and taste happens in 20% of people with any virus and often after the use of antibiotics.

Many of the symptoms people admitted to hospital with are not classic symptoms of a respiratory disease. Covid 19 has been labelled as a respiratory disease. There have been abnormal blood results and multiple organ failure.

Many of these symptoms have a lot in common with radiation sickness.

It's interesting that Covid19 has coincided with the roll out of 5G and the first city to be wired for 5G was Wuhan China. More of this in the Artificial Technology perspective.

The long time in lockdown and not having contact with others is dumbing down the immune system which requires stimulation to stay fit and healthy. This means that when children return to school and adults to work there will be a rise in infections of all kinds. This rise is likely to induce panic and for lockdown and restrictions to be even more enforced.

“Please don't yourself be an experimental guinea pig. The worst thing you can do is put on a mask or get any kind of shot and the data bears this out as you don't activate the immune system. You let your immune system clear the pathogens in the way God intended.”

- [Judy Mikovits PH.D](#)

Is what is happening intentional?

Is it stupidity?

A mixture of both?

Given the risk to mankind...

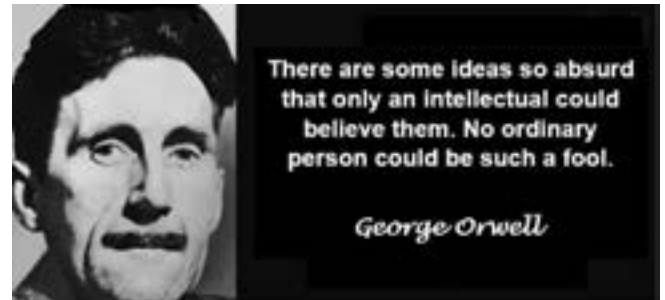

“Wouldn’t it make sense, if the whole world were actually confronted with some deadly microbial threat, to have televised public debates with experts from all different sciences and perspectives? But we haven’t seen that. Quite the opposite. The terrifying projections that justified this whole authoritarian takeover have failed to manifest. These projections of fatalities were created by Gates-funded Neil Ferguson of the Imperial College of London, the same guy whose UN funded global warming models were used to try to justify and fund a one world government. Those too were outrageously overstated but still served to scare people almost enough to accomplish their intended goal of creating a tax base from which to fund an all-powerful global authority.”

Make a conscious decision

Whether you decide to vaccinate or not is a private decision. However, do in depth research before hand and don’t believe all you are told by mainstream media. We’ve only touched the tip of the iceberg here.

We know the worst symptoms occur in those with low vitamin D levels so take a supplement and get out in the sun. Taking vitamin C and zinc can also be beneficial.

“We need to wake up to that agenda and not only say NO, but to use this crisis to expose, obsolete and prosecute those who would rob us of our freedom, our resources - even our very lives - to fulfill their sick need to control everything and everyone on planet Earth.”

Mind Perspective

We have been unconsciously programmed for centuries and our lives are entwined with the state on many different levels: thoughts, actions, beliefs and more. Mind control has always been part of the intention of the church and state. Right now, the desire by the few for ultimate control is growing.

This past year has caused a huge impact on the mental health of many people around the world. Mental illness is steeply on the rise due to the effects of the lockdowns, isolation from loved ones, job insecurity and loss. For some in challenging relationships this has been a very traumatic and stressful time. The huge rise in the number of suicides demonstrate the mental effect this way of controlling a disease is having.

“Widely reported studies modelling the effect of the Covid-19 pandemic on suicide rates predicted increases ranging from 1% to 145%, largely reflecting variation in underlying assumptions. Particular emphasis has been given to the effect of the pandemic on children and young people. Numerous surveys have highlighted that their mental health has been disproportionately affected, relative to older adults, and some suggest an increase in suicidal thoughts and self-harm.”

“A CDC report shows more than 40% of U.S. adults say they’ve had at least one mental health event and a percentage of that is leading to suicide.

Government statistics in Japan reported that more people died from suicide in October than from COVID-19 in all of 2020. A majority were women.”

[BMJ](#)

What is deeply concerning is why are the lockdowns continuing given the risk of death is less than for the seasonal flu and the huge impact they are having on people’s health and the economy?

Stress

Stress is a mental and physical response to the challenges and demands you experience in life. It is not a disease but dis-ease as it is something you create in your own mind. Thus, stress means something different to everyone. What will be stressful to one person can be motivating to another.

To work from home, home school children and not being able to see aged loved ones can be stressful and even traumatic. Some of those who work in a high risk environment such as hospitals have concern they'll bring the virus home to vulnerable family members.

By not creating space and time for relaxation, the stress hormones never leave your body. Over time your body, mind and emotions experience the symptoms of chronic stress.

Chronic stress decreases performance and leads to health issues including heart disease, cancer, depression, relationship breakdowns and employment problems. It depletes your immune system making you more at risk of being ill.

The constant bombardment from the media on number of cases and deaths of Covid 19 has done little other than stir up fear and increase stress. Along with repeatedly being told what you can do/not do is nothing more than mind control and to have power over the population.

This control is the beginning of the slide into socialism.

Masks

The wearing of masks has many effects on mental health. They are dehumanising. A form of isolation and mind control. They reduce communication and can have negative impact on brain health. They also put stress on other organs and systems of the body, including the immune response.

There has been complete U-turns by government advisors and scientists on whether masks are beneficial or not.

Is it more about control than limiting disease?

For masks to be anywhere near effective they need to be worn and used appropriately. Most of the population keep touching them, wear them too long and dispose of them incorrectly.

“The World Health Organization, which has repeatedly changed its position on universal masking, is adamant that if face masks are not worn carefully, correctly, and kept sanitary, they are worse than ineffective.”

[Ratical](#)

Covering your hand when you cough and then washing your hands, sneeze into your elbow and not shake hands is more effective than a mask.

Most of the masks in use may stop large droplets but no masks protect from viruses. For full protection you need a N-95 respirator and these need to be expertly fitted and for you to be trained for them to be effective.

“More than 1.5 billion disposable face masks will wind up in the world’s oceans this year – polluting the water with tons of plastic and endangering marine wildlife, according to a Hong Kong-based environmental group.”

[Ny post](#)

“Members of the public could be putting themselves more at risk from contracting coronavirus by wearing face masks, one of England’s most senior doctors has warned. Jenny Harries, deputy chief medical officer, said the masks could “actually trap the virus” and cause the person wearing it to breathe it in.”

[Independent](#)

The thicker the mask the more likely you are to experience an oxygen shortage. In the USA they are now as of February 2021 recommending double masks.

It only needs a small fluctuation in oxygen levels to cause irritability, increase headaches, fatigue and lack of concentration. This is a huge concern for children with developing brains who sit at school in masks for long periods.

Masks quickly become damp and trap all sorts of pathogens that you then breathe back in. They can cause skin reactions such as acne, eczema and diseases like bacterial pneumonia. Many are made from cotton grown with pesticides and are sprayed with Teflon. Again increasing people’s toxic load.

“Two schoolboys have died within a week of one another while taking part in compulsory physical education examinations while wearing face masks in China.”

[7 news](#)

“Face masks trap exhaled viral particles in the mouth/mask interspace. The trapped viral particles are prevented from removal from the airways. The mask wearer is then forced to re-breathe the viral particles, thus increasing infectious viral particles in the airways and lungs.

In this way, surgical masks cause self-inoculation, increase viral load, and increase the severity of disease.

Neurosurgeon, Russell Blaylock, MD, raises additional concerns:

“By wearing a mask, the exhaled viruses will not be able to escape and will concentrate in the nasal passages, enter the lungs, olfactory nerves, and travel into the brain.”

We need to see each other. We rely on facial expression to help understand another. This is particularly important for people with auditory defects and for young children in the development of language.

Mind Control

Mind control is a form of manipulation, persuasion or brainwashing. It can have beneficial uses in the treatment of addiction, but is frequently used in satanic and evil practices.

Mind control is: "a system of influences that significantly disrupts an individual at their very core, at the level of their identity (their values, beliefs, preferences, decisions, behaviours, relationships etc.) creating a new pseudo-identity or pseudo-personality."

The psychologist Philip Zimbardo says that mind control is a: "process by which individual or collective freedom of choice and action is compromised by agents or agencies that modify or distort perception, motivation, affect, cognition and/or behavioural outcomes" and he suggests that everyone is susceptible to such manipulation."

[Decision making confidence](#)

"The topic of mind control is elaborate, multifaceted, and multi layered. For the casual reader, it can quickly become numbing, overwhelming the senses and creating a desire to exit the topic, but avoiding this subject is the most foolish thing you could possibly do since your only chance of surviving this hideous and insidious enslavement agenda, which today threatens virtually all of humanity, is to understand how it functions and take steps to reduce your vulnerability."

[Educate yourself](#)

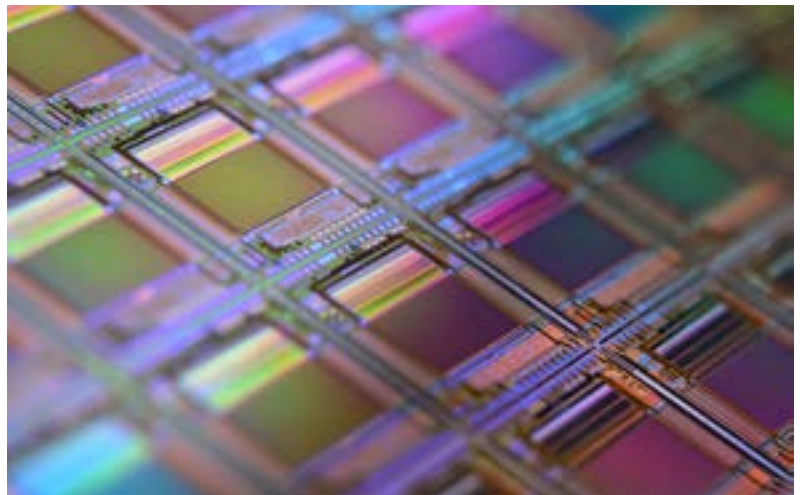

Forms of mind control and brainwashing have been used for centuries. Mind control technologies fall into two sets.

1. **Trauma-based** which is used on prisoners and to control and program children to become sex slaves or to carry out lone assassinations.

In her book 'Thanks for the Memories' Brice Taylor regained her memory after a car accident. She shares her story of being controlled by the comedian Bob Hope and how she was loaned out to presidents and other members of the illuminati as a sex slave and courier, which included drugs.

2. **Electronic-based.** Is used on groups and populations. It can include TV programs, movies, advertisements and cell phone towers.

"The development of electronic mind control under the umbrella program known as [the Montauk Project](#), made it possible to control people via microwaves if the victim could be "synced" with the computer's mind control programming.

The mind control computer uses your unique DNA frequency "signature" to lock you into its control loop. Once your DNA signature is known to the computer, its satellites can focus and lock onto you within one centimeter of wherever you are located on the planet. It can then direct any control signal desired by the computer operator into your nervous system. He can deliver sensations of pain or pleasure. He can give you nightmares and insert voices into your head."

– [Educate yourself](#)

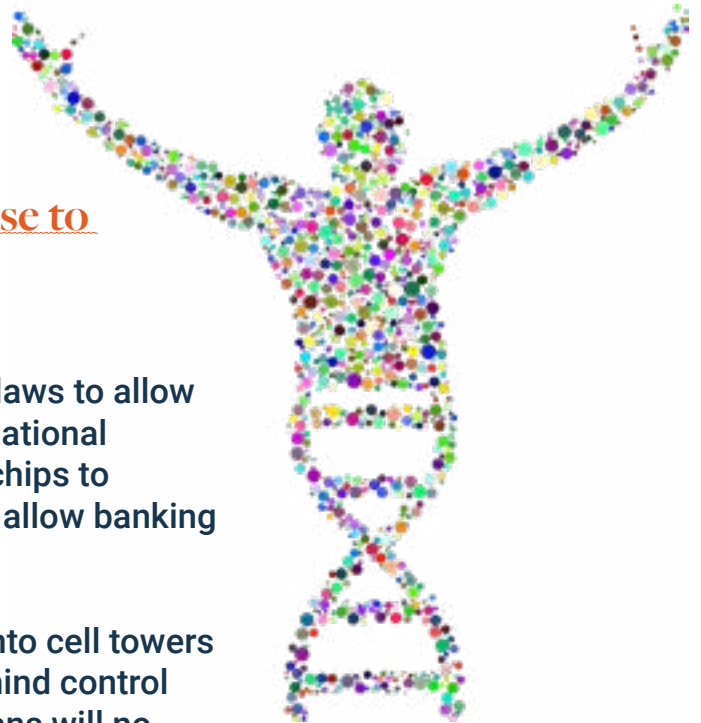

Are the PCR tests a method they use to collect DNA?

Several countries including the UK have passed laws to allow DNA from the tests to be stored in the name of national security. There are also plans to add mini microchips to vaccines to store your vaccine, health history, to allow banking transactions without cards or pin codes.

These chips can also be programmed to link into cell towers and other control devices. The techniques of mind control seen in the movies are becoming a reality. Humans will no longer be totally human but be part machine.

Mind control does not happen in an instant it's a slow, insidious and subtle. People or an individual are unaware of the decision making taken for them, or the influences they have been subjected to, often by people they admire, or by a partner. Mind control is part of a narcissistic relations.

It could be argued we are all subjects of mind control. After all the majority of us are slaves of the state and didn't even know it. Many fully believe what is preached at them from the pulpit, or are taught in schools is the truth and are not prepared to be swayed by other opinions. They will also get angry, nasty or violent to uphold their way of thinking.

Emotional Perspective

The past year 2020/21 has been and continues to be very emotional for many. In March 2020 most of the world was tossed into high levels of fear and anxiety as news of an unknown virus and large numbers of deaths began to surface.

As time has gone on the majority have remained in fear, anxiety, sadness and negativity due to mainstream media coverage of the Virus. Others have become angry and have used the fuel from the anger to dive deep into what is really happening. They have then found passion and connection as they have connected with others of a like mind. They have found a cause to get behind rather than just vegetating in front of the TV which feeds the negative spiral of fear and sadness.

Having mixed emotions arise is normal. It's important to allow them to be expressed in a healthy manner. When emotions are ignored or denied they get stuck and persist. This can lead to stress and health issues like a heart attack or cancer.

Right now, response to human suffering is being amplified as a method to manipulate feelings and emotions by the Deep State who wants to control us. The constant barrage about the virus and death on the news, if you keep watching it feeds this! This leads to an impulse to feel afraid, sad, helpless, bruised, desperate, and raw.

The more you respond to things outside of you of which you have no control, the more you ignore things right in front of your nose. The emotional overwhelm causes a passiveness and activates the escape reflex that leads people to just sit in front of the TV all day.

“Jean Twenge has reported data that suggest that anxiety and depression have been increasing since about 1940 in the USA.”

[The cut](#)

[Interestingly this is around the same time the Deep State started to amp up their agenda of one world order.](#)

Over the last few decades, people seem to have become more anxious, worrying about safety, social acceptance, and job security more than in the past that scientists have started to call it ‘the age of anxiety’.

Twenge thinks the primary reason is that “modern life doesn’t give us as many opportunities to spend time with people and connect with them, at least in person, compared to, say, 80 years ago or 100 years ago. Families are smaller, the divorce rate is higher, people get married much later in life.”

Fear

“Fear is one of the seven [universal emotions](#) experienced by everyone around the world. Fear arises with the threat of harm, either physical, emotional, or psychological, real or imagined. While traditionally considered a “negative” emotion, fear actually serves an important role in keeping us safe as it mobilizes us to cope with potential danger.”

[Paul Ekman](#)

Fear comes from our reptilian brain, the oldest part of the brain. This part of the brain influences our behaviour and controls bodily functions required to sustain life, such as breathing and body temperature. Once you believe there is a threat to your survival the fear centre of the brain takes over, and you are at the mercy of its reactions to perceived threats. The Media purposely targets this part of the brain system by constant negative news.

One of the most pervasive fears in the human psyche is the fear of being an outsider. This is being used to manipulate people into conforming to the ever changing rules around Covid. They do not want to be seen as the ones not following the protocols.

[The Asch Experiment in the seventies demonstrate this.](#)

“Fear is the political currency of the 21st Century. It is what is traded and it is used to “motivate” and control you. Our elected leaders are at war with your emotions, fear is their weapon, and the battleground is your mind.”

[Bullshit](#)

“RARELY does someone actually step outside the cultural box itself entirely. They have simply attached themselves to a new group of people who are an “acceptable” alternative. They’ve gone ‘Goth’.”

[The truth about the law](#)

People have also become afraid of their neighbours – the fear they will report you for not exactly follow the rules and statutes. We are actively been encouraged to spy and report on those around us. The result is you withdraw even more from society and into the vicious spiral of anxiety and depression.

What happened to love, kindness and compassion?

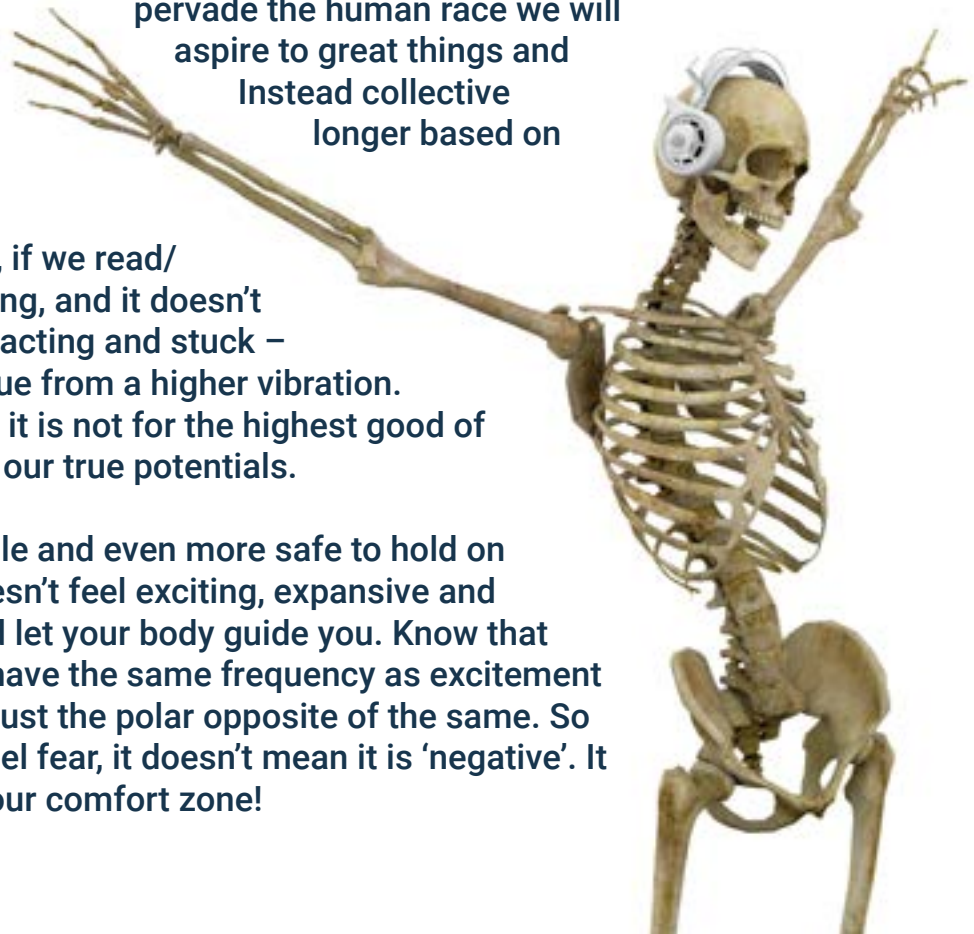

Another pervasive fear is the fear of death. The daily death statistics keep feeding this fear. Yet the daily death rates on the whole are not that different to what they have always been, we are now just aware of them.

If we allow fear to no longer socially accomplishments. decisions are no growth, but on fear.

Instead collective
longer based on

More often than not, if we read/see/learn something, and it doesn’t feel good, it feels contracting and stuck – it is because it is not true from a higher vibration. True, in the meaning of it is not for the highest good of all or in alignment with our true potentials.

It might feel comfortable and even more safe to hold on to that belief. But it doesn’t feel exciting, expansive and tingling... Stay alert and let your body guide you. Know that fear and nervousness have the same frequency as excitement and passion. They are just the polar opposite of the same. So sometimes when we feel fear, it doesn’t mean it is ‘negative’. It means we step out of our comfort zone!

"Fear keeps us focused on the past or worried about the future. If we can acknowledge our fear, we can realize that right now we are okay. Right now, today, we are still alive, and our bodies are working marvellously. Our eyes can still see the beautiful sky. Our ears can still hear the voices of our loved ones."

Heart Perspective

Your heart is your core. It's the first organ that develops as a fetus and is the center of your feelings, electromagnetic energy and intuition, the communications center of your soul and yes, love.

Research by The Heart Math organisation has shown your heart has its own energy field that is about sixty times stronger than the energy field of the brain. It has its own nervous system and more messages are passed from the heart to the brain than vice versa, but our mind and ego overrides a lot of this information.

Humans love to communicate and socialise together. Being with people you love or who positively stimulate you are parts of the joys of life. The lockdowns and social distancing mandates affect people on many levels as we have already discussed. Another issue for many is loneliness.

L oneliness

Loneliness has been an issue for many facing lockdowns and the inability to mix with only a few people. As humans we are social beings and thrive on interaction with others.

The likes of Zoom and Skype have helped stay in touch with others, but there is nothing like a hug.

By being online we are easily tracked, recorded and tapped, so they can see if we are a threat to the Deep State agenda.

“Scientists say that giving another person support through touch can reduce the stress of the person being comforted. It can even reduce the stress of the person doing the comforting.

In a [study](#) of over 400 adults, researchers found that hugging may reduce the chance a person will get sick. The participants with a greater support system were less likely to get sick. And those with the greater support system who did get sick had less severe symptoms than those with little or no support system.”

[Health line](#)

The isolation has been particularly hard for those with health conditions who were advised not to go out and for the elderly.

The elderly in Nursing Homes have been stuck in their rooms seeing no one but care staffs for months. At best they have seen loved ones through a window. It’s no wonder they are now falling

ill and dying from the vaccine as their natural immunity which requires interaction with others is so depleted.

Is this really a life for our elderly and severely disabled?

They have no quality of life and wish they were dead!

The isolation is in the name of saving life, but it removes life from life.

“Decades of research has shown that loneliness and isolation are associated with high blood pressure, chronic inflammation, weakened immune systems and a host of other health issues.” In a survey of 70 studies involving more than 1 million people from around the world, Holt-Lunstad found that people who lived alone were 32 percent more likely to die over a given period. People who reported feeling lonely were 26 percent more likely to die, and people who experienced social isolation – defined as few or infrequent contacts with other people – were 29 percent more likely to die. “

[Washington post](#)

Isolation of those infected has been a way to stop the spread of infection for centuries, but never before have the healthy been isolated other than in prison. People need to be in contact with others for a herd immunity to be developed. It makes sense to protect the vulnerable, but not the healthy.

The result of everyone being subject to isolation is every time the restrictions are lifted, cases rise. We are just slowing down the inevitable. The virus has to run its course.

Who benefits from us all being isolated?

SARs showed in 2003 when a disease is allowed to follow its

natural trajectory, it quickly fades and is no longer an issue.

“Severe Acute Respiratory Syndrome (SARS) is a respiratory illness that affected many people worldwide in 2003. It was caused by a coronavirus, called SARS-associated coronavirus (SARS-CoV). SARS was first reported in Asia in February 2003. The illness spread to 29 countries, where 8,096 people got SARS and 774 of them died. The SARS global outbreak was contained in July 2003. Since 2004, there have not been any known cases of SARS reported anywhere in the world.”

[CDC](#)

Loneliness is compounded if a loved one dies. Relatives are kept from being with their loved one in the dying moments and are deprived of the ability to say goodbye. Due to restrictions funerals at best can only be a few people and in some instances not allowed at all. They are unable to get the reassurance and hugs from others grieving with them.

With the loss of a partner some are now totally alone for the first time. This is always difficult, but without support and people to drop in for a cuppa grief and mental issues are compounded.

This should be classed as cruelty and tyranny. It is one of the causes of the increase in mental illness and suicide.

The Deep State agenda is to keep us separated and isolated as together we are strong.

Divine Perspective

Since early times of modern human begins there has been religious dissension. Every reason for war at some level has been one set of religious beliefs against another. Yet fundamentally every religion is based on the same principles and values.

Here are just a few of the many dissensions:

- * Worship of many gods against the one god.
- * Pagens against Christianity.
- * John the Baptist and his teaching of the suppression of women. If we did not behave, we would be plagued by the devil and sent to hell rather than heaven. Whereas Jesus and his wife Mary Magdalene preached of love, compassion and oneness. Christianity may worship Jesus as the son of God but it's the St John the Baptist version of religion that we are taught.
- * The crusades. Killing in the name of God. The Knight Templars who were the leaders of these crusades are still an active Deep State organisation today.
- * The Cathars who worshipped the teachings of Jesus and Mary Magdalene were persecuted and finally all, but a few were massacred in 1244.
- * WWII and the persecution of the Jews.
- * 911 and the reprisal against Muslims and so called 'terror ists'.

We hear a lot today about the second coming. Many people believe this will be the return of Christ, or another being outside of themselves. More likely it is each one of us to recognise we are God and our own saviours.

To recognise ourselves as God, many people have turned away from organised religion in favour of general spiritual practices. Meditation and yoga have become a big part of many lives.

However, some of the teachings from Spiritual teachers is flawed. People end up in their heads, or disconnected from their body, heart and intuition – their higher self. They believe they are connected with Source but instead might be Spiritual bypassing.

Spiritual seekers are told what it is to be enlightened when in fact in some instances it's the opposite, or just another form of religious dogma.

Did you know ...

**Some yoga postures close down the flow of energy?
Some yoga postures are used as satanic practices?**

“Spiritual bypass or spiritual bypassing is a “tendency to use spiritual ideas and practices to sidestep or avoid facing unresolved emotional issues, psychological wounds, and unfinished developmental tasks”.The term was introduced in the early 1980s by John Welwood, a Buddhist teacher and psychotherapist.”

Sacred Sexuality

“Throughout history sex have been used as a tool and a trade to diminish its sacredness and creation power. It has been encouraged for men to sow their seed everywhere – with or without consent of the women (or children).

Women on the other hand have been shamed, chased and executed when they have expressed their sexuality.

Sex - if disconnected from the heart (chakra) - has been reduced to merely an act or activity for pleasure, obligation and/or superiority. It has been so f*cked up and distorted at so many different levels that we cannot even grasp the magnitude of the sacredness.

When we disconnect from our chakras, we disconnect from ourselves, others and the planet. The chakras are portals to other dimensions.

The root chakra is in the anus, our physiological connection with the first dimension, the center of Mother Earth. The second, sexual chakra, connects us to the telluric realm, which is why sex can be experienced as an earthquake or a volcano.

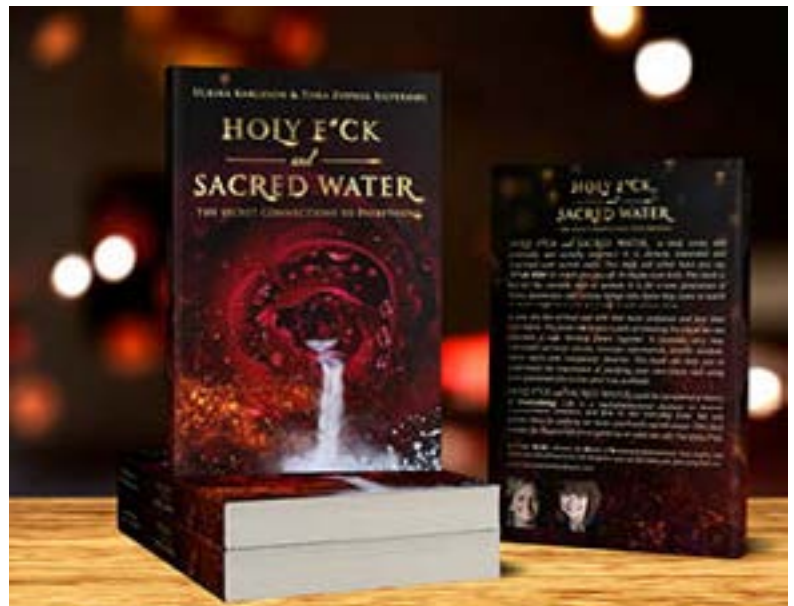

When someone is penetrated against their will in anus, the connection with Mother Earth is distorted. So imagine all, for instance, Catholic altar boys wounds, and the consequences of not only humanity, but also Mother Earth, due to this.

- **Would people stop destroying the planet if this chakra wasn't abused?**

- If abusive men didn't feel guilt for having sex, maybe there would be less abuse?
- If men didn't repress their feminine aspects, and connected only with their wounded masculine aspects, would they hurt, force, and dominate others?
- Would they still get turned on by hurting others?
- Would priests and other distorted groups rape children?

Repressed sexual guilt is one big reason for humans to abuse our planet and our children.

How can something connected to Source and with the energetic quality of God and love be sinful and something to feel guilt of?

When we control and suppress our sexuality, we deny who we are and where we come from. We all come from the womb, men and woman alike.

Yoni (the womb) is the divine portal to connect with Source and who we really are. Just imagine the incredible power and creativity we all hold within. When you control the yoni and the wisdom of the womb, you also control life and the connection to divine Source. No wonder women have been seen as threats to those in power. And no wonder those in power - or wanted power - also wanted to control women.

Our sexuality is a portal to our creativity and Source itself."

Sex and the Church

For centuries priests and nuns of the Catholic Church have been celibate.

“The priest's total self-giving to the Church finds its justification in the fact that she is the Body and the Bride of Christ. Following Christ, the Church as Bride is the only woman the priest can be wedded to, the only Body over which he can have nuptial rights (105-6). He exercises a kind of spiritual paternity over his flock.”

[NC register](#)

However this has not stopped them sexually abusing children and parishioners, especially young boys. Many cases are now coming to light and several priests have been prosecuted. Yet the higher ranks of the Vatican still continue to turn a blind eye. Possibly because sexual and satanic practices have been practiced in the Vatican for centuries.

“The Reverend Gabriele Amorth is another example, he was an Italian Roman Catholic Priest, and an exorcist of the Diocese of Rome, which is an administrative branch of the Catholic Church of Rome.

He claimed to have performed tens of thousands of exorcisms over his half a dozen plus decades as a Catholic Priest, and has mentioned a number of times how Satanism is practiced within the Vatican. He has also claimed that girls are commonly kidnapped by a gang of Vatican police and foreign diplomats. He claimed that these girls are recruited for Vatican parties, and crimes with a sexual motive.”

[Light on Conspiracies](#)

Don't forget the Vatican is part of the Deep State!

There are many instances of sex and child trafficking, occult and satanic practices that have been connected to members of Deep State families. This is a very dark and painful area. It's suffice for now that you are aware its going on.

Taking sexual advantage of parishioners is not just restricted to the Catholic Church. It's also in the spiritual community. John of God is just one example.

“A spiritual healer in Brazil known as João de Deus, or John of God, received his first prison sentence on Thursday following a deluge of sex abuse allegations since late last year.

A judge in Goias state issued a sentence of 19 years and four months for four rapes of different women, according to a statement from the court.”

[ABC news](#)

Sexual abuse creates, so much trauma and disconnection. The majority of people who commit crime have experienced abuse. It closes down the lower chakra's and so we stay in victim/survival mode.

The reptilian brain dominates our lives and we are unable to manifest the lives we want. So we stay enslaved and passive, which makes abuse a great tool for the Deep State agenda.

Another way the Deep State controls us, dumps us down is through calcifying the pineal Gland.

Pineal Gland

"This one eye refers to the third eye as we see it, which is connected to the pineal gland. The pineal gland is an alchemist in itself; it is the size of a pea and looks like a pine cone.

It sits in the center of our brain and is aligned between our ears and our eyebrows (third eye). Its hollow interior is filled with water. It is this water that becomes calcified and hardens when we get older, as well as from all the fluorides we get from water, toothpaste, and other products.

You might, as we do, question if that is intentional as calcifying the pineal gland closes down our intuition, our 'sight,' psychic senses, and clarity of mind. The pineal gland is a crystalline superconductor that sends and receives information through the vibrational signals in the quantum field.

It translates the signals into our bodies so we can 'read' them. It ships melatonin into the blood and cerebrospinal fluid."

Nature Perspective

We are dependent on this beautiful planet of which we live to survive. Yet over the last two centuries she has been abused by humans in the name of progress.

We have developed in synergy with nature over the millenniums. When we interfere with nature and natural laws there is also payback in human health.

The Deep State have grandiose ideas on how to prevent climate change, have enough food for all to eat and at the same time protect the environment. As we have already discussed one of the ways they plan to do this is have us all live in cities.

They are already moving us from farms to giant animal factories and monoculture fields. They are also developing artificial foods.

We know already the harm artificial sugars and additives do to health.

There is no shortage of food, it's a waste and distribution problem.

Hunger

“Approximately 9 million people die of world hunger each year according to world hunger statistics; more than the death toll for malaria, AIDS and tuberculosis combined in 2012.

Yet the world produces enough food to feed everyone. Food availability per capita has increased from approximately 2220 kcal per person per day in the 1960s to 2790 kcals per person per day in 2006.

Poverty is the number one cause of world hunger. The World Bank estimates that 10.7 percent of the world’s population, or 767 million people, lived on less than \$1.90 per day in 2013.”

[Borgen project](#)

Agro Farming

Giant agrochemical companies like Monsanto produce chemicals such as Roundup, but also genetically modify seeds to go with their chemicals.

They make farmers become dependent on both. Farmers are unable to save cost by producing their own seeds.

They shut down small organic farmers and want huge farms that use artificial means and machines, not people or natural methods. These methods have already been seen to cause devastation to the environment and people's livelihoods. This has led millions to die of starvation in Africa and India.

"Pepsi came into India after 1984 and suicide started in the potato belts. Pepsi, for a 20 rupee package of potato, the farmer gets 0.04 paisa, which is an insignificant amount. So, when it's chemical agriculture, GMO seeds and globalized trade by agribusiness and agro-processing industry, on average, farmers get 0.5 to 4% of what a consumer pays. But the consumer pays not just the price of that junk food in the package, they're paying for the price of junk food in their health."

[Vandana Shiva](#)

In the drive to produce readily available and cheap food, farming has become more and more intensive. This includes the use of hormones, antibiotics, herbicides and pesticides, and other chemicals such as ammonia. As well as the development of genetically modified seeds and animals.

Hormones and Antibiotics

“To increase yields, meat and milk products (depending where they are produced) contain growth hormones, steroids, antibiotics and various chemicals and pesticides. These are added to animal feed, or injected into the animal. As they are not all eliminated, they end up in our milk and meat and this then has an adverse effect on your hormones.

Growth hormones have been banned in animals within the European Union, but are still used in the USA and elsewhere. These growth hormones are often synthetic versions of oestrogen, progesterone and testosterone.

Your body is unable to process these synthetic hormones, so your body protects itself by laying down fat to store them. The same happens within animals, so as you ingest their fat you are getting a high dose of these chemicals. This can be a major contributor to why some people are unable to lose weight.

These synthetic hormones also upset your natural hormone balance. This can result in menopausal symptoms and an increased risk of hormone related diseases, such as endometriosis and cancer of the breast and ovaries.

Antibiotics are fed to animals to keep them healthy in a crowded environment, but also to make them fat. Residues of these antibiotics remain in the meat and dairy products.

What is scary is their overuse, as this is increasing the danger of antibiotic resistant diseases such as MRSA (methicillin-resistant staphylococcus aureus).

Around 80% of antibiotics used in the USA are given to livestock. Since 1999 there has been a ban on the use of antibiotics to promote growth in livestock in Europe. Despite this ban, antibiotic use in UK agriculture only fell by 11% between 2004 and 2009.”

Beyond Hot and Crazy

Pesticides, Fungicides and Herbicides

“Pesticides, fungicides and herbicides are sprayed on nearly all crops not grown organically, including fruit, vegetables, grains, nuts and seeds. Organic crops can get dustings as they are now in the atmosphere. There are over 300 types of pesticide and many are extremely toxic. Despite so-called safe limits (often broken, especially on fruit) pesticides are doing untold damage to our bodies. They are not just on the outside of produce as some are systemic and thus are present throughout the whole vegetable or fruit.

An average person’s annual intake of fruit and vegetables has had the equivalent of a gallon of pesticides sprayed onto it. Most pesticides are resistant to water, so washing fruit and vegetables before eating is ineffective. Vinegar or baking soda is required to remove more of it.

Even though DDT has been banned since the 1970s, it still shows up regularly in fresh produce testing as soil is still contaminated by it. An expert committee who regularly tests foods for pesticide residues, has found 46% of current produce contains one or more pesticides, up from 25% in 2003.

Pesticides have been shown to be carcinogenic, but they also prevent your body from being able to defend itself against other carcinogens. Some of these chemicals imitate oestrogen and disrupt thyroid function, both of which can lead to weight gain and increase the risk of breast and ovarian cancer.

Pesticides and herbicides have been linked with causing:

- * Cancer
- * Obesity (by slowing down metabolism)
- * Parkinson's disease
- * Diabetes
- * Infertility
- * Endometriosis
- * Birth defects
- * Autism
- * Attention deficit disorder
- * Respiratory disorders such as asthma
- * Skin irritation
- * Impaired immune system
- * Kidney disease."

- Beyond hot and Crazy

Why are we still using these methods despite all the harm to human health, animals and nature?

Is this part of the depopulation agenda too?

G^{MO}

“GMO is often found in soy and corn products. Especially corn has inflammatory properties, and eating it may cause physical inflammation, inflammatory emotional reactions, heightened states of fear, and addiction to eating more corn.

Here are four reasons not to eat genetically modified food:

1 . GMOs destroy the environment: The repeated use of land for single-crop agriculture (monoculture) has resulted in dead soil that requires heavy doses of chemical fertilizer and pesticides to be productive. Significantly, GMOs were primarily designed to be resistant to powerful pesticides to encourage their use. These deadly pesticides are applied in heavier doses than traditional crops need and then leach into waterways, polluting everything in their path.

2 . GMOs are unhealthy: GMO foods have undergone little long-term safety testing for humans, but several animal tests have shown negative health effects. Major studies verified that the substance used in most major pesticides including best-selling Roundup, glyphosate, causes birth defects and induced sterility in male lab rats. Studies pertaining to eating GMOs resulted in some form of bacterial gut rot and new allergies in the test animals. Eighteen percent of all GMO seeds (and therefore foods that grow from them) are engineered to produce their own pesticides. Research shows that these seeds may continue producing pesticides inside your body once you've eaten the food that grown from them!

3. Unnatural genetic contamination: Releasing any foreign genetic mutation into the wild can have unpredictable consequences. GMOs aggressively cross-contaminate neighboring organic plants, causing incalculable damage. A Spanish study found that GMO maize: 'has caused a drastic reduction in organic cultivations of this grain and is making their coexistence practically impossible'.

4. As an additional motivation to avoid GMOs, you may wish to take a lesson from the animals. Eyewitness reports from around the world describe several situations where animals, when given a choice, avoid genetically modified food. These include cows, pigs, geese, elk, deer, raccoons, mice, rats, squirrels, chicken, and buffalo. Just saying...

These processes lead to increased disease in humans and animals. Then big pharma and high hospital costs make big bucks. In other words Deep State create diseases from which they make money to then make more money on the so called remedies."

Why would we not eat GMO food but would allow GMO vaccines be injected into our body?

Funding Impacts

Did you know most hospitals and medical schools are heavily funded or subsidized by the pharmaceutical industry and their top dogs sit on the boards that make decisions on what protocols to follow?

Guess who owns big pharma and agrochemical companies?

Farmer Bill
Bill Gates has vast investment in vaccines and has been pushing their agenda around the world for many years. He claims they are his best investment yet! He has also recently been investing in land and is now the biggest farmland owner in the USA.

“He did this health campaign to take over our farmland. Nobody knew he was doing it. He was buying it through shell companies, cascade investments and other means. He’s also investing in Alphabet, which is a [Google](#) company and developing robotic farm workers that will replace farmers. He is developing artificial intelligence and stealing the knowledge as he did in India, from the little farmer. He put cameras in their homes, in their fields. He put sensors everywhere to figure out how they were using the seeds.

And then he took the seed banks, there’s 15 seed banks around the world that store all of the heritage seeds of humanity, 786,000 species of seeds. They’re there for humanity, for the commons, and he has taken over that seed bank, consolidated it and is now privatizing it and changing the genetic makeup of those seeds, making it so that they are chemically dependent so he can patent all of the life that has been developed over 20,000 years of agriculture on this planet.”

“Bill Gates has joined a £3bn bidding war to buy the world’s largest private jet services company just as he prepares to publish his new book How to Avoid a Climate Disaster...

According to a study by academics at Lund University, Gates is one of the world’s biggest “super-emitters” due to his regular private jet travel. He took 59 flights in one year travelling more than 200,000 miles, according to the report, which estimated that Gates’ private jet travel emitted about 1,600 tonnes of carbon dioxide. That compares with a global average of less than five tonnes per person. Researchers have found that private jets emit up to 40 times as much carbon dioxide per passenger than commercial jets.”

Vibrational Perspective

“How can you act from truth when the world is built on lies?”

When the foundation of the world—countries, politics, religion, etc.—is built on laws and rules dominated by power, control, and manipulation, how can we ever do the ‘right’ thing?

We try to follow the laws and rules and be ‘good citizens,’ but my experience is that I can never get “fair” results. For instance, the taxation department makes their own little interpretations of their own rules, so we have to pay more taxes. They can twist and turn the wordings to fit anything to their needs and desired outcomes. Sometimes they even contradict themselves to reinforce their arguments. It is the same thing with science. Many researchers think they are objective when objectivity doesn’t even exist. Everything is subjective. They will interpret the rules and results differently in different departments or fields depending on what is real and true from their own perspectives. This includes the variables that make sense in their particular field. And then we have the governments. They say what is right or wrong by labeling things legal or illegal—but the whole government is built on what could be labeled illegal decisions and actions.

**How can we then act legally?
Where is the balance in all this?**

What came to me one day was that we cannot do the ‘right’ thing when the foundation of the world is screwed up. There has to be

balance. There has to be a solid, abundant, and empowering foundation. It doesn't give me bad karma or anything if I lie since the whole system was built on lies altogether. I cannot rise above it by lying—but I am not bringing it down either. If we want to raise the vibration of this foundation, we cannot face it with the same frequency that created it—as Einstein said. We have to move beyond it, which means we have to start living in balance with universal laws. I'm not saying you should do illegal things, but I do believe that to follow, accept, and be aware of the universal laws should be your first priority.

Only when the universal laws dominate our consciousness can we act from true truth.

For thousands of years, people have been using these guiding principles to enhance their physical, mental, and spiritual growth.

Where did these thirteen universal laws come from, what are they, and how can you use them to improve your life?

In the Kybalion, a study of the Hermetic philosophy of Ancient Egypt and Greece, there are seven universal principals listed. These principles and laws were used to manifest creations and were also utilized in the art of alchemy—turning metal into gold and all that. These laws are the keys to divine magic. You can find these universal laws embedded in the holy scriptures of most world religions. Socrates, the Greek philosopher, explained that whether we understood them or not, the world was governed by universal laws and a system of order. So basically, the question is do we want to work with them or against them?"

[Goodness, Grace & Great Thoughts on Fire](#)

When Goodness, Grace... was published back in 2018, Tora Zophia didn't know that there were more layers to the corruption and lies. We do not have to be citizens.

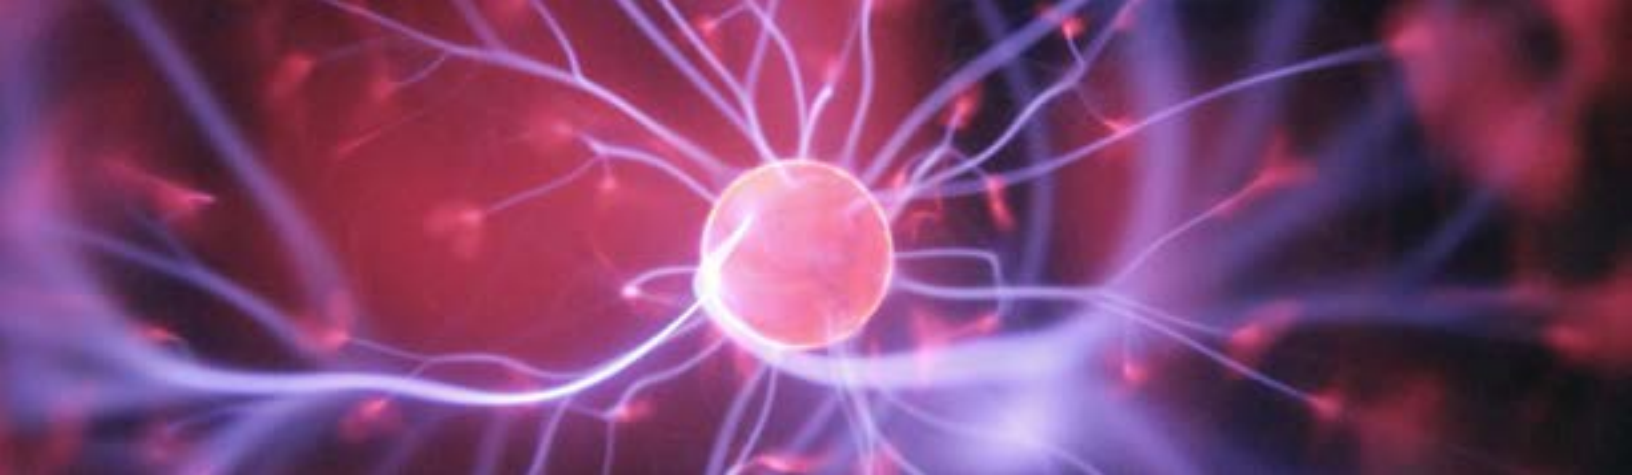

We can be free and sovereign by not identify with our Strawman! As citizens we have act legally. As sovereigns we act lawfully. And when we are free, we also vibrate at a faster frequency.

"This universal law of vibration states that everything in the universe moves, vibrates, and travels in circular patterns. The same principles of vibration in the physical world apply to our thoughts, feelings, desires, and wills in the etheric world. Each sound, thing, and even thought has its own vibrational frequency, unique unto itself.

What most people have never been taught is that everything in the universe is 'controlled' by these types of universal laws. The 13 universal laws are interrelated with their foundation based on the understanding that everything in the universe is made up of energy, including us.

Since our thoughts and actions are a form of that energy, it makes sense that we know how this energy works and work with the laws in the flow instead of trying to control them. When followed, these empowering laws and principles can help you to have a more peaceful, abundant, and harmonious life. Instead, these universal laws have been hidden from us so we forget who we are, and most of all, how powerful we are.

However, we have to remember that these are the laws here—at this dimensional level—not in the other higher dimensions. This means that the higher the vibrations that dominate our reality, the less these laws will apply.

The earth's frequency, which had been stable at 7.8 MHz for centuries, started to skyrocket and has tripled since early 2000. So everything vibrates faster and faster on the planet, which means we experience time moving faster too, until it collapses and we will only experience the present moment or the Now.

So these laws will become less and less dominating. When we go multidimensional, new universal laws will exist. And a great way to get into the multidimensional existence is to consciously work with the universal laws.

So what laws do you want to dominate your life?

The universal laws will dominate either way, but maybe you want to be more consciously aware of them and not play the game of corruptions and lies anymore.”

Schumann Resonance Today - Latest Graphs

Schumann resonance

“Every second, a multitude of pulses travel around the world in this unique, resonant chamber between Earth and the ionosphere, sending colluding signals to all microorganisms. These signals couple us to the Earth’s magnetic field. Named after their discoverer, these Schumann Resonances (SR) drive the harmonizing pulse for Life in our world.”

[Eric Thompson](#)

The earth and all its life forms move according to a deep heartbeat. This is a measurable pulse that underpins all organic life. Most modern human beings live lives that are out of sync with this organic pulse, which puts our bodies under stress and weakens our immune system.

That makes manipulation of our electromagnetic fields a great tool to keep us disconnected, out of harmony and stressed.

“In terms of energy, we can become disconnected to the earth’s pulsating heart due to these countless polluting electromagnetic fields that exist worldwide.

The nuclear research done at Cern is also about our magnetic fields, which means they tamper with the natural energy fields on the planet and pollute our sacred waters with dark energies. The effect of these manipulating electromagnetic machines can be our own downfall if we do not wake up. This machine was turned off in 2018, but a ten-times upgraded version will be turned on again in 2021 – unless we stop it.”

Symbols

Everything that is created holds a vibration. Deep State use technology, spells and dark magic to hijack many symbols. We either fear them, such as the 666, or are not even aware of them. They put seals and implants in our energy bodies so our vibration is kept down. They poison our food, water, nature, bodies and minds – all to keep us enslaved.

“The 666 energy has been hijacked as have many other symbols and energies. This has really distorted the pure essence of the 666 energy. Now the conscious dark patriarchal system and materialistic energies control the 666. The patriarchal system affects, dries out, and depletes our lower chakras as the energy is “pulled out.”

This creates huge disconnection, imbalance, and misalignment in us as human beings and with Mother Earth. It activates the survival of the fittest, our basic survival needs, and stress responses such as fight/flight.

The distortion of 666 was consciously made to block the pure Christ energy (our true nature) from flowing freely. This conscious block created an illusion that 666 was evil.

- [Holy F*ck and Sacred Water](#)

When our vibration is low we have less energy, heavier thoughts and are disconnected from source, self and others. It's difficult to feel joy and connect with the meaning of life. This makes us submissive, numb and uninspired, wanting for someone to save us. Just what the Deep State want – they can save us (those who survive) with the Great Reset.

When we stop giving our silent consent, stand and claim our freedom we raise our vibration. When we are free, we feel happy, joyful, creative and connected.

Come and play with us at Wholyland.me on Footsteps for Freedom.

Grid Perspective

“There are many stargates/portals/vortexes on the planet. They are like the chakra system of Mother Earth and are located at ley line intersections. Many of these stargates have been hijacked by the Deep State.

- Stargate 12 portal in Southern France

For instance, Stargate 11 around Stonehenge is occupied by the military, who have a base beneath it. The pyramids in Egypt are strictly sealed, monitored, and restricted to the public. In fact, all pyramids, as they are stargates, have military surveillance.

There is one stargate in Geneva that has the scientific research center [Cern](#), built upon it. Cern, who also gave birth to and hosts all our Internet in the ether, was built upon a stargate to the underworld. The world wide web – WWW symbolizes 666 in Hebrew, and Cern’s logo is created out of 666.

Cern has a statue of Shiva in its center and hosts many ancient texts and tablets connected to devilish and destructive gods such as Apollo and Shiva. Shiva is often portrayed with a ring-shaped circle around him, which has the same shape as the time machine portal to other dimensions that Cern has built.

These types of large-ring portals have been found in many sacred sites by archeologists around the globe. There are several private film clips showing how they are doing satanic rituals and sacrifices in modern time at Cern”

[Holy F*ck and Sacred Water](#)

Every powerful site on our planet has been hijacked and misused for thousands of years. The thing is that few people have learned about the power of sacred sites at school. It is ancient, yes, but that it has a bigger significance, no. As an example, Notre Dame is not just a famous cathedral in Paris.

"Notre Dame was built on a sacred pagan site as the ley lines cross there. Beneath the cathedral lay the ruins of a Temple of Isis, with an altar devoted to Jupiter (hold on to this fact as it is connected to the 666 energy). In Greek mythology, this would have been Zeus; in Ancient Egypt – Osiris, the resurrection king.

Notre Dame is also the central heart of Paris, being a massive vortex of many interconnected ley lines, known as the point zero, with the same ley line points we shared before about the Lourdes holy spring.

When the sacred feminine is erased from history, insanity is revealed. The conscious darkness takes over by spreading fear and terror to stay in power. Even if we do not know for sure how many women were tortured and killed by the 'Holy Inquisition' founded by the Roman Catholic Church it is believed to be millions.

The irony is that the sacred feminine was declared demonic and subsequently controlled and suppressed. Males who denied the feminine – even in themselves – now run the world. A world that today is out of balance and based on lack and fear.

Starseeds and the new children of our planet

We are also grids and portals to other dimensions and we experience more and more children who come with gifts, that is perceived as 'disorders'.

Who can decide what is order and not?

We pump and drug these gifted children with artificial meds, bully them, make them wrong and something to fix. By doing this the Deep State closes down these star childrens connection to source and portals to different dimensions by calcifying their pineal gland.

We have to ask ourselves who benefits from this? Who make money of this?

Many disorders are activated from the polluted food, water and air we breathe. Vaccines, medicines to fix something that was man made in the first place. But that is a different thing, as disgusting it might be.

Here we bring up the energy masters of the new children, who we destroy with our ignorance and brainwashed realities of who to trust and listen to.

"There is a new generation of children on the planet. Children, who see the world differently than we did back in the days. Children, that are often stressed and seen as different and even not "normal." Children, who have more developed brains than many adults, and who have more activated DNA.

Some children are called "smarter," others are called "with special needs." Some are called indigo, star or crystal children. These children's main purpose is to take us to the next level in our evolution, and reveal to us our inner power and divinity. They

are highly sensitive and psychic, and have important life purposes.

The main difference is their temperament. Indigos have a warrior spirit, because their collective purpose is to mash down old systems that no longer serve us. Crystal Children are more often blissful and even-tempered. The star children know that all life on Earth is sacred and should be honored.

They have all come with a specific mission in their hearts—one of rebuilding the Earth with compassion, honesty and unity. We incorrectly label these children as wrong. We might even give them an “alphabet” diagnosis—ADHD, ADD, Autism, Asperger’s, Bipolar, Explosive, Hyperactive, Sensitive...

There is nothing wrong with these children! What if it is the system that is not fitted for a new generation of children? What if we try to put them into a box that they are too big for? The school system is not equipped to teach the children who are outside of the “norm.”

Subsequently, they are under-stimulated or over-stimulated, medicated, ostracized, and everything in between. Preschool teachers, kindergarten teachers, and parents are told to work on integrating the children into a school system.

How can three year olds prepare for school—to sit quietly, listen deeply, and nod at all the right times? How can they learn to read, write, and count before they can walk?”

[Mission possible – from the book Time to Rise](#)

When we live in the control matrix possibilities are limited. Stargates and portals are healers and activators. Most are hijacked and compromised which keeps us trapped in the control matrix.

To break free and connect with multidimensional realities where everything is possible, we need to clear our toxins, activate our pineal gland, DNA and come together to reactivate these sacred sites.

At Wholyland.me on our Footsteps for Freedom journey we play, tone and reactivate our DNA, pineal gland and the grids and portals together.

Space Perspective

Around the world we experience less and less freedom of space. We are not allowed to travel without taking tests, self-quarantine or get vaccinated. Somehow Deep State have managed to freak people out so badly that governments can violate our private space.

They can lock down the borders – that are not real or natural in itself and force us to test if we want to pass. Vaccination passports are coming closer by the day and many who would not take the vaccine normally all of a sudden will do it to be able to travel.

The pollution of air and space is another great weapon to keep us numb and dumb!

Again, we need to learn that it is only by giving our consent and identify with the strawman this is all possible. If we do not consent to that, they are not allowed to enter our private homes and spaces. They do not have the jurisdiction. It is only when we enter their jurisdiction they can rule us.

Part of the irony of the time we are in is the inconsistency of the rules and statutes (which are not laws, no matter what they say they are). Different countries have different rules and restrictions.

Yet, when we ask for proof and documentation for why the rules are taken in use, they often refer to other countries. Tons of emails and documents have disappeared when they were pushed to prove something.

One of the government tools to keep the fraud going is to blame it on someone else. "They said we should do it". And yet, no one takes the responsibility.

In Denmark they killed all the minks, without any documented proof, and keep on blaming each other for the so called 'mistake'. They had no authority to do so, and the mink farmers did not get any money for it. Turns out that China owns most of the mink farms in Denmark and all of a sudden, billions would be paid out.

Coincidence?
Conspiracy?

You decide....

Rules in Denmark

We try to summarize some the f * cked up rules (or statutes) in Denmark as the logic may not be so obvious.

- * When traveling by public transport, wear a face mask at all times, even if you are sitting alone in the passenger compartment.
- * Face masks are mandatory – unless you have a health condition.
- * You can go and buy food at a supermarket – even without a face mask - where people stand and walk close to each other.
- * The virus only goes out after 10 pm in the evening. Previously it was midnight. The virus thus seems to be time-sensitive. Or perhaps a vampire – as darkness falls earlier and earlier this season.
- * It used to be that in cafes, restaurants, etc., a face mask should be on when you walk or stand up. As the virus probably floats high above the heads of those who sit down and do not need a face mask. These days are of course all stores and restaurants closed – except for take-a-way.
- * In other words, you get up – face mask on. If you sit down – face mask off.
- * But on the bus, when you sit alone, the virus infects you regardless. So the virus is not only time sensitive, but also seems to be geographically aware.
- * On the other hand, not all of these rules apply in all municipalities. It is up to each municipality to decide how the virus is transmitted. It's simply said a very spontaneous and various virus.

New restrictions arrive all the time without any common sense. The Danish government is pushing a new statute that say they can force vaccination, testing, quarantine housing (basically concentration camps) if they suspect you have Covid.

Also, if they believe you have a “society dangerous disease” what the hell that might be. This new epidemic ‘law’ (read statute) was voted yes for in the parliament on February 23, 2021. They day that from now will be remembered as the day Denmark became a Communist/Nazi country.

It’s complicated to keep up with the rules that change several times a week. The statutes change all the time, going from being ‘allowed’ to be 500 people together sometimes, to 50 and 5, in other situations....It all depends on the purpose of the gathering. If it has political purposes to gather, it is ok.

What do Denmark say about Sweden then?

When a journalist asked Mette Fredriksen – the Danish Prime Minister – about the government’s attitude to Sweden’s such different methods, the short answer was: “It is not a competition.” We will leave it with that....

But at the same time, the world is competing to become the best at handling corona. As the Minister of Health in Denmark said so nicely on the [news on 23/9/20](#) that “we will be the best”.

What happens in Australia?

In Australia, they have decided that you are not allowed to sing 'Happy birthday'.

Why?

The corona virus spread when you sing "P" and "B" sounds of course!

In the state of Victoria, at one point you were not allowed to go out after 8 pm. You would be arrested there if you do not wear a face mask when you sit alone on a bench in the park.

Or if you want to hold an event about freedom. One morning in 2020, police stormed a pregnant woman's home and arrested her in front of her children. This is because she had posted an event on Facebook. The event was about how these restrictions and rules restrict our freedom.

And at the same time in the US

In the United States, mothers with newborn babies should touch them as little as possible in the first few weeks so that the babies do not become infected with corona. Because there is no scientific evidence that it can create long-term problems in the future for the children if they do not get physical contact...

Oh wait, there are thousands of studies done over the decades that prove physical contact during early life is essential to thrive. e.g. Attachment theory shows how important attachment is for the immune system – both in children and mothers.

Take precautions when having your newborn stay in the same room with you, if you are in isolation for COVID-19.

If you are in isolation for COVID-19 and are sharing a room with your newborn, take the following precautions to reduce the risk of spreading the virus to your newborn:

- Wash your hands with soap and water for at least 20 seconds before holding or caring for your newborn. If soap and water are not available, use a hand sanitizer with at least 60% alcohol.
- Wear a mask when within 6 feet of your newborn.
- Keep your newborn more than 6 feet away from you as much as possible.
- Discuss with your healthcare provider about using a physical barrier (for example, placing the newborn in a crib) while in the hospital.

If your isolation period has ended, you should still wash your hands before caring for your newborn, but you do not need to take the other precautions. You most likely won't pass the virus to your newborn or any other close contact if your isolation period has ended.

- If you had symptoms, your isolation period ends after
 - 10 days since symptoms first appeared, and
 - 24 hours with no fever without fever-reducing medications, and
 - Other symptoms of COVID-19 are improving
- If you never had symptoms, your isolation period ends after
 - 10 days since the date of your positive COVID-19 test

In 2021 a new trend is evolving where they are encouraging mothers not to breast feed. Endless studies show the benefits of breast feeding especially on the immune system. Bottle fed babies have more allergies and a higher risk of chronic health conditions like Asthma. They antagonise and stigmatise mothers who want to breast feed by calling them anti- vaxxers.

How can breast feeding and the choice to take a vaccine or not have any connection?

This separation has to STOP!

We can continue to write for days about all these f *cked up rules and restrictions. What they all have in common is separation, separation and even more separation.

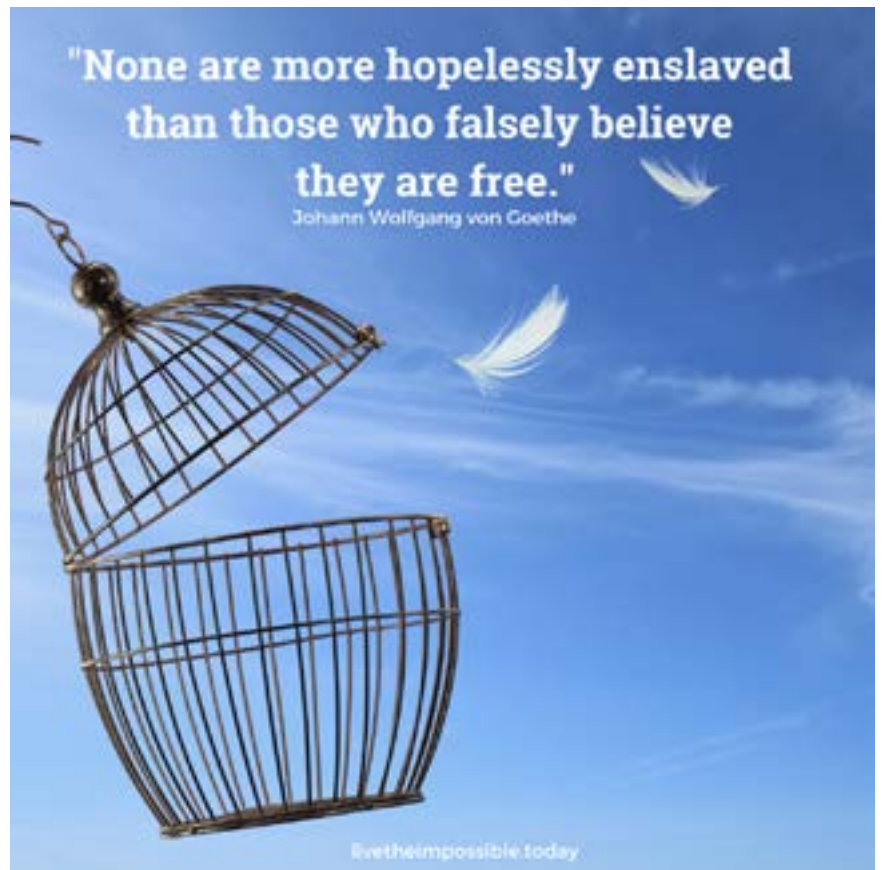

When we are not allowed to touch each other, we become sicker as the immune system decreases.

The separation polarizes us into two extreme groups. Those who buy the whole corona pandemic story, and those who question the same. The latter group are now so-called conspiracy theorists.

Either you are a conspiracy theorist or a sleeping sheep. Both labels are condescending and mean.

Is this the separated world we want? Does this feel spacious for you?

“All of a sudden, governments – without the democratic consent of the people – have put in hasty laws of forced social distancing and vaccinations. Freedom of speech is limited, and you will go to jail if you criticize the governments and their choices, as mentioned before.

Cash has been limited or removed due it being a “contamination risk.” For absolutely no logical reason, some, but not all countries have gone in to ordered lockdowns. Schools are closed, and businesses are going bankrupt.

Unless it is a big chain, then they have not only been open, but made billions of dollars in profit from the lockdown. Police and military personnel walk the streets and fly their helicopters to restrict people from moving freely outdoors. Yet, people are allowed to go to supermarkets and big chain stores.”.

Indirectly forced Isolation

The contractions and isolation of space are clearly seen in our lives. We who work a lot online, might be less affected workwise. If we have children world schooled / home schooled, then it is also more 'normal times' than for others.

We live incredibly free in many ways. But, many of us who live such a lifestyle also often travels for long periods. That has become very limited, unless you choose to play their games of tests and vaccines etc.

In these days with higher radiation from all masts and spread of wi-fi etc. – many are also forced more to self-isolate (more about this in AI perspective).

Since we do not believe in the effect of face masks – or mouth diapers as many in Denmark call it – we can now hardly go anywhere without going against the rules and being harassed.

Our private space becomes violated.

Intoxication of space

The carbon monoxide (CO) intoxication of our space is another great weapon to shut us down and stay passive.

The intoxication comes from heaters, ice-skating rinks, gasoline-powered generators and as we all know – our transports ([Margit L. Bleecker](#))

“1. Carbon monoxide (CO) is commonly confused with carbon dioxide (CO₂). CO₂ is a gas used in carbonated drinks and is also the same gas breathed out by humans.

2. CO poisoning is not caused by faulty appliances, but by lack of air movement. For example, a gas boiler may be operating properly but if the flue is blocked or defective, CO can vent into your home and kill you.

3. Many people believe that carbon monoxide is not a big problem. In fact, it's the main cause of death by poisoning in the UK, contributing to over 10,000 illnesses and up to 50 deaths per year.”

- [Safe fire direct](#)

Fireworks

In another study they measured how much carbon monoxide fireworks on New Years eve produced. It was equivalent to the amount coming from traffic in Stockholm for a whole year.

"In the 1800's Chemists started to discover more and more elements and incorporated new elements into fireworks. Before the 1800's, fireworks consisted of one big flash and an orange light from the carbon igniting. Below in Table 1 the various elements in fireworks are shown.

Sym- bol	Name
Al	Aluminum
Ba	Barium
C	Carbon
Ca	Calcium
Cl	Chlorine
Cs	Cesium
Cu	Copper
Fe	Iron
K	Potassium
Li	Lithium
Mg	Magne- sium
Na	Sodium
O	Oxygen
P	Phospho- rus
S	Sulfur
Sb	Antimony
Sr	Strontium
Ti	Titanium
Zn	Zinc

[Chem libre texts](#)

How many of these chemicals do you know are harmful to our health?

Why do you think they are allowed?

What consequences do these chemicals have on your mind, body and connection to spirit?

They close us down, make us passive and compliant.

We love the entertainment and distraction, so many think it is even worth it!

Green Energy

We have been taught that green energy is such a powerful tool to save the planet and protect us from the inflections from space.

But, is it, really?

Is it just another way for Deep State to control us and make more money while doing it?

Deep State companies burn the Amazon and other jungles, to plant more GMO crops and make palm oil, that is unhealthy and kills millions of plants and animals.

They use global warming and climate change as threats to make us buy electrical cars and solar panels. We are told they are green and good for the environment, but again, we are fooled.

In the documentary 'Planet of the Humans' (now - of course - removed from Youtube) they go through how much fossil fuel is used to create these electrical cars and so called, green energy. They make more money creating 'green energy' from their fossil fuel than on petrol and gas itself!

To create biomass factories, they use tons of petroleum-based energy to run the machines. AND they cut down forest after forest - that literally go up in smoke.

Why?

Follow the money.....

Space Programs

Why is it that the Bilderberg group often are involved in these projects of green energy?

They also had on their 2019 agenda a new space policy.

"A large chunk of [the agenda](#) had a military flavour: "The weaponisation of social media", "cyber threats", even "the importance of space". A couple of weeks ago, Stoltenberg [announced](#) that Nato is about to announce a new "space policy".

[- The Guardian](#)

"The space age began as a race for security and prestige between two superpowers. The opportunities were boundless, and the decades that followed have seen a radical transformation in the way we live our daily lives, in large part due to our use of space. Space systems have taken us to other celestial bodies and extended humankind's horizons back in time to the very first moments of the universe and out to the galaxies at its far reaches. Satellites contribute to increased transparency and stability among nations and provide a vital communications path for avoiding potential conflicts. Space systems increase our knowledge in many scientific fields, and life on Earth is far better as a result."

[Obama White house, 2010](#)

Are the trillions of dollars spent on space systems really about - what is best for humanity?

Can the sentence from the Obama quote above – “Satellites contribute to increased transparency and stability among nations and provide a vital communications path for avoiding potential conflicts” – be seen as surveillance?

Increased transparency means they use satellites in space to monitor us.

“In 2020, over 1200 satellites were sent to orbit, more than in any other previous year, according to spaceflight tracker Jonathan McDowell.

As of December 15, 2020, China was leading the way with 37% of the launches, two points ahead of the USA (35%). Europe lags far behind, with only 5% of the global space launches taking place this year, behind Russia (13%), New Zealand (7%), and just a step ahead of Japan (4%).

The year was marked by the first 6G test satellite launch by the Chinese, while the Americans started the Starlink internet satellite program operated by SpaceX, Elon Musk’s aeronautical business. This project aims at putting into orbit several thousands of telecommunication satellites to cover the entire globe. Several hundred have already been sent out this year and therefore contributed to the record figure.”

[MSN](#)

The space around the earth has become cluttered with satellites and the Deep State keep sending up more to increase surveillance and monitor our every move.

Our air space is polluted by chemtrails, Carbon monoxide and acid rain.

Our home space is polluted by toxins, wifi, smart meters and too much stuff.

Our body space is intoxicated with junk food and sodas.
And we wonder why we feel trapped and enslaved!

Are you ready to feel spacious and free?

Time Perspective

"In 5th century BC Greece, Antiphon the Sophist, in a fragment preserved from his chief work *On Truth*, held that: "Time is not a reality (hypostasis), but a concept (noêma) or a measure (metron)." Parmenides went further, maintaining that time, motion, and change were illusions, leading to the paradoxes of his follower Zeno. Time as an illusion is also a common theme in Buddhist thought.

J. M. E. McTaggart's 1908 *The Unreality of Time* argues that, since every event has the characteristic of being both present and not present (i.e., future or past), that time is a self-contradictory idea (see also *The flow of time*). "

– Wikipedia

Time is an illusion in itself.

It is an artificial system someone made up.

There are researchers who claim that the concept of time is simply an illusion made up of human memories, everything that has ever been and ever will be is happening RIGHT NOW. They argue that there is a 'block-universe' where time and space are connected, otherwise known as spacetime.

Time has been abused, similar to money, as a way to keep us stuck and in lack. Most people have lack of time. "I do not have time to..." (Fill in the blank).

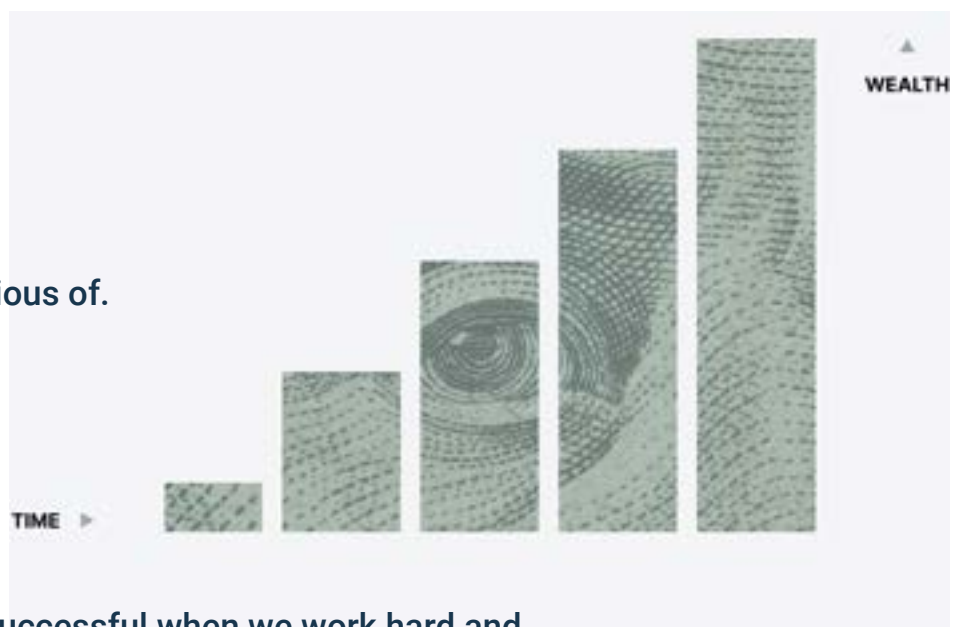

The illusion of the linear time perspective is embedded in so many

things we are not even conscious of.

`Time is money´ ...

`Time is....

Our 12 month calendar, keeps us locked into being good citizens. We are successful when we work hard and long.

Yet, when we step out of the Control Matrix, we take back the power of time and are more present.

With all the should´s and have to´s we are pushed to do every day, no wonder we are stressed.

What happens when we are stressed?

Our immune systems break down, we either go into hyper or passive mode – that brings us into a spiral of despair, depression and diseases.

“Once I did a calculation of how many hours we would need to do what society means you “should do” and all the things you kind of have to keep your family alive. If you clean, cook, work fulltime, do the exercise, sleep, take care of social life, nurture your children, and husband, do your hobbies etc. etc. We would need 11 days a week. In that calculation there is no time for self-nurturing at all.”

[Mission possible chapter of the book Time to Rise](#)

Above that, we all inherit generations of pollution, traumas, unexpressed emotions, and unresolved stress, which is stored in our DNA. When we step out of the illusion of time, we step into new realities and possibilities where we thrive.

Hijacked Calendar

The Gregorian calendar we use today was developed from the Julian Calendar and has no connection to solar or lunar events.

Meaning we are out of sync, harmony and are disconnected from the natural cycles of the planetary year.

This is another method to add stress and to shut us down so we are more compliant.

Cycles of time

“It is also the time for the evolution of the planet to become more balanced. We have been in a cycle of 26,500 years of masculine domination, and before that we were in a feminine domination cycle—now we have entered the final out of five cycles of 26,500 year cycles, where we balance, align, and integrate the two—so we can become whole and experience oneness.

The time of separation has ended. Although remember that we have just entered this cycle so we are like newborns. Things don't work as they used to, so we are clueless sometimes. Previously, we based our knowledge on theories or previous experiences. Now we slowly have to get used to and find new ways to function. And it will take time.

This cycle will last 26,500 years, so relax; we have plenty of time. “

– [“Goodness, Grace and Great Thoughts on Fire”](#)

Can we trust history?

We are told so many lies about where we come from, of how we function and what is “evolution”. If we believe we come from the apes and we only started to become “civilized” 7 000 years ago or so.

Why do we keep finding things that do not fit the narrative?

And why does the new information vanish again?

Different countries teach different versions of evolution. Some say we are descendants of Neanderthals, others that we are a different species.

Who are our ancestors?
Where do we fit on the tree of evolution—do we even belong in Darwin’s evolutionary family?

Darwin’s theory has never been proven to hold. He said himself it wouldn’t.

What we also have forgotten is that a theory means that it is not necessarily true, it’s just a hypothesis. If we take a theory to be the truth and nothing but truth, we build on a lie. In other words when everything we believe is based on false premises, there is no strong foundation to build on.

We discard truth as false due to the flawed foundations. When we re-examine facts we have been taught from different perspectives it becomes more and more obvious we have been living a lie.

We have been told ...

- * It's survival of the fittest.
- * Humanity have always been at war against each other.

How many people do you know who have killed someone?
Why are we taught that killing is 'normal behavior'?
How much of our history is true?

[Gregg Braden](#) summarize it like this:

"Here's What We're Not:

- * The theory of living cells evolving (mutating randomly) over long periods of time, in and of itself, *does not*, and cannot, explain our origins or the complexities of our bodies.
- * The evolutionary family tree for humans *is not* supported with physical evidence.
- * DNA studies prove that we *did not* descend from Neanderthals, as previously believed.
- * We *have not* changed since the first of our kind, the anatomically modern humans, appeared in the fossil record of the earth approximately 200,000 years ago.
- * The precision and timing that produced the DNA that gives us our uniqueness is not commonplace in nature.

Here's What We Are:

- * We appeared on earth approximately 200,000 years ago with the DNA and the advanced brain and complex nervous system that set us apart from other forms of life already formed and functioning.
- * We appear to be a species unique unto ourselves, with our own simple family tree, rather than being a variation of pre-existing forms of life traditionally shown on an increasingly-crowded family tree.
- * The DNA that makes us unique is the result of a rare arrangement of chromosomes, which are fused and optimized in a way that cannot be identified as random.

We're here with the bodies and the nervous systems that afford us the abilities of compassion, empathy, intuition, self-healing,

and much more. The fact of their presence within us suggests that we're intended to utilize—and master—the sensitivities that we arrived with."

[Gregg Braden](#)

History is not what happened.
History is what was written down.

The news is what you are being told from the perspective of the people producing the program or newspaper. They in turn are being told what to say by the Deep State.

For thousands of years if you/family/state didn't agree with the narrative of those in power, be it the government or the church you became the enemy. War or persecution was/is declared against this so called enemy. We can all remember such events even in our own lifetime.

"The narrative is all about terrorism and hidden nuclear weapons etc. But they go to war even if they did not show any evidence of weapons. Again, it comes down to money and power. It's about oil, joining the Federal bank system and to control access to the portals and star gates that are in these areas.

"Indeed the constant hatemongering against Muslims lies in a simple fact. Like the ancient Christians (prior to the Knights Templar's private banking system), Muslims forbid usury (the lending of money at interest), and that is the reason why the American government and media insist that Muslims must be killed or converted.

They refuse to submit to currencies issued at interest. They refuse to be debt slaves. So off to war American children must go, to spill their blood for the gold of the money-junkies. We barely survived the last two world wars. In the nuclear/bio weapon age, are the private central bankers willing to risk incinerating the whole planet just to feed their greed?"

[Michael Rivero](#)

"You're either with us or against us in the fight against terror."

- Bush, November 2001

People are also persecuted for their individual belief or actions, especially if others don't understand it. The most famous is Jesus, but thousands if not millions have met an early death labeled as a 'witch'.

This persecution of healers is still going on today. If anything right now it's increasing. Social media censorship is shutting down anything that does not match the narrow pharmaceutical version of health care.

This is certainly not 'health care' and today we would barely even call it 'sick care'.

As many are dying needlessly as they only have access to the approved medicines and procedures.

Yet simple vitamin supplements, un patented medicines and good nutrition could make a huge difference. But they don't make a profit so are banned. We are also banned from sharing how you can boost your own health.

Even worse there are an alarming number of holistic and naturopathic doctors who have died in suspicious circumstances in the last few years. Often labelled 'suicides'...

When we ask questions and dare to dig deeper the truth will appear. We cannot be silent anymore. If we are silent, we give our silent consent....

Throughout time we have been killed, persecuted and prosecuted when we have tried to do good and to speak our truth.

In the control matrix time is linear and limited.
It's time for this to stop!

Freedom of time comes when you claim your freedom and sovereignty.

At Wholyland.me we create time and new history as we explore new ways of being. Come and play with us on the Footsteps For Freedom journey out of the matrix.

"As all human beings are ruled by their emotions, opinions, and political and religious affiliations, subsequently all history is comprised of as much opinion as fact and, in many cases, has been entirely fabricated for the furthering of the author's personal ambitions or secret agenda."

Kathleen McGowan

Word Perspective

As our weapons have been forbidden in many countries, our strongest weapon for our freedom are words, our pens and our freedom of speech.

In February 2021 a Danish woman was arrested and imprisoned due to at a demonstration saying something like; “We will smash the city peacefully and with love”. This was classed as hateful speech! With the removal of freedom of speech they fine, censor, remove from social media, impeach and imprison to keep us quite and compliant.

Why are Demonstrations allowed?

If you are in a space where you demonstrate (demon-strate), you are allowed to gather as a large group, despite not being able to congregate with others elsewhere.

Why?

Well, it is because the moment we go into a public area – we enter the jurisdiction of maritime law. Hence, it goes into LEGAL rules. If we demonstrate we give up our Sovereignty, as we agree that we are not Free and Sovereign, but are the Strawman.

We agree and give our consent to the fraud, when we intent the opposite. Pretty clever, isn't it?

Spellcast of words

When you spell a word, did you realize that is literal?

You cast a spell on a word. How is that possible?

Everything is energy. Energy vibrates at different frequencies. These energies are electromagnetic fields of consciousness. They descend from higher realms into our reality through our connections.

This energy comes from pure potential of the cosmos, higher self, the zero point field, collective consciousness fields, thoughts and emotions. This transforms into matter. The matter is what we see, hear and touch. Our 3D reality manifests as sound, words and symbols such as written words.

When we use words, they hold specific codes of tones of consciousness. Deep State mystics have known this for millennia. What they do is cast spells, hijack and change meanings of words. This leads us to believe we write or say something different than what we actually do.

One layer of this is Legalese.

Words are actually "whirr'eds" which means that they are spun! To "whirl" around, is to turn and turn and turn, which is why we are told that we live together on a "whirled" (world), which "spins" on an axis as it turns.

The "whirled" (world) we all live on is completely covered by a very large Magnetic Field — MAG-net-IC Field — MAGIC "FEELED" which tells us all about our interpersonal relationship to our "whirled" (world).

[It is ONLY when we "feel" that we truly comprehend what the "field" is telling us! When someone asks "how do you feel? They are asking you to interpret the "magical field" (feeled) around you!]

When we speak "whirr'eds" (words) — we actually spin or cast our thoughts and thus vibrations into the larger "whirled" (world) which has a magnetic field all around it.

When these "whirr'eds" (words) are spun or cast out from you they have to CHANGE the "whirled" (world)

Legalese

“Legalese is a secret language invented to trick you. It uses English words but attaches secret meanings to those words with the sole intention of stopping you from believing that what they are saying to you has nothing to do with the normal meaning in the English language. Their purpose is to cheat you and rob you.

For example, they will ask to you “Do you Understand?”

In English, that means “Do you comprehend what I am saying to you?”.... But they have changed the meaning in Legalese to mean “Do you stand under me?” meaning “Do you grant me authority over you so that you have to obey whatever I tell you to do?”

“Making false statements (18 U.S.C. § 1001) is the common name for the United States federal process crime laid out in Section 1001 of Title 18 of the United States Code, which generally prohibits knowingly and willfully making false or fraudulent statements, or concealing information, in “any matter within the jurisdiction” of the federal government of the United States, even by merely denying guilt when asked by a federal agent.

Quantum Grammar

Quantum Grammar is the official language used at the Hague, the highest court on planet earth, it also used at the International Criminal Court

Quantum Grammar is recognised by the United Nations in 250 countries as the standard for the grammar. To successfully write a sentence you must be able to read it frontwards and backwards and it mean the same thing. This is contract. You can mix upper and lower, case, highlight and underline, but the font must stay the same and for the continuance of evidence you must not drop down more than 2 lines after writing a heading or more than 2 spaces in between words. Never use Italics, quotations or parenthesis.

For the use of Quantum Grammar technology/mechanics there is only one thought, one idea, one VERB per sentence. There are only two VERBS :IS=:Singular and :ARE=:Plural VERB is a thought. ADVERB corrupts Adding VERB.

Parse-Syntax-Grammar – Parse means the break down of words and what they mean – the parts of speech, Parse-Syntax-Grammar means creating a correct prepositional phrase for a correct sentence structure. It takes 13 words to make a sentence of fact. It is One sentence One thought.

"So it is written, so it shall be done" a Pharaoh once said.

A great way to wake up to this deception is through Quantum Grammar.

The language of quantum grammar is often referred to as Quantum-Grammar as named by its author David-Wynn: Miller,

CORRECT-SENTENCE-STRUCTURE-COMMUNICATION-PARSE-SYNTAX-GRAMMAR/C.-S.-S.-C.-P.-S.-G. Construct.

It is a way to convey a message in writ in a way that each sentence is structured after simple rules of mathematics. This makes it certifiable in both directions of reading. Each sentence is correct with the language syntax, the unique construct, has its own rules of syntax, styles and word-dictionary definitions.

All words of FACT are positive and every sentence is only conveyed in NOW-TIME space. The construct uses unique methods that we can certify was used in the past, such as the use of stamps on important lawful documents.

The grammar-construct is so unique, powerful and significant it's the only language ever in history to have its own FLAG placed on each document, just like a sovereign nation-state flag.

The Construct is an open-source copyright that is free and available allowing for amendments to be added and included by each individual user. The language has a wide use and application within the Sovereign movement, as each Sovereign craft their own lawful documents of identification and authority.

• *n.*

The doctrine that land and capital should be owned by society collectively or as a whole; communism.

The International Postal System is used to provide copyright protection of each document creation. In this regard the Quantum Grammar language construct is unique.

Our job now is to cast new spells of awakening through our unique codes of tones.

When we start to play with words, create our own documents to state we are Sovereign, Deep State has no power over us.

Finance and Business Perspective

“I am a most unhappy man. I have unwittingly ruined my country. A great industrial nation is now controlled by its system of credit. We are no longer a government by free opinion, no longer a government by conviction and vote of the majority, but a government by the opinion and duress of a small group of dominant men”.

– Woodrow Wilson 1919.

Money is the Deep State’s greatest weapon to manipulate and control the narratives and keep us enslaved.

Money is also powerful tool to keep us divided and polaratised and at war against each other.

“Lame stream media” of the world is owned by the elite – by the same six companies.

All states are private companies that are created for profit.

Follow the money

“My investigator friends tell me that to solve a crime, follow the money and look for MOTIVE, MEANS AND OPPORTUNITY. Global Domination has long been a core driving motive (more important than money to the folks at the top of the pyramid who can print or take your money). Bill Gates, George Soros, the Rockefellers, the Rothschilds and the other usual suspects have the means to buy out, bribe or threaten the key technology, pharmaceutical and media companies as well as the big regulatory agencies. So, it makes sense to see if there is any evidence that they have been planning to create and seize the opportunity to inflict their mega crimes on humanity.”

[-Thrive on](#)

The saying; *‘follow the money’* often brings us down the rabbit holes of corruption, treason, child trafficking, satanic rituals, war and mass murder of different kind. The rich get richer by spreading fear and false stories of pandemics, war threats, terrorism and one against another.

Look at which companies at least doubled their income in 2020, whilst millions went into poverty. Amazon, Google, Facebook, big pharma companies did great in 2020.

For instance, just watch the [Fall of Cabal](#) series, and the [Sequel of Fall of Cabal](#).

Most NGO’s, UN, World Economic Forum are just a few money laundriers to funnel money and make the rich even richer and more powerful. The [Sequel of Fall of Cabal](#) (Also available in the [Wholyland](#) Library)

The Rich get Richer

As the past year has shown there are millions of small and medium size businesses going bankrupt or just closing their doors for good.

Whilst a few corporate giants have got richer and richer. Industry top dogs like [Bill Gates](#), [George Soros](#), Facebook [Mark Zuckerberg](#) , Ex Amazon CEO- [Jeff Bezos](#) who own 85% of all the money in the world have at least doubled their fortune during the 'plandemic'.

They actively and openly support the New World Order, depopulation agenda and removal of the middle class.

“Google was the most valuable brand in the world in 2017 (surpassed by Amazon), but has received significant criticism involving issues such as privacy concerns, tax avoidance, antitrust, censorship, and search neutrality.”

[Wikipedia](#)

YouTube is part of Google which is part of Alphabet.

Everybody has heard of Google and YouTube, but few people have heard of Alphabet. Again this is why it's important to follow the money!

“On January 16, 2020, Alphabet became the fourth US company to reach a \$1 trillion market value entering the trillion dollar companies club for the first time.”

This club includes PetroChina, Apple, Amazon and Microsoft.

Alphabets subsidiary businesses:

- * Calico Human health
- * CapitalG - Private equity for growth stage technology companies
- * DeepMind - Artificial intelligence
- * Sidewalk Labs Urban innovation: infrastructure through technological solutions
- * Verily Human Health
- * X research and development for "moonshot" technologies
- * Waymo autonomous driving
- * Wing drone-based delivery of freight

In October 2020, the United States Department of Justice filed an antitrust lawsuit against Alphabet, alleging anti-competitive practices.

[Wikipedia](#)

This is just one of many lawsuits.

There is reason why we are told to follow the money. It all comes back to the same families.

“More and more people are becoming aware that 99% of the Earth’s population is controlled by a “elite” of 1%, but the Council of 13 families consisting of less than 1% of 1% of The “elite” and no one on Earth can apply for a membership. In their opinion, they have the right to rule over the rest of us, since they are the direct descendants of the ancient gods and are considered of royal lineage.”

[Infinity explorers](#)

Stakeholder Capitalism

According to World Economic Forum it's a great plan to have stakeholder capitalism. They have tried to implement it since the 50's. They might update and tweak here and there – but the message is the same.

“Stakeholder capitalism, first of all, is also a form of capitalism: individuals and private companies make up the largest share of the economy. This is, we believe, a requirement for a sustainable economic system: Private individuals and companies must be able to innovate and compete freely, as it unleashes the creative energy and work ethic of most people in society.

The economic activities of such private actors must also be protected and guided, to ensure the overall direction of economic development is beneficial to society, and no actor can freeride on the efforts of others. This is the kind of capitalism we ought to endorse.

All those who have a stake in the economy can influence decision-making, and the metrics optimized for in economic activities bake in broader societal interests.

It makes stakeholder capitalism the preferred economic system and the one we ought to implement going forward.”

- [Wiley, January 2021](#)

What does this mean for the future?

In reality this means that a few elite companies and their key players are protected and have decision making rights.

Where as small and medium sized businesses are either forced to close, be sold to the state or larger corporations.

The stakeholders will be the elite few!

These large companies will only be accountable to their stakeholders and not their shareholders.

What is Money and our Financial System?

Let us go back a bit....We use the financial system to demonstrate the *value* of something. The elite create the value.

They program us to believe it has value and tell us what that value is. All of a sudden, diamonds had value as Deep State said so.

Today, money is not backed by gold and silver as it was in the past. It is produced by adding made up numbers in the banks computer systems. Money today has no more real value than the paper (or plastic) it is printed on.

Money is created out of nothing.

Money is created as a lack, debt and fear-based program.

The future the Deep State want is a cashless society.

They can then monitor every penny we spend and on what.

They can close/freeze and steal our money from our private accounts if we don't obey their agenda.

The Money Spell

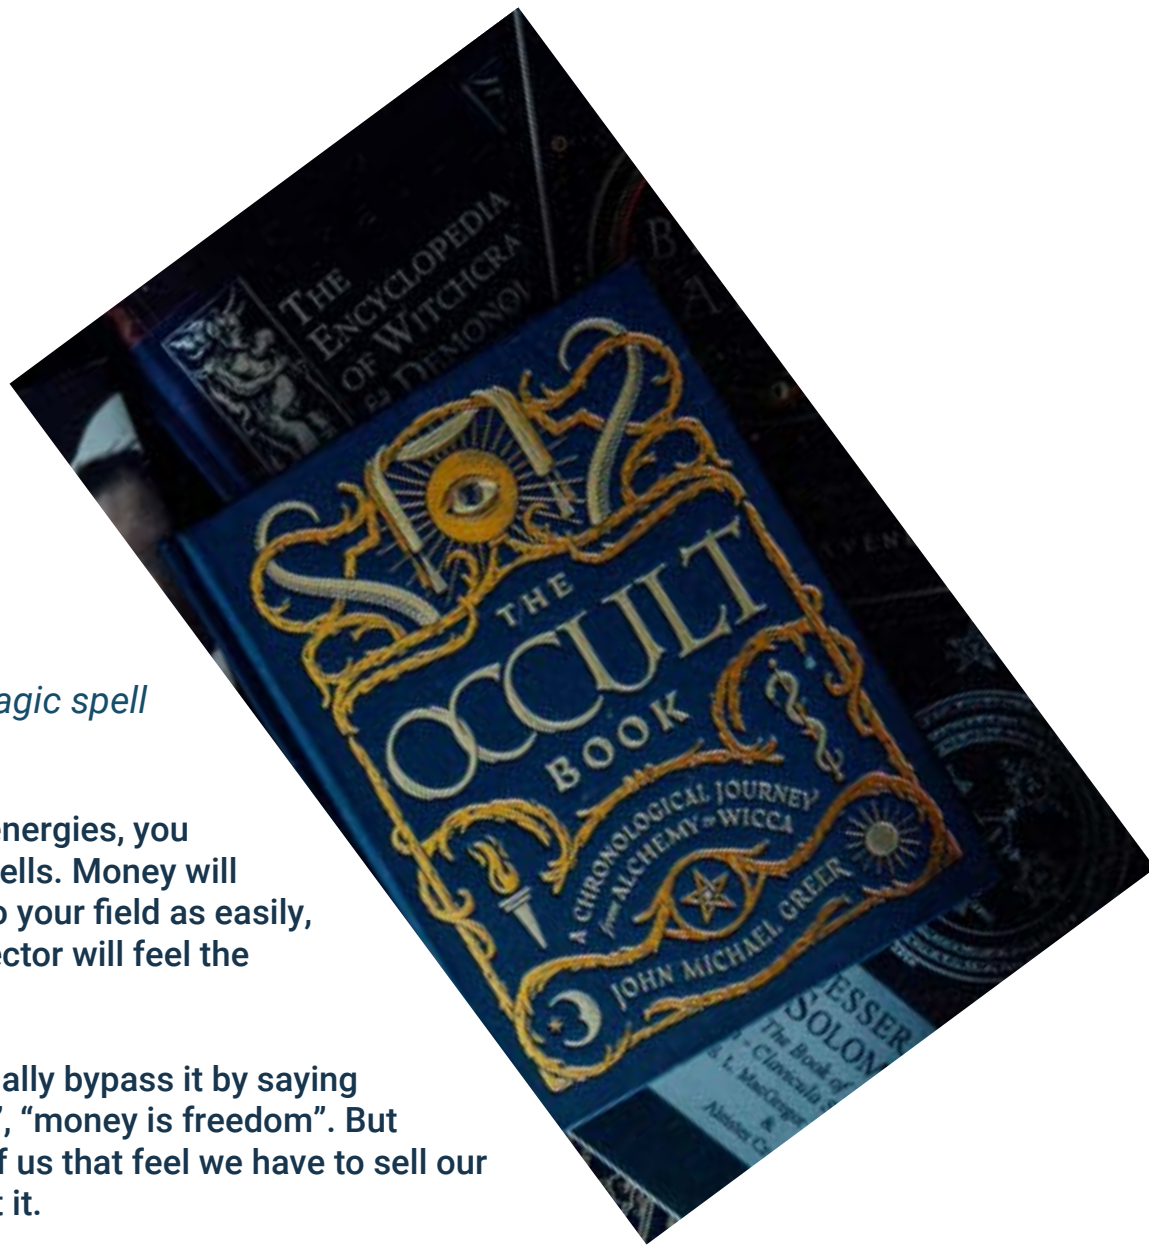

Money has a *black magic spell* on it.

If you are sensitive to energies, you are also sensitive to spells. Money will therefore not come into your field as easily, since your bullshit detector will feel the “ickiness” of it.

We can try to spiritually bypass it by saying “money is energy”, “money is freedom”. But there might be a part of us that feel we have to sell our souls to the devil to get it.

This spell on money means that those who have it *control the masses*. You can buy yourself out of everything and into anything. There is no moral, ethics or as mentioned before, real value to it.

Money therefore enslaves us and keep us trapped to do what we are told, to listen to authorities and not question the status quo. The spell on money makes it worth killing for.

"Behind all these wars, all these assassinations, the hundred million horrible deaths from all the wars lies a single policy of dictatorship.

The private central bankers allow rulers to rule only on the condition that the people of a nation remain enslaved to the private central banks. Failing that, any ruler will be killed, and their nation invaded by those other nations which are already enslaved to private central banks.

"The so-called "clash of civilizations" we read about on the corporate media is really a war between banking systems, with the private central bankers forcing themselves on to the rest of the world, no matter how many millions must die for it."

- [Michael Rivero](#)

Fear of Money

If you ask someone to stand up for their freedom, money is most likely the reason not to. Most people have fear about the lack of money. Even if they have plenty! They say ...

**“I have to support my family
Without money I am not allowed to...
I can't afford...”**

**Is this how you like to live your life?
Being controlled by the few?
Be a puppet?
As they threat to ..
Freeze your account
Take your children
Fire you if you do not take the tests or vaccines and so on
When is enough enough?**

**When we fear to loose something or someone we are enslaved
and trapped in the matrix.**

**When we are not aware of the spells they cast upon us and on
things around us – we are not free to break them.”**

[Wholyland](http://www.wholyland.com)

“Big Pharma is a perfect example. People say they are motivated by money. But if they were really motivated by money and power, in my opinion you would think they would do something more health orientated to promote health, as they would get more money and more power as people would be getting better.

But I don't think it's about money and power but the dumbing down of the population and hurting people. It's more sinister than just power and money.

I think it's the difference between good and evil because honestly if you had product A and I had product B. And if my product is better and faster than yours and it makes people feel better.

Why wouldn't they get product B and they would. When you allow free capitalistic economic principles the best product is going to win. But here the best product they want to suppress, to dumb it down, want to villainise it, demonise it, ostracise it and promote something that will cause more harm, more discomfort, longterm sickness”

- [Dr Rushid Buttar](#)

The Deep State are experts at keeping us indebted to them, as they keep us in fear of not having enough and competing for more.

Money is one of the greatest tools to keep us enslaved on many layers.

Are you ready to break free from their money matrix and cocreate a new one where everyone can thrive?

A place where money goes to love, respect and appreciation.

ARTIFICIAL INTELLIGENCE

Artificial & Technical Perspective

“Artificial intelligence (AI, also machine intelligence, MI) is intelligence demonstrated by machines, in contrast to the natural intelligence (NI) displayed by humans and other animals. In computer science AI research is defined as the study of "intelligent agents": any device that perceives its environment and takes actions that maximize its chance of successfully achieving its goals.[1] Colloquially, the term "artificial intelligence" is applied when a machine mimics "cognitive" functions that humans associate with other human minds, such as "learning" and "problem solving.

[- Wikipedia](#)

All systems in society are artificial; financial, educational, social, schedule, philanthropical – even country borders.

We have of course some natural systems in nature and in our bodies, but these are most of the time out of harmony and balance due to these artificial systems that run our lives.

All technologies are born out of purpose. For example, search engines were created to sort through the massive amounts of data online. With each new upgrade technology compounds existing technologies to create something better than what was previously used. And on and on it goes.

Question is, better for whom?

Computer vision

“Ray Kurzweil is director of engineering at Google .He thinks “true AI will arrive when narrow fields within machine learning, computer vision and so on get broader and broader until there “won’t really be any difference between AI and natural [human] intelligence”.

“In the 2030s we are going to send nanorobots into the brain that will provide full immersion virtual reality from within the nervous system and will connect our neocortex to the cloud. Just like how we can wirelessly expand the power of our smartphones 10,000-fold in the cloud today, we’ll be able to expand our neocortex.”

[Irish times](#)

“It’s almost certain the work of psychologists can be replaced in large part by AI. Does this mean human psychologists should be replaced by AI?

Many of us may feel uncomfortable with this idea. However, we have a moral obligation to use the treatment that gives the best outcomes for patients. If an AI-based solution is found to be more effective, reliable and cost-effective, it should be adopted.”

[World economic forum](#)

Is this the future we want?

Why do we believe machines are smarter than us?

Human beings cannot compete with AI, we have to find ways to work with it, to use our creativity and humanness to make us dif-

ferent from the machines instead of trying to be as them. The whole educational system we have today can be seen as created as a machinery, where humans are like machines, learning what to say, think and do.

Elon Musk pointed to machine intelligence playing the ancient Chinese strategy game Go to demonstrate rapid growth in AI's capabilities. For example, London-based company, DeepMind, which was acquired by Google in 2014, developed an artificial intelligence system, AlphaGo Zero, that learned to play Go without any human intervention. It learned simply from randomized play against itself. The Alphabet-owned company announced this development in a paper published in October 2017.

“And mark my words, AI is far more dangerous than nukes. Far. So why do we have no regulatory oversight? This is insane.”

- Elon Musk

Again, who benefits from that?

It is for sure not for the highest good of all. We have the elite telling us what to think and believe and do not even question their motives.

An article about the Bilderberg group meeting in 2019 shows the Deep State interest in AI.

“Bilderberg has a keen and growing interest in hi-tech and AI. Schmidt’s fellow Bilderberg insider Peter Thiel, the billionaire founder of PayPal and a director of Facebook, was seen arriving

with the Swedish physicist and AI expert Sara Mazur.”

O online Censorship

Censorship has reached new levels in 2020. A large number of scientists, doctors and journalists have been censored in numerous ways, for sharing information, science, data, and opinions about COVID.

They question, or in some cases completely contradict the information we receive from government health agencies, and 'political scientists' like Dr. Anthony Fauci. The Deep State censor through removal and shadow banning of information on Google (remember the lawsuits for censorship we mentioned above?), Youtube, Facebook and most of the other social media platforms they own.

They remove apps such as Parler and Telegram from Appstores so we cannot download those apps where censoring is not happening.

We are trained to believe in science. Yet, there are so many contradictions in what science says and gets published. This often depends on who pays for the research in the first place. Nothing new here!

"Censorship is modern day book burning."

Dr Rashir Buttar

What is new is the high number of scientists, experts, doctors and journalists who want to spread their truth who are censored and removed on all platforms. David Icke and Dr Mercola are just two who have been de-platformed on all social media, even Trump.

What happened to freedom of speech?

“For example, Dr. Jay Bhattacharya (one of [The Great Barrington Declaration](#) initiators) , professor at Stanford University Medical School, a physician and epidemiologist gave an interview a few months ago expressing just that. Stating in an interview with *Just The News*, “when people say follow the science, what I’ve seen is they often mean censor scientists who don’t agree with some scientists...the people who are sort of controlling policy.” He’s one of four from Stanford’s medical school who published a paper showing that lockdowns, stay at home orders and business closures are not an effective tool for stopping the spread of COVID, not only that they are causing a lot of harm in many different areas. There are dozens of studies showing the same thing”.

[Collective evolution](#)

[Dr. Kamran Abbasi](#), wrote an article called; Covid-19: politicisation, “corruption,” and suppression of science, published November 2020 which stress:

There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution.

-Aldous Huxley

“Science is being suppressed for political and financial gain. Covid-19 has unleashed state corruption on a grand scale, and it is harmful to public health.¹ Politicians and industry are responsible for this opportunistic embezzlement. So too are scientists and health experts. The pandemic has revealed how the medical-political complex can be manipulated in an emergency—a time when it is even more important to safeguard science”.

[BMJ](#)

“On Feb. 15, 2021 the Jeff Bezos-owned Washington Post [published](#) a Feb. 11 2020 [Associated Press article](#) applauding the censorship of those who criticize the government’s pandemic response policies. The lockdown has netted Bezos \$70 billion since its start. If you are Bezos, a permanent lockdown is a goldmine.

Bill Gates, meanwhile, has made \$20 billion from the lockdown he previously war-gamed and then cheer-led. His strategy has included emasculating the independent media – the most likely sources of the sort of vigorous journalism that might otherwise scrutinize his self interest in the policies he helped successfully engineer for the rest of us.”

[Childrens health defense](#)

“Gates has been funding all stages of this vaccine agenda - planning, weaponization, manufacturing, vaccination, testing, tracing, tracking, chipping, the WHO and the media.

Gates was a partner, along with the CDC, WHO, big pharma, big banks and Johns Hopkins in creating Event 201 (21) – in October of 2019. This video-recorded scenario rehearsal once again shows the detailed planning for global lockdowns, economic collapse, food shortages, civil unrest and authoritarian overreach - with the pandemic as an excuse.

Fauci destroyed Dr. Judy Mikovitz’s whistleblowing research into the virus and had her imprisoned for years on no charges. Why would they do that? She tells her story in the film PLANDEMIC and in her books, PLAGUE and PLAGUE OF CORRUPTION.”

[Thrive on](#)

“Social media tycoons are now openly serving as government surrogates in censoring factually accurate information that departs from government policies and pronouncements,” said

[Robert F. Kennedy, Jr.](#)

We could go on and on, but there are many perspectives on the artificial and technical.

Electromagnetic fields and radiation

Our wireless networks are sending out microwave radiation. Millions of people across the globe are affected by the microwave syndrome, EHS Electrohyper Sensitivity. Deep State do everything to darken and withhold this fact.

Research on health risks is withheld from the public. Again money, power through surveillance and disturbance of our body's electromagnetic field are part of the agenda to one world order. Tele communication companies around the globe do not only provide us with the technology to use internet, but also save our data and surveil it.

“It's not an accident that the frequency band chosen for cell phone use just happens to match the second order waves that Wilhelm Reich discovered in the late 1940's to effect thought transmission and allow the mind to be manipulated without the victim realizing it. Reich worked on this project secretly for the CIA for over 5 years, from 1947-1952, until he realized who the CIA was planning to use the mind control on -the American people. He was outraged that he was deceived and used for such a treasonous motive and swore never to cooperate with the CIA, FDA, etc. again.

Reich was covertly murdered in Federal prison in 1957, just a few weeks before he was due to be released, having been in prison for 2 years on a trumped up charge leading to a contempt of court citation. He was reported to have had a 'heart attack'. He was strong as an ox. He was murdered two weeks before his parole board hearing. His last book, written in prison, was found to be 'missing' after his death and never returned to his family.”

Billions of dollars have been used to roll out 5G around the world. Not a single cent has been used to look at the health risks with it. More and more people are getting sick (Covid symptoms in many are suspiciously like those of radiation sickness).

But those who are sensitive to these frequencies are laughed at. Mandatory smart meters are put up in houses, and many develop symptoms and disease.

The whole world is built up on this wireless technology even though it was known from the start that the health risks were significant. This was shown by Russian Military Research in the 60's. There is even a name for it – 'microwave syndrome'.

EMF protection clothing

Many people who are EMF sensitive are completely locked out of society both socially, mentally and physically. Radiation prevents the production of Melatonin, which is vital to sleep and as a very strong antioxidant is good for the immune system. Doctors do not have any knowledge about EMF, as it is not part of medical education. They therefore just prescribe antidepressants and sleep remedies.

Some have felt symptoms for a long time, others have not felt anything at all and suddenly get sick overnight.

It affects all age groups and all classes of society. Our exposure to microwave radiation has increased **DRAMATICALLY** in the last decade. In the past, we had a cable connected computer in the home and surfed there and mobile phones only used for calls and SMS.

Today, most people surf the net on their phones. We have Wi-Fi

routers in our homes, schools, offices, and transportation. We are also affected by our closest neighbours and mobile mast radiation. It is impossible to get away from even in a glacier!

Electric companies remove the analog gauge for reading power consumption and replace with a wireless Smart Meter.

In schools, Wi-Fi routers for computers and tablets are used along with personal phones. This exposes children to astronomical levels of radiation. It is not uncommon for there to be several masts nearby or even on the roof of the schools and gives very high radiation in the schoolyard.

This is increases rapidly with the role out of 5G.

5G routers are placed at regular intervals throughout many public areas. They can often be seen on street corners. They are particularly prevalent in hospitals, school and hotels and where people gather.

Interestingly ...

“Toxic radiation, like 5G, seems to be one of the sources of damage to our immune systems that renders us vulnerable to the Corona contagion. Wuhan was the first of many cities in China to be completely covered with 5G radiation - shortly before the outbreak. The Princess Line cruise ships that were quarantined with large numbers of Covid cases had boasted of their new 5G coverage throughout the ships.”

Radiation causes oxidative stress to the cells, DNA injuries, neurological diseases, cancer, brain tumors, thyroid problems and EHS (Microwave syndrome).

Here are some of the symptoms:

- | | | |
|----------------------------|---------------------------------|-----------------------------|
| Headaches | Severly elevated pulse | Weakened immune system |
| Migraines | Heart palpitations | Sound and light sensitivity |
| Dizziness | Heart issues | Eye problems |
| Concentration difficulties | Sleep difficulties | Nose bleeds |
| Memory problems | Muscle and joint pain | Abnormal fatigue |
| Skin burns | Pressure over the head and neck | Respiratory impact |
| Vibrations | Ringing in the ears | Hair loss |
| Body shakes | Anxiety | Skin rashes |
| Chills | Depression | Heavy chest sensations |

Are the benefits of a faster internet worth all the health issues?

A and the weather

Weather patterns around the world are changing. This is blamed on global warming.

Is this really true?

We see huge fires, earthquakes, tsunamis, hurricanes, tornadoes and strange snow storms with snow that doesn't melt, but turns black and hard when in contact with a flame.

A woman in rural Vermont took a sample of the snow as her dogs unusually had issues walking on the snow and send it to a lab. The lab has to report samples with levels of aluminium above 5. The level of the snow was 28!

Aluminium destroys the root systems in the soil, which basically chokes the trees to death as they cannot obtain water or nutrients. Aluminium is said to be the main cause of Alzheimer's.

Again, if you cannot obtain water and nutrients your own roots (blood veins and nervous systems etc.) become 'plugged' with Aluminium. No wonder there is a huge rise in the numbers who suffer with Alzheimer's. All the chemtrails and artificial chemicals surrounding us literally chokes everything to death.

Although, it's difficult to discern what is natural and what is manmade of these weather occurrences. Something do seem to be off, when hurricanes travel in a straight line on the coast of Australia (as in January 2021), and then turn right back up the coast again. Nature is not linear. Nature flows, moves in circles and spirals – but very seldom in straight lines!

If it is manmade where does it come from?

One possible location is HAARP

Located in Alaska there is a High-frequency Active Auroral Research Program (HAARP).

“The main instrument is the Ionospheric Research Instrument (IRI), an array of 180 radio antennas spread over an area of 0.13 square kilometer (33 acres).

The IRI transmits at frequencies between 2.7 and 10 MHz with a power of 3.6 megawatts. It transmits radio waves upward into the ionosphere, where they cause electrons to move in waves. HAARP is an ionospheric heater, so called because the excitation of electrons increases their temperature, and it is the most powerful ionospheric heater in the world. By altering the density of electrons in a specific region, scientists using HAARP can study how the ionosphere reacts to changing conditions.

HAARP became a popular subject of conspiracy theories. Venezuelan Pres. Hugo Chávez blamed it for the 2010 Haiti earthquake, but most such theories about HAARP concern its use for weather modification or mind control.”

Summery

We started off writing this book with the idea to make a short booklet. But every time we write something, there are more rabbit holes to dive into and cover.

So this, now book, is still far from encompassing. It is a start. There are so much more to cover, so much deeper to go into all of this.

Foster Gamble from the Thrive movement sums up what is going on right now very well.

“The globalists have been very successful in taking over schools, governments, militaries, intelligence agencies, currencies, economies, media, entertainment and more. They have suppressed truth-seeking media, new energy, breakthrough medical cures and natural agriculture.

However, there are some important items on the controllers’ necessary “to-do” checklist with which they were not being successful enough to gain total control.

Suddenly, in the last nine months, (Dec 2020) they are startlingly close to accomplishing them all.

- * Destroy small businesses
- * Mega corporations stay open while small businesses and churches are shut down - further decimating the middle class

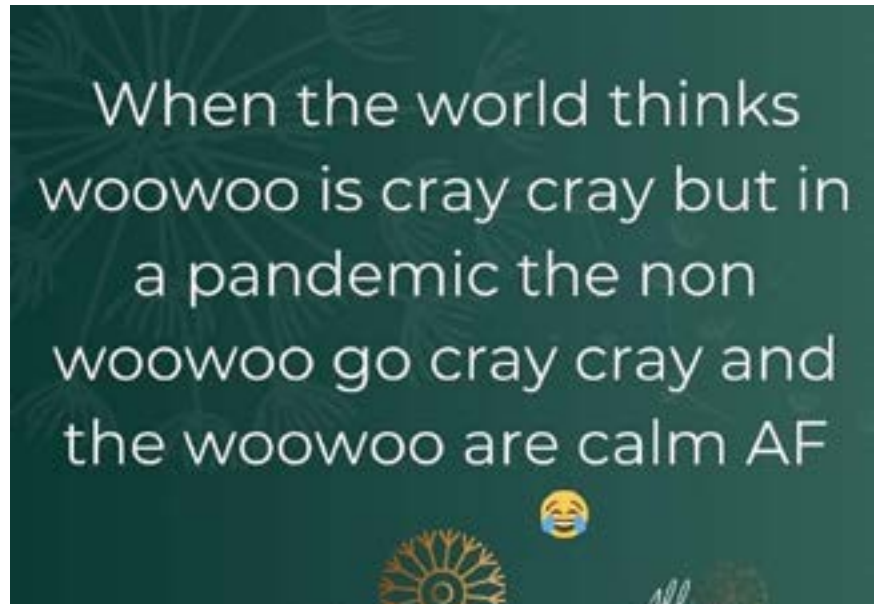

**“They are the sickness.
We are the cure.”**

-Jon Rappoport

- * Collapse the economies of the US and other countries
- * This would eliminate the major obstacle to a One World Government – hundreds of millions of armed and independent freedom lovers.
- * The top billionaires in the US have vastly increased their wealth while hundreds of millions of others are losing their incomes, businesses and homes.
- * Big Tech like Google, Amazon and Facebook have been suddenly and quietly buying up newly vacated office buildings in Covid and riot-torn cities like New York.

- * Distract people while printing trillion-dollar bailouts for the bankers, major corporations and states.
- * The big US and European banks were all going bankrupt with trillions in derivatives debt and they were being unable to raise interest rates, taxes or creating new wars – which are the usual Big Bank rescue techniques.

- * Enforce a Cashless society.
- * This would allow for total monitoring and digital control over everyone's resources. Government run cryptos, rather than independent, would only aid with this control strategy.
- * Censor dissidents – Internet, books and films.
- * This is the technocratic version of Orwell's Ministry of Truth and Thought Police.
- * Instigate civil unrest.

- * Turning up the flame on getting us to blame and fight with each other - just like all of the Soros-funded “color revolutions” around the world, making it easier to justify Martial law and paving the way for the - - Rothschild banking system and acquiescence to the New World Order.
- * Ban Freedom demonstrations in countries everywhere, including like Hong Kong, France and China.
- * Stop Trump’s vendetta against the Deep State by hurting the economy, blaming him for Covid and forcing mail-in ballots that are more easily manipulated.
- * Force global vaccination.
- * The Gates/Gavi/Monsanto eugenics and depopulation cartel changing our RNA/DNA to turn humanity into a GMO species – easier to control and ready to merge with or surrender to.
- * Artificial Intelligence robots. Will natural humans want to breed with GMOs? Will we need ID cards to describe the state of our DNA? How long before no natural humans exist?
- * Get RFID chips into everyone’s body.
- * Makes us easier to track, to sicken or to effect emotionally - using 5G and other EMF radiation.
- * Rapidly reduce the population without the real cause being apparent.
- * A smaller population is easier to control, with less competition for food.
- * Impose UN Agenda 21/30 (13) and the Green New Deal.

- * This is the techno/communist plan - fronted by the UN under the guise of environmentalism and Sustainable Development Goals - to control all populations, move most into cities and centrally manage the allotment of resources through the smart grid and Chinese communist style social credit scores.
- * Justify and impose total surveillance.
- * From the skies, on the streets, on our computers, in our homes and appliances and in our bodies through chipping with tracking and tracing.
- * Technocratic fascism.
- * Rather than an individual Dictator or King (whose unjust authority people have come to recognize), the technological system itself that tracks us, restricts and rewards us will seem to be the source of authority. But behind this digital curtain will still be always hiding the fearful sociopathic wizards – perverted secret societies using lies and fake money to dominate or destroy the rest of us.
- * Universal government control of healthcare.

- * National government control of healthcare has already proven to be incompetent and coercive.
- * Now the UN is pushing for Global control of everyone's access to medical treatment.
- * A One-world Government.
- * The Paris Climate Accord, The Trans Pacific Partnership, the WEF's Great Reset... these are all deceptive ruses to get the human species to fund, legalize and submit to a One World Totalitarian State – the tragic and lethal grand goal of the Global Domination Agenda."

There are some common threads here.

Deep State use money, fear, pollution, mind control, etc. to control and manipulate us.

All of this information can be depressing to know. It is not fun to realize that everything we have been taught is a lie. It is not reassuring to hear about the fraud, the deceptions and pure evil that is playing out here in 2021.

But we cannot change what we are not aware of. We cannot stick our heads in the sand and pretend it is ok that we are forced, bullied and threatened to obey and oblige.

The Deep State, do it because they can.

So what can we do?

What are the remedies?

It's vital we wake up and stop playing their games, raise our vibration, purify our systems and claim our sovereignty and freedom.

Deep State want a one world order where they have all the power over us. They use divide and conquer strategies to separate us as they know that is how they go down.

We do not have to end up with a scenario worse than WW2 – together we can not only be free, but we can all thrive!

We can:

- * Do the research and share it.
- * Create our documents to claim our sovereignty (such as the Live Life Claim).
- * Eliminate toxins like 5G, pollution, aluminium, GMOs, pesticides, herbicides that poison our environment and our bodies, mind and soul.
- * Boost our immune systems with healthy food, clean air, water and food.
- * Get exercise and lower our stress.
- * Nurture more contact, purpose and love.

"No one can live without relationship. You may withdraw into the mountains, become a monk, a sannyasi, wander off into the desert by yourself, but you are related. You cannot escape from that absolute fact. You cannot exist in isolation."
